

# FAMILY RECORDS.

WE ARE NOW PREPARED to receive orders for FAMILY RECORDS of an approved form. Each book is divided into four forms.

The first form is that of a "FAMILY RECORD," with ruled and printed spaces for births, marriages, and deaths, in each family, also for names, dates, and places, one page accommodating one family.

The second form is a "CHURCH RECORD," with spaces for baptisms, confirmations, ordinations, endowments, and patriarchal blessings and various particulars of the same.

The third form is a "SEALING RECORD," with spaces for names of person sealed, birth, death, time, place, etc.

The fourth form is a "BAPTISM FOR THE DEAD RECORD," with spaces for names, dates, birth, death, baptism, confirmation, etc.

Each book is furnished with a title page, on which the person owning the record can enter his or her name. An explanation of the forms, or instructions how to keep the record is also printed in each book, and its pages are numbered.

These Records are well printed and ruled on good ledger paper, substantially bound in full sheep, English roan, or buck. We can furnish them of any size, from one to five quires, or larger, but probably five quires is as large as will be desired. (We can also furnish the various forms in a record, proportioned to each other to order.)

**PRICES.**

A Book	Full	1/2 Roan	Full	Full
1 Quire	\$2.50	\$2.50	\$3.50	\$5.00
"	3.50	3.50	4.50	6.50
"	4.50	4.50	5.50	7.50
"	5.50	5.50	6.50	8.50
"	6.50	6.50	7.50	9.50

Last Night's Dispatches.

## WESTERN.

The Weather.

SAN FRANCISCO, 22.—The weather has been threatening for several days, with light showers. To-day it is raining lightly.

Advices from the interior report quite a copious rain in the northern portion of the State, sufficient in some localities to start plowing. Light showers in the central and southern portion of the State with prospect of a steady rain.

Stopping the Change of Trade.

Referring to Miss Director Linderman's order stopping the change of trade dollars at the San Francisco mint, the *Bulletin* says: "Whatever may have been the motive of Director Linderman, it is the average judgment at this distance that he has made a mistake. The first effect of the order has been to prevent the change of trade dollars for the benefit of a few lucky ones who happen to control the stock, and to subject the director to the suspicion that his conduct is not altogether unselfish. All last week trade dollars were dull and almost unobtainable in the market at 90 cents. This morning, however, as soon as the director's order was noted about up went the price to 98 and 99, with actual sales as high as 98 1/2 cents, some parties demanding par. As the stock here is from \$1,500,000 to \$2,000,000 in a few hands, this corner in trade dollars is of great pecuniary profit.

The statement that there is no demand is only partially true. During the first nine months of the year we shipped over 7,000,000 of these coins, with the prospect of an average continued demand of 500,000 per month.

The trade dollar has taken such a mark in the China and East India markets as to justify this statement, and this demand cannot be satisfied with fine silver. One of our banks has alone sent six million in trade dollars to the East Indies, that would not have gone probably in any other shape.

To stop or interfere with this trade is so clearly against the public good that we fancy there must be a reason for the order of the director which does not clearly appear at this distance. We are credibly informed of attempts being made to circulate trade dollars in the western States, in direct violation of the regulations of the mint. It is known that the Philadelphia mint has been coining in excess of the export demand, and the natural inference is that some have gone into local circulation. We happen to know that two hundred thousand had been sent from San Francisco to cities in the west, and that if the price had gone to 85 cents more would not have been shipped.

## FOREIGN.

GREAT BRITAIN.

An African Outbreak.

LONDON, 22.—Advices from Cape Town, October 22, by way of Madeira, state that war had begun in the Transvaal between the British and their native allies. Fighting occurred on September 24th and 25th at South Mapassan and Ibeke. The Galekas, to the number of 5,000, killed the British, but were repulsed with a loss of 500 on September 24th. The loss on September 25th is unknown. The British lost one man killed and six wounded. The Transvaal natives were dispatched from Simon's Bay, and volunteers are being enrolled throughout the colony.

Eastern War News.

A Russian official dispatch detailing Friday's attack upon the second Givria redoubt says, at the first attack the Romanians were repulsed before they gained the redoubt. At the second the three foremost battalions leaped into the trenches and vainly endeavored to carry the redoubt. They remained one hour in the trenches, which gave rise to the premature report of the capture of the redoubt. The Romanians then withdrew with a loss of two killed and 200 wounded. The Russian forces numbered 4,000, and twenty officers and 707 wounded. A Constantinople dispatch says, Russians from Medjidie are making a daring reconnaissance as far as Basajik and Silistria.

The Fatal Mine Explosion.

GLIMWORTH.—The latest particulars from High Blisby, show that 233 men descended into the mines this morning. None of these, except one who was working near the shaft at the time of the explosion, had remained one hour in the trenches, which gave rise to the premature report of the capture of the redoubt. The explosion occurred at 9 o'clock in the morning, and the exploring party had to relinquish their efforts in one pit at four in the afternoon because of the poisonous gas at the bottom of the shaft of the other pit. The colliery comprises two shafts, with communication between them, and the explosion has been heard, but so far it has been impossible to reach the bottom of the shaft.

The explosion has resumed operations at the first pit. The rescued forty corpses lying at the foot of the shaft.

The shaft at the bottom of which the explosion was heard, is rapidly collapsing. The explosion, consequently, are attempting to reopen communication from the other mine. They have penetrated about a mile, but have still 150 fathoms to clear, so that they cannot possibly reach the men, who are supposed to be imprisoned, before morning. It is feared that by that time, few, if any, will remain alive.
