Havana, Nov. 3.-The Cuban congress which adjourned Oct. 20, reconvened today. President Palma in his message to congress takes an optimistic view of the future of the republic. He refers to the remarkably good order that has been preserved throughout the island, which he says is proof of the peaceful nature of the Cuban people. The president says also that the sanitary condition of Cuba is today even better than it was during the period of American intervention.

The German emperor is alleged to be anxious to have the sale carried through and the advant-ages for Germany made known for the sake of vindicating his own course of

action in keeping on good terms with England. The British ministers, on the other hand, are believed to be reluctant to reveal a partition scheme in ad-vance of actual purchase of the terri-tory and the king of Portugal is not expected to lend encouragement to the idea that the sale can be hurried on.
