mountain resorts a greater number are still sojourning in the fastnesses which nature has graciously placed at the city's doorways, and will doubtless continue to do so at least till the beginning of next month, as August is the time thought by most people to be the most delightful when spent in the canyons. Those who remain in the city are spending a great deal of their time at Saltair, Lagoon and the Salt Palace, where there is always to be found reprieve from the city's heat, and solace for the dearth of social attractions which is the inevitable accompaniment of the season.

RESIDENCE OF JAMES E. JENNINGS.

The home of James E. Jennings on East South Temple street is one of the handsomest of the recently erected structures on the popular residence street. The front door opens into a handsome hall done in oak, the mantels, newel posts, etc., bein finely carved, and the alcoves filled wi h cosy seats. The style is colonial, and is most effective. From the hall on the east open the parlor and library, both done in natural cherry, and with pale green and terra cotta tints prevailing. The library is especially attractive with its curved window-spaces, bookcases, and easy chairs. From the library opens a spacious dining room with woodwork of oak and numerous windows lighting it, the prevailing color being old rose. A feature of the arrangement is that each room opens one into the other, so that the entire floor may be turned as it were into one apartment. Above the library is the billiard room, fitted with a handsome table, and on the same floor are the bedrooms, the woodwork of the entire floor being tamarac. The woodwork throughout the house is of simple but elegant design, and is most effective, and the arrangement of the rooms a model of convenience.

CLUB CHAT.

The summer work of the club women of New Britain, Conn., is in part the conduct of a vacation home for self-supporting young women. This home wes opened a fortnight ago and is intended to furnish an outing at an exceedingly low cost to workers who would otherwise be forced to pass their vacation from business in their city homes. It will offer an opportunity, too, for any of the girls who desire to eitend the Northfield conference. The Womens' club, of New Britain is an old and flourishing organization. It was started in 1875, and is a literary weeks.
