An old sore or ulcer is not only a source of great bodily discomfort and pain, but the constant care, worry and anxiety over one of these malignant festering places produces an unhealthy state of the nervous system and the patient becomes morbidly sensitive, miserable and gloomy. No one could be otherwise when haunted by the presence of an inflamed, angrylooking sore, with a continual discharge, carrying with it the life fluids, thus robbing the body of strength and vitality. All slow-healing, stubborn sores are dangerous. The same germ-producing, cancertainted blood is back of every sore or ulcer, large or small, that does not promptly and permanently heal; the little blister upon the lip or tongue, the warty growth or mole upon the cheek

About a year ago I wrote the Medical Department of your company to ascer-tain whether or not your S. S. S. would urs Gancer, as my wife had one on her breast, which three or four of the best detors at Croston, Iowa, advised her to have cut out or removed with a plaster. Upon receipt of your letter, I bought flive bottles and she compared to take it. hottles and she commenced to take it, and in less than eight months she was cared, I did not write you until now be-cause I wanted to see if the cancer would case i wanted to see if the cancer would tome back again. There are no symp-toms or signs of a return and I write in order to let others know what a wonder-fel medicine your S. S. S. is. My wife used just 17% bottles, but the Cancer was cured after she had taken 12 or 14. Ifeel as though your S. S. S. could not be too highly recommended. G. E HUMPCAR m.

and other parts of the body,

and the almost imperceptible tumor or lump upon the breast, as often result in Cancer as the deeper and more frightful-looking ulcers. They feed upon the same morbid and destructive materials that are generated within the blood, and inflammation and destruction of tissue will continue just so long as this impure matter is carried through the circulation

Six years ago my leg from the knee to the foot was one solid sore and very offensive. I spent over \$1,000 on two trips to Hot Springs. Local physicians treated me to no purpose. I had about come to the conclusion to have my leg amputated when a friend induced me to try S. S. S. I friend induced mo to try S. S. S. I began to take your medicine, and in seven months it completely cursed me. I consider S. S. S. the grandest medicine the world has ever known. My case is a witness today as to what S. S. Will do when taken regularly. I have gain-ed 20 pounds. I write this to show the company my appreciation of their wonderful medicine, and I am ready to write a lotter at any time ready to write a lotter at any time to any one wishing further infor-

to these old sores and ulcers. Washes, salves, nor anything else applied directly to the sore can do any permanent good; neither does the use of the knife or flesh destroying plaster cure, for local causes have nothing to do with these germ-breeding plague spots. You might cut out every particle of the diseased flesh and scrape the bone, but another sore would come. The germs or poison in the blood must be destroyed, the stream of sluggish, polluted blood purified and made strong before the healing process begins and the sore or ulcer can get well. S. S. S. is the only remedy known that can and does accomplish this. It cleanses and purifies the circulation, and when new, rich blood is carried through the little veins and arteries to the sore, it brings about a healthy healing around the edges, and a permanent and thorough cure is soon effected. S. S. S. not only

expels all impurities, but works a complete and radical change in the entire system by stimulating inactive organs, toning up the nerves, increasing the appetite, and aiding the digestion and assimilation of food, thus building up the weak and wasted constitution. S. S. S. is strictly and entirely a vegetable medicine, and no bad effects follow

Potash or other minerals, which not only ruin the stomach, but often produce most stubborn and offensive sores themselves.

Prompt treatment should be given a sore or ulcer, no matter how small it may be, whether external or internal, for what you think a simple sore, may, in reality, be an undeveloped Cancer. Our physicians will gladly advise all who need their services, and those who write us will receive valuable suggestions regarding the treatment of their case free of charge.

HUNTINGTON.

PRIMARY SURPRISE PARTY. William Hunter Honored-Illness of

Mrs. John Guymon.

Special Correspondence.

Huntington, Emery Co., Feb. 11.-Surprise parties and goodfellowship seems to have taken possession of the people of Huntington lately. On last Saturday the children of the Primary association, 180 strong, sprang a sur-prise on the officers. It was quite an anusing spectacle to see the little ones going to meeting with their baskets and pans loaded with the good things of life, and when spoken to about it they fell as proud and important as though each one hed the whole though each one had the whole responsibility resting on him or herself. Most of the officers were "surprised." and a splendid program was rendered Another surprise party was given last night in the meetinghouse, which was largely attended. The pleasant affair was gotten up in honor of our worthy townsman, William Hunter, the de-signer of the gallery in the meeting-house. Plans had been solicited from several architects of the state, but

have already ordered a carload of coal to be distributed among the members of the association, thereby saving them a good sum. The union expects to have a nice pic-

nic and social party soon. JUNCTION.
