Editors and Publishers.

## Local and Other Matters.

FROM THURSDAY'S DAILY, SEPT. 13.

Moroni Brough, there is a telegraphic dispatch for you at this office. Call and get it.

Turning Out.—Nineteen men, sent by the several Wards of the City, turned out this morning, to aid in tearing down the Old Tabernacle.

Material.—Parties intending to build will have a good chance to get material just now. The adobies of the Old Tabernacle will not be placed in the new building, but will be sold.

Assignment.—Lieut. Willard Young, U. S. Corps of Engineers, has been assigned to labor under Lieut. Wheeler, in the survey of this western country. He left this afternoon for Fort Hall, Idaho, at which place he will assume command of a party of engineers.

Vinegar.—A great deal of the vinegar sold is entirely unfit for use, in consequence of being adulterated with acids that are deleterious to the human system. A very large quantity of strictly pure cider vinegar is being made at the General Tithing store, where it is on sale.

Information Wanted.—Of the whereabouts of Sjonne, Jens and Anders Bonneson, who emigrated to Utah, from Sweden, about eighteen years ago, by Hanne Pehrson, now wife of Magnus Olson. Address—Nygade N. 24, 1st Sal, Amager pr. Kjobenhavn, Denmark. She has news of interest for the above parties.

Crushed.—Mr. James Boyle, of Ogden, a brakeman on the Union Pacific road, had the two middle fingers of his left hand caught between the buffers of a couple of coal cars which he was coupling, at Evanston yesterday evening, and they were badly mashed. He came home on the train, and this morning Dr. Adams amputated the fingers between the knuckles and the first joints.—Ogden Junction, 12th.

Obsequies of President Young.—Tomorrow, the pamphlet containing full particulars of the death and funeral ceremonies of President Brigham Young, with a brief sketch of his life, etc., will be ready for sale at the DESERET NEWS Office counter. It forms an interesting publication, contains thirty-five pages in clear, readable type, and is just the kind of work to send to distant friends. In order to place it within the reach of all it will be sold for 15 cents per copy, or two for 25 cents. Orders from the country should be sent at once before the issue is exhausted.

Shut Down.—The Chicago smelter, of the Chicago Silver Mining and Smelting Company, has shut down, and the property is pretty well covered by attachments. Walker Brothers obtained an attachment on Saturday for \$14,000, Wells Fargo & Co., got one on Monday for \$18,000, and Mr. Joseph Broughton one on Tuesday for \$4,500. The attachment issued on Tuesday was served before that of Monday, the counsel for the plaintiff in the suit beating the train by fast team, and placing the papers in the hands of the sheriff of Tooele County, instead of handing them to the U. S. marshal, for service. However the property is doubtless sufficiently valuable to more than satisfy all three of the claimants.

Mr. W. S. Godbe is manager for the Chicago Company.

The Escaping Convicts.—Yesterday evening Captain Burt received two telegrams, one from Hennesville and the other from Evanston. The first stated that a man with bay horses passed that way the previous evening, and that two other men had been seen in the vicinity. The Evanston dispatch stated that a man with bay horses had been seen two miles east of Castle Rock, which is a station on the U. P. R. R., in Echo Cañon.

## Land Surveys.

Township Survey,  
U. S. Surveyor Genl. Office,  
Salt Lake City, Utah,  
Sept. 12th, 1877.

Filed in the U. S. Land Office, in this city, plats and descriptive lists of special surveys, by Augustus D. Ferron, U. S. Deputy Surveyor of

Township No. 38 South, Range No. 11 West.

Township No. 39 South, Range No. 11 West.

Township No. 40 South, Range No. 11 West.

About a Buggy.—A somewhat complicated case is before Justice Pyper, about a buggy. Its history, as we understand it, is that the vehicle belonged to Mr. Joseph Morrill, livery stable proprietor. Some of his patrons had smashed it so badly that he took it to the shops of Patrick O'Neil, telling him if he could place it in repair he could sell it, give him \$40 and keep the balance for his pay for the repairs. Mr. O'Neil sold the buggy to Mr. Parsons, for \$100, the latter paying \$10 to clinch the bargain, with a promise to settle in a few days. When settling time came Mr. Parsons presented an account he held against Mr. O'Neil for \$125, and said the \$90 would apply on that. This didn't suit Mr. O'Neil, and, seeing the buggy on the street the other day, he unhitched the horse and took it to his shops. Mr. Parsons next obtained a writ of replevin, and thus again gained possession of the article. Mr. O'Neil, however, took the vehicle again. The suit in replevin was tried yesterday, resulting in a decision giving Mr. Parsons the buggy. This afternoon Mr. O'Neil, on complaint of Mr. Parsons, was to be tried on a charge of stealing the buggy, so the case presents both a civil and criminal phase.

Public Records.—Several days ago Messrs. Richard Macintosh and George A. Lowe, waited upon Judge of Probate, Elias Smith, and informed him they had been appointed a committee to act for the grand jury in the examination of his official records and accounts. The two gentlemen having no credentials with them, the Judge refused to accede to their request. Subsequently they appeared with a certificate signed by Mr. Harkness as foreman, and Mr. Bostwick as secretary of the grand jury. Judge Smith still refused the demand for examination, on the ground that the law authorized the grand jury to examine public records as a body, but had not the legal right to appoint a committee for that purpose.

The committee reported the facts to the grand jury, and that body in turn reported to the Court, the latter issuing an order requiring Judge Smith to appear this morning and show cause why he should not be punished as for contempt. Counsel for Judge Smith entered a demurrer, and the matter was argued this morning, District Attorney Howard appearing in behalf of the grand jury and Judge Z. Snow for the defendant. The Court overruled the demurrer, and gave the defendant until next Saturday to answer the order to show cause. The Court also issued a peremptory mandamus directing Judge Smith to allow the committee appointed to act on behalf of the grand jury access to his official records.

FROM FRIDAY'S DAILY, SEPT. 14.

Down.—Flour was probably never lower in this market than now. The best brands are marked at \$2 50 per sack. A good time to lay in a stock of the "staff of life" for a rainy day.

Numerous.—The number of persons having no visible means of support—tramps—is increasing. Members of that class are floating this way from other parts daily. They prowl about the western part of the city particularly at nights.

Sudden Death.—To-day, Mrs. Sanders, a resident of the Seventh Ward, was taken suddenly ill and expired within fifteen minutes from the time she was attacked. An inquest was to be held over the remains, at five o'clock this afternoon.

Gradual Change.—Prof. Gilbert, who is engaged in exploring this western region, expresses the view that the mountain ranges are undergoing seismic operations. This is plainly indicated by the change in the contour of the water line of the ancient lake. It is being transformed into wave lines, and some of the chasms made by those operations are so recent that vegetation has not had sufficient time to form on their surface.

It is true that this part of the earth is on the volcanic line or belt, and is therefore subject to changes, either gradual or spasmodic.

Missionary.—We have a letter from Elder B. P. Wulffenstein, now laboring in Michigan. There are about ten families in his field of labor making efforts to emigrate to Utah, but they find great difficulty in disposing of their property. There are sixty-three members of the church in that locality. Elder John Hafen is laboring among the Germans, and Elder Niels Hendrickson among the Swedes.

Elder Wulffenstein states that there is some anxiety about indications of a rising among the Indians in that part of the country.

Fifth Ward.—The "building bee" in the Fifth Ward, is a success. Yesterday morning about fifty workmen turned out and labored all day on the new school-house, taking the walls quite a distance above the foundation. A large number also turned out to-day, and it was expected the building would be up to the square this evening. This shows what can be done by people who are united and imbued with the necessary amount of public spiritedness. The majority of the hands were not residents of the Ward, but fellow-workmen of Bishop Brimley, from respect to whom they gave a willing help to rearing the schoolhouse.

An excellent dinner was provided for the workmen by the ladies of the Ward. The tables were spread in the brick yard of Messrs. Morris & Evans, and about a hundred persons sat down to the repast yesterday.

The affair was so agreeable that the work of laying up the walls was more of a pleasure than a labor task.

South.—Clipped from the Beaver Square-Dealer—

The Beaver County furnaces are all standing still. Mr. Godbe, at Frisco, is re-lining, and expects to start up again within a few days.

A petition is circulating asking the Governor, by proclamation, to call the December term of the District Court at Tequerville, Kane County.

C. C. Woodhouse's store, at Shaunty, was broken into last Saturday night, and a quantity of goods stolen. No clue to the thieves.

The Leeds people now attending court, speak most hopefully of their district. The leaching process to which the ores are adapted, all agree, will bring the district out. There is a great quantity of low-grade ores in the district which can be profitably reduced by this method. The machinery required in leaching is so cheap that the mine-owners can command it without enlisting the capital of big companies, which, in a short time will, not only put everybody to work, but work everybody's mine. If the Leeds miners are not mistaken in the quantity of ore which their district is capable of producing, a lively camp south of Black Ridge is a certainty at no distant day.

Decreasing.—The mortality of the city has largely decreased since the beginning of September.

Copious Rains.—Copious rains have fallen in Cache Valley during the last few days.

Examination of Records.—The committee appointed by the grand jury to examine the files and records of the Probate Court of this County, represented to the District Court to-day that they could not perform that work within a reasonable time without the aid of a clerk. The Court issued an order, in consequence, authorizing the committee to engage a clerk or clerk for that purpose, and directing the Judge of Probate, Hon. Elias Smith, to allow them access to the files and records of his court, of cases tried and pending, and to make such transcripts or extracts as they may deem necessary.

The New Play.—A very large, attentive and critical audience assembled at the Theatre last evening to witness the new play of "Under One Flag, or Love and War." It was written by Mr. J. S. Lindsay, the well known actor of this city, and certainly does him great credit. It has one of the usual defects of a new drama performed for the first time. It is too lengthy. This is the only important objection that can be urged against it, and is one that can be easily remedied. The plot is consistent, natural, and maintains the interest of the audience from beginning to end. The language is good, the sentiment lofty, and some of the dialogues bright, crisp, and forcible, while others are too prosy and extended. A poetic tinge is imparted to much of the text, which flows pleasantly and smoothly.

It is free from fustian and extravagance, and the play, having no improbabilities or stage absurdities is certainly much above the average of such productions. One scene, the bar-room with its drinking and rifle shooting, is not an essential part of the drama, and will be omitted at its next presentation. It was tedious and wearied the audience, although Mr. Meears performed some very remarkable feats, exhibiting great skill in the use of the rifle.

Mr. Lindsay as the hero of the play—for the plot of which we refer our readers to the Theatre on Saturday night—was, as usual, careful, impressive and correct. Mr. Mark Wilton had an excellent part as the old doctor, which he played remarkably well, and Miss Nellie Colebrook appeared to better advantage as the heroine than we have ever seen her on the stage.

Mr. Harris, the manager, made a splendid hit as Uncle Zeke, indeed in these old colored parts we consider him hard to beat anywhere.

The rest of the characters were fairly sustained, but we have no further space to particularize.

By careful cutting down, Mr. Lindsay will have a fine play fit to be produced upon the boards of any theatre in the country.

Mr. Lindsay was called before the curtain after the second act, and was loudly applauded throughout.

## DIED.

In this city, Sept. 14, MARY B. SANDERS, daughter of George and Hester Ann Beebe, and wife of George W. Sanders, aged 29 years, 3 months, and 11 days. Deceased leaves a husband and four children. (An infant son died a few minutes after its mother.)  
Des Moines (Iowa) papers please copy.

In the 10th Ward, Salt Lake City, of dropsy, September 15, 1877, JOHANNA SORENSON, aged 72 years, 7 months and 9 days.

Deceased was born at Fredericksburg Ant., Denmark, January 6, 1805. She was baptized into the Church of Jesus Christ of Latter-day Saints June 24, 1854, by Elder Tullgren; emigrated to Utah with her husband and family in the spring of 1855, and has resided in the 10th Ward the most of the time since.

Scandinavian Stjern, please copy.

In this city, Sept. 14, 1877, of cholera infantum, SARAH ELLEN, infant daughter of Hiram and Clara Kimball, aged 1 year and 6 days.
