The "News" correspondent at Draper sends the following concerning two smooth photograph fakirs who worked that town to a nicety a few days ago Recent developments prove conclusively that the suspicions formed a few days ago on certain picture canvassers are well founded. The reason the people were so easily duped is the lamentable fact that a woman assists in work. ing the game. She, together with her alleged husband, poses as agent for an enlarging pletu, house. The story they told here was that they themselves did the work right here and that the or-ders would be delivered within 10 days.

Customers were to receive an enlarg portrait for 50 cents, 25 cents of which should be advanced. They first started with the tale that the house was doing the work so cheap that they could only afford to place

five pictures in a place as advertise-ments. Soon the number increased to 10, then to 19 and later to 25. All of the town was not canvassed, but it is estimated that 25 or 40 orders 360,80 160,00 were taken during the short time they 320.00

One lady, who had sent a very val-720.00 uable portrait came to the hotel to see how near the work was to a flaish; and to her great disappointment and indig-nation the vendors had gone. The news of the discovery rapidly spread and then it was learned that they had told

they tried a game also on the hotel people. When they were ready to leave they said that they were without money; that they thought of being m town only a day and consequently came unprepared to meet their bill. They had plenty of money in Salt Lake City, they sold, but did not like to can ry any with them because it was a dangerous undertaking. They had no baggage whatever, not even a hand bag, and when they left they had to

borrow a piece of newspaper in which borrow a piece of newspaper in which to wrap the pictures. Their tale of inability to pay didn't work completely with the proprietor, for he forced them to renoit \$4. They promised to send the balance on the evening train But it must have all evening train. But it must have slip, ped their minds, for it never came. No one can find out where they went to, but it is hoped that the people will be on their guard and avoid being posed upon, Should the people of this city learn of their whereabouts, without question they would give them a taste
