

# RUSSIA MAY YET COERCE CHINA.

Later Threatened With Severe Punishment if She Sides With Japan.

THIS CAUSES DEEP UMBRAGE.

Because Negotiations Are Now Pending—Russia's Pacific Squadron Consists of 54 Warships.

London, Oct. 22.—A dispatch from Tokyo says: It is reported from Peking that M. Lesar, the Russian minister, has addressed a long note to Prince Ching, head of the Chinese foreign office, saying that Japan's interference in the Manchurian question was a serious threat to the Russian Empire and that Russia was prepared to adopt final measures and threatening China with severe punishment if she sides with Japan. This action, while the negotiations are pending, has caused deep umbrage.

It is currently reported that the hitch in the negotiations is due to the Japanese demand for equal railway rights in Manchuria, but it is believed that a more serious difficulty exists. The feeling of popular unrest is growing. The Asahi of Tokyo announced today that a preliminary mobilization order had been issued to the Thirtieth army division. Thirteen vessels of the Japanese standing squadron are engaged in gun practice off Sasebo, 25 miles from Nagasaki.

The newspapers at St. Petersburg say the Russian Pacific squadron consists of 54 warships, including six battleships, eight destroyers, and five submarines, seven sea-going gunboats, two torpedo cruisers, two torpedo transports and 21 torpedo boats, carrying 1,500 officers and 15,000 men. There are now on the way to the far east two battleships, three first class cruisers and 11 torpedo boats of various classes with 104 officers and 1,500 men.

Preliminary arrangements have been completed, says a Moscow dispatch, for the expedition calling out of portions of the Russian infantry reserves. The steamer Nippon Maru, which sailed from Honolulu today for Yokohama, will stop at Midway island for orders through fear of capture caused by the circulation of a report here that the Japanese consulate of Honolulu had received a cipher cablegram that war with Russia had been declared. The passengers on the steamer were very much alarmed.

Advises have been received of excitement at Canton over fears of a possible rising in that city. The city gates were hurriedly shut, the officials fearing an outbreak similar to that which was staged at the last Chinese new year holiday.

News was received from Seoul, Korea, that an American motorman of the American Electric railway at Seoul, ran over and killed a Korean boy. He was humiliated by a number of Koreans and in escape then grabbed a bicycle from a Japanese postman and hurried away.

## ELECTRICITY IN SMELTING.

U. S. Court of Appeals Decides The Bradley Patents Are Valid.

New York, Oct. 22.—A case involving the entire aluminum industry of the country was decided here, when the United States court of appeals handed down a decision upholding the validity of the so-called Bradley patent for smelting by the use of electricity. The suit was one brought by the Electric Smelting and Aluminum company of Cleveland against the Pittsburgh Reduction company, the only concern manufacturing aluminum in this country, and the court reversed the decision of the lower court, granted the Cleveland company an injunction restraining the Pittsburgh Reduction company from the use of the processes at present employed, and ordered an accounting of profits for the time it has been manufacturing aluminum in infringement of the Bradley patent, some 12 years.

The Bradley patents, sustained by the court, were taken out by Charles S. Bradley in 1891 and 1892, and covered the use of the electric current to fuse and electrolyze a material, the current acting both to maintain the compound in a fused state without the use of external heat and to separate it into its constituent parts, aluminum being separated from clay in this manner. The patent is a general one, applying to the electrolysis of any material.

## FIGHTING SECY. STODDARD.

Arizona Territorial Secretary in Washington Defending Himself.

Phoenix, Ariz., Oct. 22.—Isaac Taft Stoddard, secretary of Arizona, is in Washington on a leave of absence to answer charges preferred at the last session of the territorial legislature. The Maricopa County Republican Association is the author of the complaints. Among other things is charged the "maintenance of a corrupt and unscrupulous lobby at the capitol."

The fight against Stoddard is being made by men in his own party. They say they can furnish evidence of corruption and malfeasance.

Until recently Stoddard held the most lucrative political office in the United States. The fees of the secretary, consisting largely in legal tribute from foreign corporations incorporating under the laws of this territory, constituted an income exceeding the amount paid by the country to the president. Mr. Stoddard is the son-in-law of Judge Coloma Martin of Birmingham, N. Y., and is credited here with having influence with both Odell and Platt.

## FOR ARBITRATION TREATY.

Thomas Barclay Favors One Between U. S. and Great Britain.

Washington, Oct. 22.—Thomas Barclay of Paris and London, formerly president of the British chamber of commerce, who in Washington, expressed himself as favorable to the renewal of the efforts to secure an arbitration treaty between the United States and Great Britain, and said that while the treaty did not cover so much ground as did the treaty with the United States, it would be effective as an entering wedge.

Referring to the prospects for an Anglo-American treaty, Mr. Barclay said: "At present I had an opportunity of conferring with many eminent men of business and without exception I gathered that on their part a revival of the move-

## THE FARMER FAILS

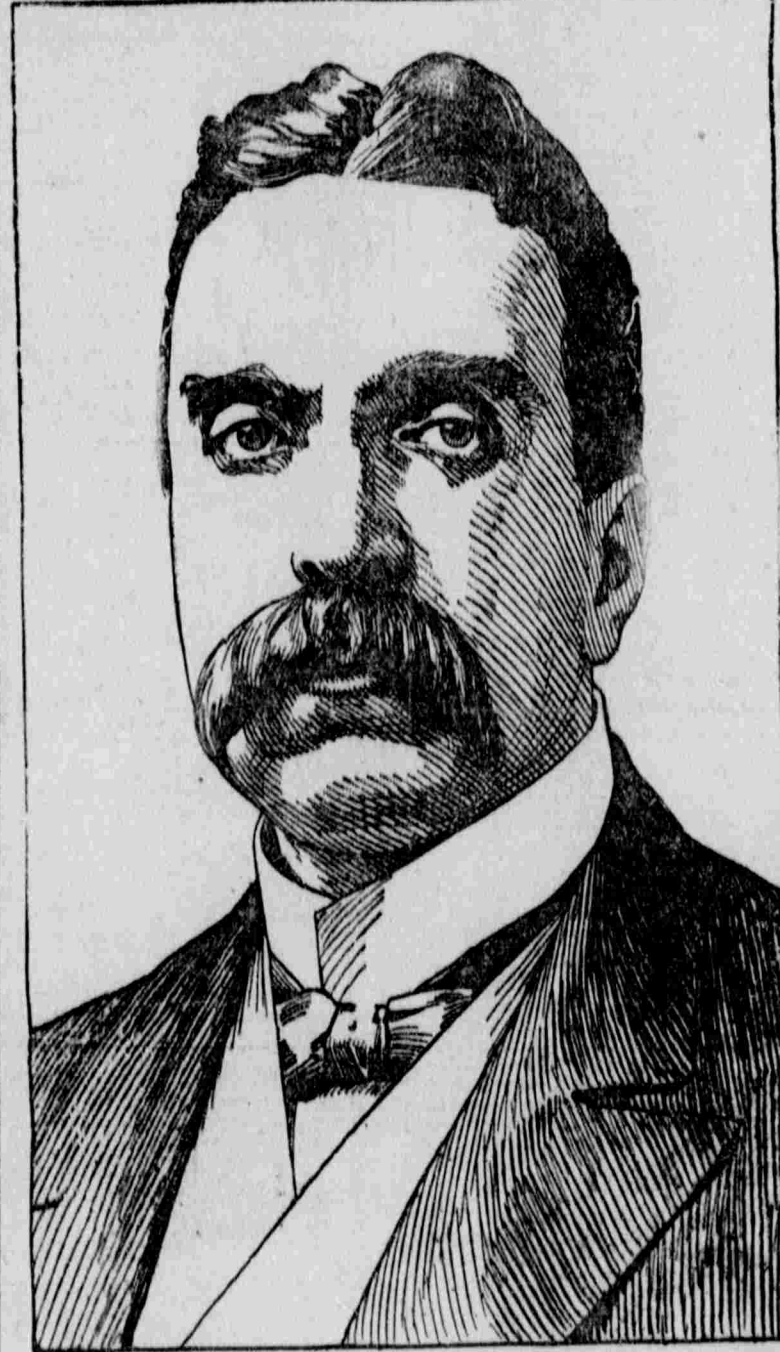

In health just as does the city-man, and he fails commonly from the same cause, "stomach trouble." The farmer's life is a healthy life; but no external advantages can overcome the effects of a diseased stomach. When the stomach and its allied organs of digestion and nutrition are diseased, the food eaten is imperfectly digested and assimilated, and the consequent loss of nutrition results in physical debility.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition, and enables the perfect digestion and assimilation of food. It builds up the body with sound flesh and solid muscle.

I used ten bottles of Dr. Pierce's Golden Medical Discovery and several vials of his Pleasant Pellets a year ago this spring, and have had no trouble with indigestion since," writes Mr. Thompson, of Townsend, Broadwater Co., Montana. "Words fail to tell how thankful I am for the relief I had not able to work at all. Now I weigh nearly one hundred and twenty-five pounds and can do a day's work on the farm. I have recommended your medicine to several, and shall always have a good word to say for Dr. Pierce and his medicines."

The sole motive for substitution is to permit the dealer to make the little more profit paid by the sale of less meritorious medicines. He gains; you lose; therefore accept no substitute for Golden Medical Discovery.

ment would be heralded with great satisfaction. Everybody I spoke to had a vivid recollection of the financial results of the famous Venezuelan dispatch of Mr. Odell, and everybody showed a disposition to do

D. LEROY DRESSER, WHO EXPOSED THE METHODS OF TRUST BUILDERS.

D. Leroy Dresser, who in the shipbuilding trust legislation exposed the methods by which that company was organized, is a brother-in-law of George W. Vanderbilt. He was formerly president of the Trust Company of the Republic, but was forced by his losses in the effort to float the shipbuilding combine to make an assignment. Mr. Dresser's testimony to the effect that Charles M. Schwab was not a free agent, but had to consult J. Pierpont Morgan, who demanded one-fourth of Schwab's profits on the deal involving the turning in to the trust of the Bethlehem Steel company at a greatly inflated valuation, was particularly sensational.

Their level best to get some system adopted to prevent a recurrence of such a disaster. "It is this city that I have without exception received the warmest encouragement. Everybody of importance here agrees that as in the case of the Anglo-

## APPETITES.

A Well Known Druggist Explains How Vinol Creates a Desire For Food.

"Vinol is the greatest aid to digestion that we have ever known," said Mr. Druehl of Leuch and Franken. "It contains all of the active, medicinal elements that are found in cod liver oil, without any oil or grease, and it is so easily absorbed so favorably upon the stomach that this organ obtains for itself the elements necessary for creating new flesh, muscle tissue, and for making rich, red blood."

"When the stomach acts easily and naturally, a desire is created for good, simple food, and a good appetite is the sure result. "With cod liver oil in its old form, the medicinal elements which it contained were unable to do their best work because of the obnoxious oil that enveloped them."

"Now in Vinol we have those same medicinal elements separated from the vile-tasting oil, and we have a tonic and restorative that is simply marvelous in its action. "City to know more about our Vinol, how it cures and what it cures. Certainly Vinol is the greatest tonic and restorative we have ever sold. "Lack of appetite is not itself a disease, but a symptom of weakness showing itself in the nerves of the stomach, which controls the desire for food. We guarantee Vinol will cure this weakness or give back your money."—Druehl & Franken and Smith Drug Co.

French movement, we must not push forward with too great speed, but gradually get representative bodies of the country to show their approval and testify to the general desire of the country to consolidate the relations with Great Britain in some permanent form."

Mr. Barclay has talked with President Roosevelt and Secy. Hay on this subject.

Moore of the Nome City went to the aid of the steamship Meteor, which was in distress 75 miles from Nome, near St. Lawrence island. The Nome City came alongside the Meteor on the morning of Oct. 11. At that time the Meteor, a sister ship, was also with the Meteor, but the big freighter was unmanageable in the extreme. Capt. Moore stayed by the vessel for six hours and then decided to proceed on his way south.
