

## J. FEWSON SMITH IS CALLED HOME

Another Notable Figure of Pioneer  
Days Answers the  
Final Call.

WIDELY KNOWN AS ENGINEER.

Prominently Identified With Big  
Undertakings and Salt Lake  
Affairs for Years.

Another of the notable figures of pioneer days has been removed from mortal gaze in the death of J. Fewson Smith, who passed away last night at his residence, 619 Third street. The cause of death was locomotor ataxia, caused by injuries to the spine received two years ago. For the past six months Mr. Smith had been confined to his bed, and his condition for several weeks was such that he could take only the slightest nourishment, so that his end has been expected by his intimate friends.

J. Fewson Smith was one of the early English converts to the gospel. He was born in Preston, England, Jan. 1, 1841, being the son of Robert Smith and Mary Fewson Smith. In May, 1851, he was baptised into the Church by Elder Hugh Flinday. He married Christina Venables Vernon, April 27, 1856, and they emigrated to Utah the following year, crossing the plains with ox teams and arriving in Salt Lake City in October of that year. They came over with John Taylor and other prominent Church men, who were bringing with them the machinery for the first sugar mill in Utah, which was responsible for the name given to Sugar House ward, where it was established. Accompanying Mr. Smith was his brother David,

**ROYAL BAKING POWDER**

Absolutely PURE The only baking powder made from Royal Grape Cream of Tartar

Royal does not contain phosphoric acid (which is the product of bones digested in sulphuric acid) or alum (which is one-third sulphuric acid), unhealthful substances adopted for other baking powders because of their cheapness.

## MEN INSPECTED BY BATTALION TODAY

Major Morton Lines Up the Fifteenth  
Infantry in Field Dress on the  
Parade Ground.

Major Morton inspected the Fifteenth Infantry by battalion this morning, and this afternoon, the inspection is for field dress and equipment, including inspection of machine gun, platoon, and hospital corps in field practice with the ambulance and wagon train. The troops will spend tonight in the shelter tent camp where signaling and range finding will be carried on by the aid of instruments. The men are to prepare their own food during this time. The order of the day for tomorrow will be tactical problems, including preparation of field orders, reports and sketches, and the use of the non-commissioned officers in scouting and patrolling and firing with ball cartridges at targets representing an enemy. This afternoon, there will be inspection of the chaplain's office, schools, gymnasium, bakery, ordnance department, the garden and Post exchange. The inspection of tomorrow will include the guard house, offices of the Post and regimental adjutants, the quarters and administration of the band, and the office of the commanding officer.

## SENDING SILK WORMS TO FRANCE

New York, May 6.—Three thousand silk worms sailed on the steamer Mauretania yesterday in charge of R. Emory of this city, who will take them to the south of France. They will be set at work there to breed with the native worms in an effort to produce a hybrid that will spin silk superior to that of China.

## SOCIAL AND PERSONAL

This afternoon Mrs. E. D. Hammond is hostess at a reception at her home about 32 guests being present. The rooms are decorated throughout in yellow, wildflowers being used in pretty effect. A guessing game is being played among the guests. The hostess is assisted by Mrs. George Ryan. Next Wednesday Mrs. Hammond gives a card party, and on Thursday also will be hostess at a bridge tea.

Mrs. W. E. Lake is hostess this afternoon at a luncheon and bridge party about 48 guests being present. The luncheon is served in the ball room upon the small tables after-ward used for the card contest, and the decorations being used are a centerpiece, with place cards hand-painted in violets, and the bonbons, ices and other details done in the same color. In the other rooms green and white are used with carnations and green ribbons.

Mrs. J. Fred Daynes entertains this afternoon at 500, the decorations being in pink throughout, with Edith and the tallies done in the same color. About 36 guests are present, and the hostess is assisted by Mrs. P. J. Anson, Mrs. L. W. Snow, R. W. Daynes, Mrs. L. B. Hills and G. D. Anson.

Mrs. T. F. Howells entertains the members of the Woman's Home club this afternoon, the decorations being in spring flowers, and about a dozen being present. A short program will be a feature followed by social chat.

## SHE QUIT.

But it was a Hard Pull.

It is hard to believe that coffee will put a person in such a condition as it did an Ohio woman. She tells her own story.

"I did not believe coffee caused me trouble, and frequently said I liked it so well I would not, nor could not quit drinking it, even if it cost my life, but I was a miserable sufferer from heart trouble and nervous prostration for four years.

"I was scarcely able to be around at all. Had no energy and did not care for anything. Was emaciated and had a constant pain around my heart and I was drinking it every day.

"For months I never went to bed expecting to get up in the morning. I felt as though I was liable to die any time during the night.

"Frequently I had nervous chills and the least excitement would drive sleep away, and any little noise would upset me terribly. I was gradually getting worse until I could not have any more nervous chills, don't take any medicine, can do all my house work and have done a great deal besides.

"My sister-in-law, who visited me this summer, had been an invalid for some time, much as I was. I got her to quit coffee and drink Postum. She gained five pounds in three weeks, and I never saw such a change in anyone's health."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

and refreshments. The guests are: Mrs. Alice Johnson, Mrs. C. H. Backman, Mrs. Frank Bailey, Mrs. J. W. Bush, Mrs. Will Backman, Mrs. Laura Johnson, Mrs. T. Jones, Mrs. W. Yard, and G. Van Gunton.

An event to which all music lovers are looking forward is the song-cycle and Golden Threshhold to be given at the Congregational church this evening, by a quartet comprising Mrs. A. S. Peters, Miss Edna Cohn, M. J. Brines and J. Fred Smith. A number of parties have been formed for the event which promises to be a most delightful one.

Miss Mamie Sappington entertains her sewing club this afternoon.

Last night Miss Hazel Wicking and Edward R. Harker were married at the home of the bride's parents, Mr. and Mrs. F. E. Wicking, with Rev. F. B. Short officiating in the presence of a large number of relatives and friends. The rooms were beautifully decorated in apple blossoms, the dining room being especially pretty. Mrs. Frances Sanborn presided at the piano. The bride wore a beautiful gown of white chiffon over taffeta, trimmed with rose point lace, and carried a shower bouquet of bride's roses and lilies of the valley. A number of friends and relatives assisted in entertaining the bride and groom. The bride presiding in the dining room, including Misses Grace Gray, Arton Pace, Edna Shepherd and Alleen Johnson. After May 15, Mr. and Mrs. Hawke will be at home to their friends at 37 H street.

A quiet wedding of yesterday was that of Miss Mary E. Lambert and James Smith. The ceremony being performed at 5 o'clock at the home of the bride's parents, Mr. and Mrs. George Savage, Mrs. M. E. Lipman, Mrs. J. M. Banks and Mrs. Thomas Marleneaux. Prizes were won by Mrs. L. A. Evans, Mrs. Mathew, Mrs. J. G. Houston, Mr. Arthur J. Lambert, G. T. Brice, Mrs. A. Ritcher, Mrs. Sheehan, Mrs. Fred Stauffer and Mrs. Frank Johnson.

Mrs. Glen Miller was hostess at another bridge party yesterday, the rooms being beautifully decorated in pink and white carnations, and tulips in red and yellow. The hostess was assisted by Mrs. Howard Stone, Mrs. George Savage, Mrs. M. E. Lipman, Mrs. J. M. Banks and Mrs. Thomas Marleneaux. Prizes were won by Mrs. L. A. Evans, Mrs. Mathew, Mrs. J. G. Houston, Mr. Arthur J. Lambert, G. T. Brice, Mrs. A. Ritcher, Mrs. Sheehan, Mrs. Fred Stauffer and Mrs. Frank Johnson.

Yesterday Mrs. Bryan Conrad entertained at a luncheon at the Country club the tables being prettily decorated in pink carnations and tulips. A dozen guests, including Mrs. Louis B. McCormick, Miss Anna McCormick, Mrs. Frank Judge, Miss Katherine Judge, Mrs. Ernest Bamberger, Mrs. A. V. Coughlan, Mrs. W. M. Ferry, Mrs. Edward S. Ferry, Mrs. Arthur Bird, Mrs. George Rose and Miss Gertrude McGrath.

Mrs. W. S. McCormick entertains at a tea tomorrow afternoon, the hours being from 4 to 6 o'clock.

Mrs. Jack Keith has gone to Evansville, Wyo. for a short stay.

Mrs. E. V. Silver entertained yesterday at a pre-wedding luncheon for Miss Mabel Eager whose marriage takes place in June, and also for Miss Elsie who is visiting Mrs. W. H. Child.

Saltair, May 7, Railroad Night.

## STATE'S BALANCE SHEET.

Treasurer Mattson Files Financial Report Showing \$1,176,879.20 on Hand.

State Treasurer Mattson has just filed with the state auditor his report for the month of April last. It shows receipts amounting to \$1,276,081.54, of which \$1,176,879.20 was the balance on hand March 31. The disbursements were \$495,962.46, of which the general fund required \$171,565.19; state district school, \$205,358.23; state fish and game fund, \$1,657.24; extermination of wild animals, \$261.25; state land funds account, principal and interest \$121,020.45, leaving a balance on hand, April 30, of \$777,119.08. The balance in the different funds is as follows: General fund, \$189,729.82; state district school, \$6,587.31; Redemption fund, \$90,491.55; sheep inspection fund, \$1,151.07; trust fund, \$1,522.08; forest reserve fund, \$24,710.37; extermination of wild animals, \$1,755.01; fish and game fund, \$1,407.33; suspense account, \$3.91; Agricultural college, \$40,141.01; Deaf and dumb asylum, \$15,787.51; Insane asylum, \$22,828.63; State hospital, \$24,607.27; Miner's hospital, \$24,406.37; normal school, \$10,507.93; reform school, \$24,720.58; public buildings, \$30,891.85; reservoir, \$34,779.19; state school, \$177,054.03; school of mines, \$4,480.82; University, \$21,659.37. Total, \$777,119.08.

## EARL HINTZ ARRESTED.

Earl Hintz, wanted here to answer to the charge of immorality, has been arrested in Tooele and Sheriff Sharp will send a deputy after him today. Hintz is alleged to have committed the offence with May H. Carr of 226 Fern street in this city on Aug. 16, 1908. J. H. Carr, the father of the young girl, is the complaining witness. Hintz is married.

## A SMILE

Is a pretty hard thing to accomplish when you're blue, bilious and out of sorts. There is a sure cure for all kinds of stomach and liver complaints—constipation and dyspepsia. Bile Beans is mild, yet absolutely effective in all cases. Price, 50 cents per bottle, sold by Z. C. M. I. Drug Depot, 112 and 114 South Main St., Salt Lake City.

Saltair, May 7, Railroad Night.

## MORE MONEY GOES INTO SEWER DITCH

Councilmen Inspect Wooden  
Stave Pipe and Admit  
It is Worthless.

## PICKINGS FOR PAT MORAN.

Probably He Will be Given Contract  
Without Submitting Bids at  
Special Meeting Tonight.

After looking over the outlet sewer yesterday afternoon and discovering that the wooden stave pipe was so rotten that it would not hold water, the members of the city council, who went on the trip, decided to call a special meeting of the council tonight, to determine what could be done. It is proposed to uncover the pipe and replace it with iron pipe, giving the contract to P. J. Moran. Estimates will be presented by City Engineer L. C. Kelsey tonight on the cost of iron pipe and the cost of re-inforcing the wooden stave pipe with concrete. The entire distance between the pump house and the Oregon Short Line tracks. It is believed that it will be less expensive to replace the pipe. The outlet sewer has already cost the taxpayers \$15,000 and it is probable that it will cost \$10,000 more before it can be made use of with any satisfaction. In the meantime the residents who paid for their lateral sewers two years ago are still waiting for them.

When Moran, who took the contract for A. Campbell & Company, attempted to put a pressure on the pipe yesterday for the benefit of the councilmen, the mayor and members of the board of public works, the water streamed out of hundreds of leaks.

It will probably take thirty days to uncover the entire line of pipe and replace it. The work will be done under force account without submitting a bid by Moran. Besides Mayor Branstetter and City Engineer Kelsey, the following city officials were present: Councilmen Davis, O'Donnell, Holley, Fernstrom, Black, Martin, Reedall, Wood, Raybould, Chairman H. G. McMillan, the board of public works, and Michael Fitzpatrick, chief inspector.

## TERRA COTTA INDUSTRY.

Prospective Corporations Seeking to  
Acquire Valuable Local Clay Beds.

Two and perhaps three prospective companies are securing control of valuable white clay and terra cotta deposits south of this city, with a view to starting operations on an extended scale in the manufacture of terra cotta to be used for all purposes in buildings, and for the manufacture of the finest quality of white tile and white brick work, the latter to be used in building fronts. One group of promoters has arranged with the San Pedro road to haul their clay and finished products at reasonable figures, and expects to incorporate shortly.

The opportunities for opening up this class of manufacture and valuable industry have long been neglected, due, it is stated, to the high estimated cost of shipping in and installing the necessary machinery. But the advantages have become so patent of late, that both local and outside investors have concluded not to neglect the chance any longer to start and build up a profitable industry, so that it looks now as though the bugbear of cost had ceased to frighten.

Terra cotta has come to stay as a potent factor in building construction in other parts of the country. It is claimed for this form of material, that it weighs only one-third as much as stone, costs much less, can be moulded into any shape desired, never stains, and is much easier handled. With a big plant started in or near Salt Lake, it is claimed by its advocates, that stone will largely be supplanted by the terra cotta, one important reason being that the deposits of raw material being so close to this city, the freight charges attendant on the shipment of stone will be avoided entirely.

## ALREADY PROVIDED FOR.

Senator Smoot Anticipates Need of  
Miners' Lamps on Free List.

State Mine Inspector Pettit received a letter yesterday from Senator Reed Smoot in answer to his communication to use his efforts to have placed upon the free list miners' safety lamps, and rescue appliances. Senator Smoot had already prepared an amendment which he will submit to the finance committee for its consideration. His letter follows:

Dear Mr. Pettit—In answer to your letter of April 22, 1909, will state that I have an amendment already prepared to submit to the senate committee on finance, as follows:

Miners' rescue appliances designed for emergency use in mines, where artificial breathing is necessary in the presence of poisonous gases, to aid in

the saving of human life, and miners' safety lamps, shall be admitted free of duty until Jan. 1, 1912."

I have every reason to believe that the committee on finance will accept this amendment and that it will be accepted by the senate.

With very best wishes, I remain, yours very truly,

REED SMOOT.

## STUDENTS ARE REAL ACTORS.

The assembly room of All Hallows college was crowded last evening by an audience in attendance on the musical and dramatic entertainment given by the students in aid of the college

athletic association. The following students participated: Julius Hilgard, Thomas Hutchinson, Arthur McCrystal, Joseph McKay, Harold McCabe, Emmet Stiles, Roscoe Stoner, Clarence Ahern, Leo Putnam, Leo Harrington, George Schmidt, John Hutchinson, Neil Boyle, William Grant, John C. Pavliass, Walker Fitzmaurice, Raymond Sutton, Elmie Bernard, Dan Connors, John Neilligan, Jerome Phlegley, Edward Love, Perry Nelson, and others. The boys did well, winning deserved applause. Addresses were made by President Gulnan and Dean Harris.

J. FEWSON SMITH.

who died and was buried on the plains, as the result of sunstroke. Arriving in Salt Lake City Mr. Smith made his home on T street, and later went out farther on the east bench. He afterwards built a home at 619 Third street, where he has since lived.

## LOCATED UNION PACIFIC.

In the spring following his arrival he followed the profession of civil engineer, which he had studied and in which he had become proficient, before leaving England. His first position was that of assistant engineer on the location and construction of the Union Pacific, then building through Echo canyon, and on from Ogden to the Promontory. During his connection with this work he reported favorably upon the plan to cross the lake instead of going around by way of the Promontory, but on account of the additional cost of construction the decision was made to build around, and it was not until late years that his bold plan has been realized by the building of the Lucin cut-off west of Ogden. After the completion of the Union Pacific, with which he was associated until the junction with the Southern Pacific was effected in 1869, his lifework was amongst the railroads of the intermountain country.

## BUILT EARLY ROADS.

He was prominently connected with the construction of a number of Utah railroads, among which may be mentioned the Utah Central, now the Oregon Short Line, between Salt Lake and Ogden, also in 1873 the narrow gauge railroad which ran into American Fork canyon. In the following year he commenced the construction of the road

## MEMBER OF CITY COUNCIL.

In 1888 he was elected a member of the city council of Salt Lake, from the Fourth precinct, and was re-elected in 1890, being the only one of the old council to be returned. He was one of the six who were denied their certificates of election, the certificates being issued to the Liberal party candidates, who served until the decision of the courts set aside the properly elected candidates in their stead. While in the council Mr. Smith was made chairman of the water commission, and as such conducted a thorough and systematic examination of the water problem for the city, and made a valuable report upon it, outlining in general the same plan which has since been followed in improving and increasing the city's supply.

Mr. Smith was associated for many years in a business way with A. F. Doremus, under the firm name of Smith & Doremus. Since his return from Mexico in 1899, he has led a practically retired life, as far as professional work is concerned.

Mr. Smith is survived by a widow and three sons—J. Fewson Smith, Jr., Joseph V. Smith and Rudolph V. Smith. The funeral will take place at the Twenty-first ward meetinghouse on Sunday next at noon.

## CHEMISTS HOLD REUNION.

There was a reunion last night at the Commercial club of the old Utah section of the Western Chemists & Metallurgists' association, when it was decided to revive the organization, and a committee was appointed to prepare plans for the same. The section suspended 18 months ago through shortage in membership, due to the closing down of the smelters in this valley.

Speeches encouraging a revival of the Utah section were made by Dr. F. W. Traphagen, professor of metallurgy, and W. G. Haldane, assistant professor of metallurgy, of the Colorado school of Mines at Golden, Colo., and by several Utah metallurgists. Dr. Traphagen was the first president of the Western Chemists & Metallurgists' association and was also one of its founders.
