Wants a Million Dollars.

st Louis, March 20 .- Archbishop J. Keane, former rector and one of the unders of the Catholic university at Washington, D. C., is in St. Louis lec-ming on the subject of the university. The archbishop's desire is to raise 1,000,000 during the holy year and in 1907, the first year of the century, for the endowment of professorships in the niversity. Already he has pretty well

tons. He warned the contractors that unless they kept the terms of the conwered the eastern cities. From St. Louis Archbishop Keane tract it would be annulled. Repeated warnings of this kind were given, but Kansas City and thence owing to drawbacks over which the concern had no control, it is said they through the West, visiting all the impriant cities. He says the results ob-uned so far upon his tour have been were unable to perform the work as rapidly as they had agreed. d\$50,000 donations; also several of \$10,-

committee of the Dewey day parade committee met and discussed arrangements for the big demonstration. The subscription fund is increasing daily. General James F. Wade, commander of the department of the Dakotas and who is also in command of the department of the lakes, will be asked to act as grand marshal, and Col. Geo. M. Moulton will be selected for chief of staff. The order of the parade will be as follows

Grand Marshal with regular army roops First division, naval veterans and all representatives of the navy. Second division, army veterans of all the wars Third division, Illinois national guard,

to assist the commonwealth's attorneys in the prosecution of the assassin of Mr. Goebel, was here today, fresh from a conference with his assistants at Lexington, Ky. In conversation Mr. Campbell said that so far as now known, the assassin

was not yet arrested. He added that the assassin would be arrested whenever a force of 3,000 armed men could be had to go to a certain county in eastern Kentucky. He said further that the attorneys for the commonwealth claim to have

proof to establish a conspiracy for the assassination, but he made the assertion that this conspiracy was not charged against the Republican lead-

HOPE FOR SETTLEMENT.

Machinists Think that Possibly the Strike May be Prevented.

hleago, March 20 .- President James OConnell and his assistants represent-ing the International Association of lachinists, after a lengthy conference, prepared two general circulars to be sent to the organizations at large. One reviews the situation in Chicago and other relates to the financial sources of the machinists' organization and its ability to carry on a strike. President O'Connell's assistants left

ast night for different cities, where the industrial conditions are unsettled. He will depart for Cleveland tonigth, inending to return on Friday.

We have not given up hope for a tilement," said Mr. O'Connell last settlement," light, "and shall continue our efforts

Morgan-Gardiner Electrical works resumed operation under an agreement with the machinists' union which settled all the difficulties.

Does Not Trust District Attorney.

New York, March 19 .- The grand jury filed into Recorder Goff's court today and Foreman Putnam handed to the recorder a bunch of papers containing four indictments against policy gam-blers for the most part. It was understood in court that none was against police officials. Recorder Goff took ocision to tell the grand jury that he had given orders to the clerk of the ourt to direct the city magistrates to send all complaints triable in the court general sessions direct to the cierk I that court instead of to the district attorney's office as has been the prac-

"It is but fair to say," said the reorder, "that this system has not grown up under the present district attorney. it is of long standing but it must be topped. I have therefore directed the lerk to send notice to the police and o the magistrates directing them that ill complaints must be sent to the clerk of this court and not to the district Bliorney

Investigating Chicago's Industry.

Chicago, March 20.-The congressional astrial commission began the first of series of sessions in this city today at which the general conditions of the manufacturing interests of the West, but more particularly Illinois and Chicage, will be investigated, the investigaon embracing the relations of workngmen and employer, the producing ca-pacity of machinery used in the various ines of manufacturing, the growth and decline of the business, and the causes for such growth or decline. Three men-bers of the commission, J. L. Kennedy of Washington, former Lieut, Governor L Harris of Ohio, and Eugene D onger, of Michigan, have arrived and mbers of the commission are expected later in the week.

ISTHMIAN GOVERNMENTS.

See a Bugaboo in the Amendment to the Hay-Pauncefote Treaty.

New York, March 20.-A special to the Herald from Washington says: It can be stated authoritatively that the state department has been informed that all of the governments of Central America are opposed to the Davis amendment

to the Hay-Pauncefote treaty. designated, the amendment places an entirely new phase upon the designs of the United States in connection with the the construction of the canal. The neutrality of the water way would, to a certain extent, have deprived the powerful Republic of the north of an source of the source of the north of an incentive to acquire their territory. Since the war with Spain and the con-sequent expansion of the United States, some apprehension has been expressed by the southern countries that the United States would next turn its at-tention to them. The Hay-Pauncefote treaty was con-

sequently halled by the Central Ameri-

Today General Wil annulled the ontract and will advertise for new bids.

been made. By the terms of the contract the Chi-

cago men were required to place 59,000 tons of rock each month towards the

completion of the breakwater. Reports received from Captain Miller, the en-gineer who supervises the work, show

the average deposit of rock each month to have been between 7,000 and 8,000

work.

The action of the department will cause a cessation of work for about six months. Heldmeler & New met with a great deal of trouble in attempting to carry out their contract. For instance,

they intended to get their rock from San Clemente Island, and did take consan clemente Island, and did take con-siderable rock from that Island, but it was not of sufficient gravity. This necessitated removing their plant to Santa Catalina, where they purchased quarries and invested about \$300,000. This and other unforeseen drawbacks interfered with progress of the work, which caused the chief of engineers to annul the contract.

Invention for Defensive Warfare.

New York, March 20 .- Considerable interest is taken by naval officials here and at Washington in the efforts which nventors are making to construct a shell containing a chemical compound which, when it strikes the water, will plaze up and illuminate the surround ing atmosphere. During the war with Spain, Rear Admiral O'Neil, chief of ordnance, expressed his willingness to try inventions of this character. A shall containing calcium ch'oride

was submitted a few weeks ago and has just been fired at the Indian Head proving grounds. Lieut. Strauss, in charge of the proving grounds, has re-ported to Admiral O'Neil that the projectile is too cumbersome and too light, turning over and over in its flight. though when it struck the water it burned with an excellent light. Such projectile would be extremely valuable in time of war, as a warship equipped with several of this type would be able to discharge them at an enemy's torpedo boat, for instance, by the light thus produced would be able to destroy the attacking vessel.

"I feel as if I should fly to pieces." How often those words are on a woman's lips. They express to the uttermost the nerve racked condition of the body, which makes life a daily martrydom.

If this condition had come suddenly it would have been unbearable. But the transition was gradual. A little more strain each day on I the nerves. A little more drain each day of the vitality. Any woman would be glad to be rid of such a condition. Every woman tries to be rid of it. Thousands of such women have been cured by Dr. Pierce's treatment with his "Favorite Prescription" when local doctors had entirely failed to

cure. Sick women suffering from unpleasant drains, irregularities, bearing down pains, inflammation and ulceration are invited to consult Dr. Pierce, Buffalo, N. Y., by letter free of charge. Every letter is guarded as a sacred confidence. All letters are promptly answered and mailed in private envelopes without printing of any kind upon them.

"Favorite Prescription " is in the fullest sense a temperance medicine, con-taining neither alcohol nor opium or other narcotic in any form. Accept no substitute.

Mrs. Rena Hensel, of Massilion, Stark Co., Obio, writes. "I had been troubled with chronic constipation and female weakness and doctored with different physicians, uone of whom seemed to help me. I saw one of your advertisements, and I thought I would try your medicines. I did so and with good results. Took one bottle of Dr. Pierce's Pavorite Prescription, and two of his 'Golden Medical Discovery,' and I can say I am cured of my troubles, thanks to Dr. Pierce and his medicines. They do a world of good to those who give them a good trial."

Dr. Pierce's Pleasant Pellets are a perfect cure for constipation.

Fourth division, military and civic organizations Fifth division, police and fire department.

Bought a Packing Plant.

Chicago; March 20 .- The Schwartzschild and Culzberger company of New York will today get control of the packing plant of the Chicago Packing and Provision company at the Stock Yards. The purchase price, while not known definitely, is said to be close to \$300,000. The purchasers propose to lay out as

much money in enlarging and remodel-ing the plant. The plant will give em-ployment to about 2,000 persons. **PROTECTS THE AMERICANS**

Germany Sends Troops in China for That Purpose,

Dominates the Province of Shantang. and Guards American Missionaries Among Others.

New York, March 20 .- A special to the Herald from Washington says:

It developed today that Germany is ready with troops to protect American missionaries in Shantung province.

It was further ascertained that the Berlin government, to the gratification of the United States, recently dispatched an expeditionary force from Kiao-Chou to Ichou-Fu for the protection of American missionaries. This force suppressed the rioters at Ichou-Fu, arrested the ringleaders, who have been nunished and taught the anti-

foreign crusaders a salutory lesson. The state department has not been informed that the German government contemplates another expeditionary force to the interior of Shantung, where most of the American missions are located, but it fully understands the willingness of the German authorities to take such action. In fact, I learned in a high diplomatic quarter that the German governor at Klao-Chou has standing instructions to take such measures for the protection not only of German missionaries and other interests in Shantung province, as may seem necessary, but of American missionaries is well. Because of the peculiar relation in

because of the pecular relation in which Germany stands to the province of Shantung, by reason of her acquisi-tion of Klao-Chou and of court prop-erty rights in the promontory, she is particularly desirous of preserving or-der in the territory. It is for this reason that her troops are ready for service at any point within the province where there is danger of attack upon foreign interests by Chinese fanatics. To a certain extent Germany consequently dominates the province, and she un-doubtedly would rather use her own

troops to protect foreigners than allow a third government to land a force to protect its own citizens when such action might lead to its remaining permanently in the territory which its

forces temporarily occupied. The fact that Germany dispatched troop to Ichou-Fu to protect American missionaries has never hitherto been published. The offer of Germany to send a force to this point was received with pleasure by the authorities, who do not contemplate any designs whatever on Chinese territory, and who are consequently very glad to assent to the German proposition. Minister Wu Ting Fang, the diploma-

tic representative of China here, is in-clined to look upon the reports of trouble in China as exaggerated.

inst what is known as the Anti-Goebel party," He further said it includes men who fantry; March 13th, Edward W. Beatwere officials prior to the late election and men who thought they became of-

ficials after the late election. It is said that F. W. Golden, alleged to have made an incriminating statement with reference to the Goebel mur-der, is in Winchester at a hotel. He refuses to see auyone. The Goebel men are keeping a strict watch on his movements. He is not registered at the hotel. It is reported that he is in conference with the Goebel men at Winchester. An unconfirmed rumor there tonight is that he has given the name of the man whom he says shot Goebel. Golden was formerly a guard at the penitentiary under the Republican administration, and is well known. It developed that the police and detectives have been watching his movements since the day of the assassination on the theory that he knew something about it. Commonwealth's Attorney Franklin and County Attorney Polsgrove declined to discuss the alleged

confession, as did others who are assisting in the prosecution, though one went so far as to say Mr. Golden will be one of the most important witnesses introduced by the State.

CHICAGO WATCHING GERMANY Meat Bill There Would Raise Prices

to Germans.

March 20 .- The Chicago Chicago, packers are watching with interest the struggle in the German reichstag over the meat bill. Three of them expressed themselves on the subject;

"The passing of the law in its present form," said one packer, "would restrict our exports to Germany. Under the terms of the bill lard, hams and bacon, which may be inspected easily, would not be affected much. But canned meats and sausages, which cannot be inspected without being destroyed, would be excluded. This would re-duce our exports of meat products to

Germany 40 to 50 per cent. "Germany would be injured by the bill, as it would raise the prices of food, and that country would find that there would be retaliation on some of its products."

"There is no question in regard to the injurious effects of the bill," said "It practically would exclude another. all our canned meats and sausages from Germany, where we have had a fairly good market for those products. But the question is not yet decided and I do not believe that the bill in its present form will become a law.

"The passing of the bill would be just as had for Germany as it would be for this country," said a third packer. "It would prevent us from sending out canned meats to Germany and it would cause a serious increase in the cost of meats in Germany, thus causing suffer-ing and hardship among the poorer classes of the country. I do not be-lieve, however, that the bill will become a law " a law."

RUSSIAN NOTE IS SERIOUS

Czar's Reply to Kruger is Directed Against England.

Tone is Cautious, but Document Will Produce 2 Deep Impression-France and Germany Approve It.

Berlin, March 20 .- The St. Petersburg correspondent of the Lokalanzeiger telegraphs that the minister for foreign affairs has prepared an official communique, which will be published within the next day or two. It contains Rus-sia's answer to President Kruger's re-

quest for intervention. The communique has been drawn up with the knowledge and consent of France and Germany, and has received

the full approval of the czar. As regard its contents, all that the

tone is very serious and will certainly not fail to make a deep impression.

Throughout your entire system, to rid the blood of the acids and impurities that clog the physical machinery and corrode liver, kidneys, heart and lungs. Enrich and purify the blood by using our well-known Herb Bitters, which will tone the nerves and bring new life and energy to all the bodily and mental functions. All this and more can be done by using Saraaparilla and Dandelion Compound.
