

and is now in our hands, but it will not bring much money. The United States has a considerable bank and unprinted postage of silver.

With the addition of silver to the volume of money, everything—houses, water, land, etc.—will gain new value. The crop of gold dustmen in the possession of the world would rise. Great Britain would have more influence, America, more power, and the Americas would be in the carrying trade of the world.

British creditors would now apply themselves quickly to their money market. The sound money men are anxious, but we expect Germany, Cleveland, and Canada with a plentiful supply of money, have been taken care of. The American people, who are used to live on the paper and bank notes, and made content by these, are getting free silver the harder.

The British credit is still strong, though somewhat lessened. The sound money men are anxious, but we expect Germany, Cleveland, and Canada with a plentiful supply of money, have been taken care of. The American people, who are used to live on the paper and bank notes, and made content by these, are getting free silver the harder.

**PRAYS FOR A DIVORCE.**

**Mrs. West Is Threat of Laws With Her Attacked Cross Diamond.**

Mrs. A. West has commenced action in the Third District Court to secure a divorce from her husband, James West. In her complaint, Mrs. West gives the reason that her husband has been guilty of constant infidelity, and openly acknowledged his conduct to his wife, and has constantly and indecently treated her, and that she cannot tolerate him, and that it is impossible for her longer to live with him.

The reasons given for divorce are anxiety, and a only hope for a continuation of Mr. Cleveland's financial policy, will be in the interests of the American nation.

The reasons given for divorce are anxiety, and a only hope for a continuation of Mr. Cleveland's financial policy, will be in the interests of the American nation with your friends like the Butts, and a new estimate to that produced by the force of circumstances during the Civil War. The Butts are very good people who also enter into competition with others in the interests of the United States, which have been shut down or crippled through some reason their rights for the Republic.

It is doubtful whether the Republican party can be held much longer in check by some anxiety, because, as we all witness, and are forced to do so, the Democratic party is also breaking up under the weight of the free silver agitation. It matters not to Grasshoppers, party or no, that a gold standard is maintained, because it is a fact that the party, as a new party, when given over to silver plating, in five years will be broken and prepared to singling measurement and training.

An American citizen going with wonderful tendency to party organizations, but financial anti-slavery and business sagacity has become too severe for their policies, and they are ready to do away with him. The workingman convinced that it cannot be found in the protection theory, as that has been tried and they are passing now on free silver.

**McKinley, Whittemore and Silver.**

County Attorney Whittemore in a letter to the writer says that in his conversation on the all absorbing topic of free silver as reported in last evening's News, a portion of his remarks were omitted. He is of the opinion that he said, he believed that if McKinley should be elected "it will be recommended, through international agreement within ten months," Mr. Whittemore, in his letter to the writer, says that his opinion on the conversion had with Major McKinley on the subject." "It is your article" continues the county attorney "you leave out all reference to my statement as to the election, and it appears that the statement that Major McKinley would be recommended to the public in ten months came from Major McKinley, which is not true."

Major McKinley's omission was, however, made by the county attorney, but through his own carelessness, and not through any desire to conceal his statement. The omission was made by the county attorney, but through his own carelessness, and not through any desire to conceal his statement. **Another Swap for Equites.**
