

MANUFACTURES IN UNITED STATES

Annual Production Represents
Value of Fifteen Billion
Dollars.

ALL NOT FINISHED PRODUCTS.

In Report Demands of Business Men
For Extension of Parcels Post to
Foreign Countries Discussed.

Washington, Nov. 24.—Fifteen billion dollars represent the value of the annual production of manufactures in the United States. After careful estimates were made by experts, Joan St. Carson, chief of the bureau of manufactures, was able to make this statement in the annual report of the operations of his bureau, made public today. The figures do not represent finished products entirely, but include products in various stages of production. Last year the aggregate value of domestic manufactures exported was \$1,800,000,000, an increase of nearly \$1,000,000,000 over the preceding year. In this classification, "manufactures ready for consumption" are credited with \$480,000,000 and the figures are generally accepted as the extent of the exports of manufactures.

The report of the bureau, however, groups this classification with those of "finished goods" and "manufactures for further use in manufacturing." The aggregate exports of which last year were \$600,000,000, and this amount added to "manufactures ready for consumption," made the aggregate value of manufactures reported in the year ended June 30, \$1,800,000,000, or more than 58 per cent of the entire exports of the year. Special significance is attached to the increase of nearly \$20,000,000 in the exports of completed manufactures, in view of the fact that the exports of cotton cloth declined more than \$21,000,000 this year, being entirely in the cotton trade with China. The popular feeling aroused in that country growing out of alleged outrages against Chinese residents in the United States, is assigned as a contributory cause for this decline.

The cotton seed products exports for the year were more than \$20,000,000, an increase of \$9,500,000 over 1906. In commenting on these figures, the report says:

"Aside from its intrinsic value, this relatively new industry has an economic value and importance to the country, the beneficial results of which are especially felt in several states in which cotton is indigenous and in which the cotton seed industry is naturally located."

The success attending investigation

found

of experts sent abroad had led to the adoption of the policy of specializing investigations of trade conditions in foreign markets. One of the obstacles to an enlarged export trade is the uncertainty of transit between places of production and the seaboard. Merchants in the orient especially complain that calculation cannot be made as to when goods ordered in the United States will be delivered, and in consequence order go to European houses that should come to those of this country. The bureau has been in correspondence with members of railway and ocean steamship companies with a view of securing more reliable and rapid transit for merchantist destined to foreign countries.

Demands made by business men for the extension of the parcels post to foreign countries, is discussed. It is claimed that this extension would open markets now closed to American business men for lack of transportation facilities, but which are open to their competitors who have advantages of the parcels post system.

THE UNWRITTEN LAW.

Its "Vindication" in Case of Chester A. Smith Arouses Indignation.

Butte, Mont., Nov. 23.—A Miner special from Lewiston, Mont., says that a coroner's jury at Pine Grove today heard evidence of justification based upon the "unwritten law" coupled with self-defense, exonerated Chester A. Smith of killing Wallace Washburn, a prominent rancher of Pine Grove, and turned him loose. The verdict aroused much indignation in Pine Grove, the personnel of the coroner's jury being brought in from the outside. The killing of Washburn followed the confession of Mrs. Smith that before and after her marriage to Smith, six months ago, she had sustained improper relations with Washburn. Pine Grove citizens will demand a further investigation of the killing.

JAPS AGGRESSIVE IN MANCHURIA

Their Attitude is Causing Much
Anxiety at the Court
Of Peking.

PUSH THINGS TO AN EXTREME.

Interpretation of Treaty Rights Are
Astounding the Russian
Diplomats.

Peking, Nov. 24.—Prince Pu Lin, who was Chinese envoy at the St. Louis exposition, and who in September last was authorized by an imperial edict to frame regulations for the foundation of a Chinese parliament, has left Peking on a state visit to inaugurate a unified policy.

The resignation of Prince Ching Yuan Shi Hui and Chang Chih Tung from the ministry is rumored on account of the failure to inaugurate a unified policy.

The tension of Chinese relations with Great Britain has been increased owing to the opposition in the province of Che Kiang to loans to concessionaires at first sanctioned by the government, but later annulled because of the local antagonism.

Japan's aggressive attitude also is causing much anxiety since the return to his post of Ministry Hayashi with the proposition of resuming the negotiations on the Manchurian question. Japan's intentions are disclosed in an intimation of a coming pronouncement on the doctrine of China's invalid sovereignty over Manchuria. Japan already has advanced an extreme interpretation of the South Manchurian railway charter so as to include rights beyond the points of Russia's former claims. These rights, meaning independent communications, etc., are astonishing the Russian diplomats and also are significant of the victor's rights over all Manchuria and China.

Great Britain's position is that she is unable to interfere except in case of proof of a Japanese invasion of China's sovereignty subsequent to the date of the evacuation of Manchuria in April. The dowager empress on Nov. 19 suspended the court rules and received Baron Hayashi and Admiral Tamarai of the Japanese navy during her birthday festivities.

**ADAMS JURY COULDN'T
AGREE AND WAS DISCHARGED**

Spokane, Wash., Nov. 24.—A special from Rathdrum, Idaho, to the Spokesman-Review says: The jury in the Steve Adams murder case was discharged at 5:45 o'clock

this afternoon, being unable to agree on a verdict, after being out since 8:30 o'clock Saturday night. The jury stood eight for acquittal and four for conviction. Jurymen J. F. House, Chas. Dittmore, D. W. Garwood and S. A. Yarnum were the four men who believed Steve Adams guilty of the murder of Fred Tyler in the Marble Creek district of Shoshone county, Idaho, in August, 1904.

Five ballots were taken, all with the same result. The jury was ready to report at 5 o'clock, but the court conferred with attorneys for both sides and it was agreed to keep the jury out a little longer.

Clarence Darrow, chief counsel for Adams, tried to obtain concessions of the state and of immunity from arrest by Colorado authorities until the Tyler case is disposed of. No promise was given him. Sheriff Bailey of Shoshone county is here with a warrant for the arrest of Adams on the charge of murdering Ed Boule, near the same place and at about the same time the Tyler murder occurred.

It is understood that Adams is not to be taken to Colorado at present, and that the state will not oppose efforts to get bail for Adams in the Tyler case. Darrow will later make an application for bail for his client, but will now hurry to Boise for the Pettibone case.

Hawley, chief counsel for the state, declared disagreement of the jury will have no effect on the prosecution of the Tyler case again, or will it lessen the efforts of the state to prosecute in other cases wherein Western Federation of miners officials and previous members are defendants. Mr. Hawley is disappointed at the verdict. Darrow says the defense expected an acquittal.

HORNE NOT ARRESTED FOR SHOOTING WOODWARD

Kansas City, Mo., Nov. 24.—No charge has yet been preferred against Gen. R. C. Horne, the stockholder and editorial writer of the Kansas City Post, who yesterday shot and wounded O. D. Woodward, president of the Post company, and H. J. Groves, managing editor of the paper. General Horne is being held at the police man's office at the city hall awaiting the outcome of the injuries suffered by his victims.

Both patients are resting well tonight. The bullet which struck Groves has not been removed, nor has it been definitely located, although it is believed to be in the muscles of the back. Unless unfavorable symptoms develop no effort will be made to remove the bullet for several days.

The bone in Woodward's arm was shattered and the necessity of amputation may develop, but tonight his physician stated that it is too early to determine whether the member can be saved.

BARTLETT WILL INTRODUCE A FREE SILVER BILL.

Renov, Nev., Nov. 24.—Congressman Bartlett, who arrived here tonight on his way to Washington from Tonopah, announced that on the first day of the session, he would introduce as a measure of relief for the financial straits of a bill for the free coinage of silver.

THE NOBEL PRIZE.

It is Awarded to Sir William Crookes
Of London.

Stockholm, Nov. 24.—The Nobel prize for chemistry will be awarded to Sir William Crookes of London. Sir William Crookes invented the radiometer in 1874. He was knighted in 1897 and has been closely identified with many of the most important advances in science. Professor Crookes recently discovered a process of extracting nitric acid from the atmosphere, which it was announced would be available for commercial, industrial and agricultural purposes and would revolutionize the nitrate industry and the world's food problem.

Rudyard Kipling has been designated for the literary prize.

GERMAN NAVY.

Proposed to Spend \$104,350,000 on it
Annually for Ten Years.

Berlin, Nov. 24.—The ministry of marine has prepared estimates of the probable cost of the navy for the years 1908-1917, for submission to the reichstag. The total is \$1,043,000,000, or an average of 104,350,000 yearly. The expenditures beginning with \$84,750,000 in 1908, rise to \$101,250,000 in 1909; \$100,000,000 in 1910 and \$115,250,000 in 1911, thence declining to \$14,250,000 in 1917. The ministry's estimate officially submitted to the reichstag in 1904 for the same period totals \$245,000,000 less, so that the modified program brought in by the government for the approval of parliament costs on an average of \$24,500,000 yearly more than hitherto.

CURES WINTER COUGH.

J. E. Gover, 101 N. Main St., Ottawa, Kan., writes: "Every fall it has been my wife's trouble to catch a severe cold, and therefore to cough all winter long. Last fall I got her a bottle of Horne's Sore Throat Syrup. She used it and has been able to sleep soundly all night long. However the cough of the winter, two or three doses stops the cough, and she is able to be up and well." See, Gov and E. Sold by Z. C. M. I. Drug Dept., 113 and 114 South Main St.

VLADIVOSTOK MUTINIES INSPIRED BY GIRLS.

Victoria, B. C., Nov. 24.—The steamer Kumerio brought advices that the recent mutinies at Vladivostok were caused by four girls, who went on board the destroyer Sukunai and investigated the blue jackets of the destroyer to seize the officers of the steamer and escape to Japan with the vessel.

They agreed, but decided to shell the city from the roadstead before leaving. A red flag was hoisted and the destroyer opened fire on the admiralty office and the governor's residence, and then exchanged shots with the cruiser Mandchou and three destroyers, as well as the forts.

was struck by a shell from the forts and the vessel was run ashore to prevent sinking. The four girls who instigated the mutiny were all killed, as well as a number of the bluejackets, the remainder being arrested.

The mutiny was followed by a most active campaign on the part of the authorities against the revolutionists and consternation prevailed.

The British steamer Mary, which left Vladivostok on Oct. 21 for Nagasaki, was thronged with refugees. The Vladivostok correspondent of the Osaka Asahi says the revolutionists, who are held under strict supervision, were using their wives to spread the revolutionary propaganda among the men of the army and navy. Outbreaks are expected.

BE CHARITABLE

To your horses as well as to yourself. You need not suffer from pains of any sort—your horses need not suffer. Try a bottle of Ballard's Snow Liniment. It cures all pains. J. M. Roberts, Bakerfield, Mo., writes: "I have used your Liniment for 10 years and find it to be the best I have ever used for man or beast." Sold by Z. C. M. I. Drug Dept., 113 and 114 South Main St.
