## GRANTSVILLE FAIR.

GRANTSVILLE, DESERET, Sep. 29, 1862.

## EDITOR DESERET NEWS:

Dear Sir:—I herewith forward you a report of our Fair, held on the 24th inst., the publication of which will oblige the inhabitants of Grantsville, and myself in particular.

Yours in Home Manufacture,  
WM. G. YOUNG.

The Third Annual Fair of the Grantsville Branch of the Deseret Agricultural and Manufacturing Society was held at Grantsville on Wednesday the 24th September, 1862.

There was a fine show of fruit, consisting of apples, peaches, grapes, sweet almond, currants, etc., etc. The show of stock, agricultural products, and articles of Domestic manufacture exhibited was much superior to that exhibited at our last Fair, showing what can be done by the enterprise and industry of the people. A good specimen of Madder Root was presented by Mr. James H. Durney, and he informed the Board of Directors that he thinks he will be able to produce several pounds of manufactured Madder this fall. Mr. Wm. A. Martindale also presented a good specimen of Texian Indigo plant, and thinks he will be able to secure quite a quantity of seed this fall. A considerable amount of Tobacco has been raised here this season, some of which has been manufactured and presented at the Fair, and pronounced (by those that use the weed) to be a good article. Two grand bull-fights, and a ram-fight came off about two o'clock in the Public Corral, after which, to close the proceedings of the day, the people retired to the race course and viewed with satisfaction the speed of the horse, and the slowness of the donkey. During the Fair, the fighting, and the races perfect order prevailed, and all seemed satisfied with the proceedings of the day.

The following were the successful competitors for the premiums awarded:

## WEBER COUNTY FAIR.

OGDEN CITY, September 29th, 1862.

## EDITOR DESERET NEWS:

Dear Sir:—The Weber county Branch of the D. A. and M. Society held their Annual Exhibition in the Seventies Hall, in this city, on the 26th and 27th inst. Considering the lateness of the spring, the high waters, and other disadvantages connected therewith—under which we have labored, our home productions far exceeded our expectations.

The number of cattle, cows, sheep, etc., at the fair was not numerous; the quality, however, was good, and evinced a decided improvement in that line.

Owing to the difficulties for obtaining cotton yarn, the supply of home made cloth was not so good as it otherwise would have been—still it is encouraging to know that the energies of the people are not dormant. The jeans, linseys, flannels, linens, etc., on exhibition, were of excellent quality, as also was the made up clothing—which seemed comfortable, strong and serviceable. There were also exhibited some fine specimens of yarn spun from cotton raised here, and which seems to predict for us a hopeful future.

The needle work was highly creditable to the lady contributors to the Fair of this county; the variety of their productions, the neatness, the taste, the style, and the manner in which the work was executed would compare with any we have ever yet seen.

The fruit this season is late here; yet we noticed from the various orchards of this county, a goodly number of very fine, large sized apples, both seedlings and improved, the flavor of which was rich; and we may truly say the same of the pears, peaches, plums, grapes, currants, etc., which richly adorned the tables in this department. The early frosts killed many of the vines, which limited the quantity of ground fruit which had not time to mature; but, tho' not multitudinous, were mammoth in size, and spoke well both for the soil and its cultivators. The agriculturists of Plain city and North Ogden furnished a fair quota of these, and other articles on exhibition. The vegetables of all kinds were good, and equal, if not superior to any that have been before exhibited here.

There were on exhibition some very good samples of leather, both from Ogden city, and North Ogden tanneries; also some fine specimens of well made and highly finished boots and shoes, which, I believe, would almost vie with any we have seen in other countries.

With regard to our horse races, I may merely observe that the performances on the race course seemed to indicate that, should occasion ever require, this county can furnish its quota of swift steeds and excellent riders.

The Martial and String Bands were present and contributed much to enhance the pleasure and enjoyments of the occasion. The hall was neatly fitted up and tastefully decorated with the works of art, etc., and which reflected much credit on the committee of arrangements, J. A. Jost, B. F. Cummings, J. Hall, Wm. N. Fife, J. Ellis, M. Hall, and J. Leavitt.

On the whole our Fair was all that could have been expected under our circumstances the present year.

At the close of the Exhibition, the Board of Directors, Committee of Arrangements, the Musicians and some invited guests repaired to Mr. B. Covington's saloon, when, after partaking of refreshments prepared by "mine host and hostess," we repaired to our homes, fondly hoping our next years display will far exceed the present exhibition.

JOSEPH HALL, Corresponding Secretary.

## JUAB COUNTY FAIR.

NEPHI, JUAB COUNTY, }  
Sept. 29th, 1862. }

## EDITOR DESERET NEWS.

Dear Sir:—Knowing that you are interested in anything that is conducive to the happiness of the people of the State, we send you the report of the Fair held by the Nephi branch of the D. A. and M. Society in this place on the 27th inst. This being the first Fair of the kind held in Juab county, considerable anxiety was manifested for its success, and we can truly say, that it has exceeded our most sanguine expectations.

An opinion has prevailed in this county that fruit could not be raised here, but the exhibition of peaches, plums, apples and grapes, showed that such an opinion was utterly fallacious. The people of this county are beginning to wake up in relation to such matters, and it is hoped that the time is not far distant when Juab county will be able to successfully compete with her sister counties in the production of those comforts, which it is the privilege of the bees of the hive of "Deseret" to enjoy. Not desiring to be tedious we close by subscribing ourselves, Yours truly,

T. B. FOOT, President.

THOMAS ORD, Secretary.

ANOTHER ROUTE TO DENVER.—The Commonwealth and Republican of Denver, says that a new Express Company is in process of organization, for the purpose of running a line of Concord coaches from Denver via Salt Lake to California, over the Berthoud route. Influential and wealthy men of Boston, New York and Albany are said to be connected with the company. The Berthoud route is said to be ninety miles shorter than the Cherokee trail and two hundred and forty-two miles shorter than the South Pass route.

The Denver folks are now likely to be better pleased with the Overland Stage company. They probably learned after the Denver article alluded to was penned that Mr. Ben Holladay had ordered the Daily mail to run through their city.

FUDS IN CALIFORNIA.—It appears that the Chinamen in the Golden State have started a North and South affair on their own account. The belligerents are respectively designated the Lee Yup and Hop Wo companies. "Bloody times are expected," says a San Francisco telegram. The Chinamen are more likely to indulge in sundry throat cutting and head splitting operations than anything of the tented field.
