### The Effect of Fast Time.

One result of the placing in service of he Twentieth Century Limited the New York Central's twenty-hour train between New York and Chicago, is to bring not only Chicago but the entire West practically 200 miles nearer New York. For instance, a man can leave St. Paul or Minneapolis Monday evening and by taking the Twentieth Cen-tury Limited from Chicago be in New York Wednesday morning: thirty-six hours from home. Or, if he is in Colorado he can leave Denver Saturday light, have several hours' lavover is hicago Monday morning; and, taking the Twentieth Century Limited, be in New York at 9:30 Tuesday morning.— From the Brooklyn Standard Union.

Fiery liniments, drawing plasters and penetrating oils never cured a case of Rheumatism; because it is not a local or skin disease, but a disease of the blood caused by a sour, acid condition of that vital fluid. The kidneys and bonds and bowels get weak, the liver torpid, and the poisonous accumulations that should pass off through the usual channels of nature are absorbed by the blood and distributed into the muscles, joints and nerves through the circulation lation, producing inflammation and swelling of these parts, excitement of the nerves and other painful and disagreeable greeable symptoms of the disease. Rheumatism sufferers look with dread upon the winter season with its damp, cold, changing weather, for the first slight exposure is liable to bring on an attack, and the sharp, cutting pains and feverial. feverish, swollen joints and muscles make life miserable with almost unbearable torture.
