

MINING, BUSINESS AND STOCKS.

MARKET DULL

AND LISTLESS

Trading on 'Change This Morning
Extremely Light.

ONLY EIGHT PARTICIPANTS

Wabash About the Only Stock Which
Exhibited Strength—The Closing
Quotations and Sales.

Dull and listless was the condition of the mining share market this forenoon. Only eight stocks participated in the trading done upon the regular and open boards, and the sum total of the sales only amounted to \$3,750, the equivalent of 9,424 shares transferred.

Wabash was about the only stock brought out which exhibited any strength at all. But it was considerably stronger and when the last bid was registered it was found to be 30 1/2 cents, while it was offered at 32 cents. Daily-Judge remained in the weak condition of yesterday. No sales were recorded, the highest bid for it being 9 1/2 cents. Westfield firm; May Day would not sell at a higher price than 19 1/2 cents, while Victor Con. reached 27 cents, closing with 26 cents bid. New York was taken at prevailing prices.

The closing quotations and sales posted were as follows:

Greenwald's Good Luck.

Jack Greenwald considers himself in luck. A few days ago he came into possession of a large block of stock in the Naderiv Mining company of Park City in settlement of an interest held in the Custer lode mining claim. The stock was sold to have a value of \$1,500. The claim was located 25 years ago, when Mr. Greenwald was a resident of the great mining camp. The assessment work has been done each year since that time. In 1880, other parties interested in the claims, attempted to advertise him out of his holdings. The usual process of law was gone through with and the parties who brought the action supposed they had succeeded. But Greenwald had located the property in the name of his brother. That fact was overlooked and when it came to a show down he established a valid title to the property.

Beauty and Strength.

Are desirable. You are strong and vigorous, when your blood is pure. Many, many, most women, fail to properly digest their food, and so become pale, sallow, thin and weak, while the brightness, freshness and beauty of the skin and complexion, depart. Remedy this unpleasant evil, by eating nourishing food, and taking a small dose of Beriberi after each meal, to digest what you have eaten. See at Z. C. M. L. Drug Department.

MOUNT BALDY

GOLD DISTRICT

Conditions Shaping for Much Activity This Year.

THE SEVIER CONSOLIDATED.

Much Expected From That Company—Franklin Mining Company Working Large Force.

Special Correspondence.
Marysville, April 1.—The Mount Baldy gold belt has numerous properties, now getting into shape and others that will soon materialize as the season advances, that promises unwonted activity and prosperity for 1903.

In Gold Mountain the outlook is exceptionally bright. The marvelous showing of mineral wealth in the Annie Laurie, adds a stimulating impetus to this rich district.

A large body of ore, high grade, has been broken into on the Trapper's Pride. Rumor has it that a deal is on for this property.

Flattering reports still continue to come from the Keystone, situated near the Trapper's Pride. An average sample taken from tunnel No. 2 gave returns of over \$40 per ton.

The Butler-Jack, is actively at work. This property has produced considerable ore, and has plenty in sight.

The Sevier Consolidated will be operated on a most extensive scale the coming season. Plans are being made for the erection of the new mill.

The sensational strike that have lately been made on the Fish Creek side at Gold Mountain, with the building of the Sevier Consolidated company's new mill and the prospects of a mill each for the Keystone and Trapper's Pride, assures an unprecedented season of activity for this portion of the Mt. Baldy gold belt.

In Bullion canyon, the Franklin Mining company is working a full force. Shippers recently made gave highly satisfactory returns. This company has lately increased its capitalization to \$2,500,000, and intends to push work on its many holdings in this and adjoining districts.

P. M. Haughey has a milling proposition in the Standard group. Three feet of ore has been exposed.

J. S. McCulloch is busy on the Golden Fleece getting out a car of lead ore.

Packard Bros. have a good showing in their claims.

Michael Hennessey, who has been "hard at it" all winter on his property in Horse Heaven, reports a nice body of ore.

Frank Lailoy has returned and will do some development work in Sevier canyon.

The B. W. & H., down the sevier, still continues to improve, and indications are that it will be one of the heaviest producers in this section.

THE NEW YORK HOIST.

Park City Plant Was Steamed Up Yesterday.

Manager R. G. Wilson came down from the New York mine, Park City, last night, where he saw the new hoisting plant in commission.

It may be several days yet before sinking will be resumed. The company was depending upon the Ontario company for water supply, but so far that corporation has failed to make the delivery. Temporary arrangements will be made for it elsewhere, so it is not expected, says Manager Wilson, that development will not be much longer delayed.

MAY DAY ORES.

Settlements Made Yesterday for 119,000 Pounds.

The management of the May Day Mining company made settlements yesterday for a shipment of ore from that lode property. The lot consisted of 119,000 pounds, which brought net returns of \$1,325. The ore carried values to the amount of 46 per cent lead and 31 ounces silver.

PARK CITY PROPERTY SOLD.

Deeds Filed for Record at Coalville—Consideration \$35,000.

Special Correspondence.
Coalville, March 31.—An agreement for the sale of mining claims was filed with the county recorder on the 25th inst. W. P. Thomas sells a two-third interest to Michael Fitzgerald and Murry McCall, in the St. Lawrence group, consisting of the following claims: Maud S. G. A. R. B. and Nellie lode mining claims. The consideration named is \$35,000. Fitzgerald and McCall transfers and assign their interests to the Naderiv Mining Extension and Milling company for valuable consideration (amount not stated). These claims are situated in the Utah mining district.

WYOMING PLACER MINES.

Big Dredge to be Installed on Douglas Creek.

Special Correspondence.
Laramie, Wyo., March 31.—The Home Placer Mining company, backed by Illinois capital, has ordered a dredge and will this summer do considerable work in the Douglas creek placer fields where the company owns eight or 10 valuable claims. The placer fields produced thousands of dollars in gold a few years ago, being worked by State Auditor W. W. Owen, Le Roy Grant, Union Pacific Conductors William and Ed Storey and others. A flume was constructed, but the method employed in extracting gold, although the dirt ran over \$2 to the yard, were crude and the results were not satisfactory. Then the owners were only able to work the placer beds a few weeks in the spring when the water was high, but now the stream will be dammed and the dredge placed therein. The gravel will be treated on board the dredge, the refuse being thrown out on the banks. Experts say that the gravel will average between 50 cents and \$1 per yard, and that big profits will be realized.

Good News from Deep Creek.

J. M. Hamilton, who is extensively interested in Deep Creek, has received word that conditions are looking very bright at the Dewey mine, in the great district to the west, in which he is a heavy shareholder.

GRAND COUNTY

MINES ATTRACT

Vast Undeveloped Region in South Eastern Utah.

LA SAL MINING DISTRICT.

Tornado Mining Company Ready to Begin a Vigorous Campaign—Rich La Sal Mine.

An heretofore neglected mining region, located in the southern part of the state is receiving attention from local mining men. It is predicted that before the close of the present year this vast mineralized section, known as the La Sal mining district, in Grand county, will witness considerable activity. The one great drawback to the country is its isolation, being a considerable distance from the railroads. But when one considers that Tonopah is 60 miles from the nearest railway point and that it is one of the greatest mining camps in the west today; made so by the perseverance of the sturdy Nevada miner, the obstacles in the way of opening up the gold and copper mines of Grand county are of mere insignificance.

Mr. J. A. Largent, the well known Salt Lake attorney and mining man, was attracted to the La Sal last October and at that time made a careful and exhaustive examination of the geological and mineralogical conditions existing there. The result was entirely satisfactory; he arrived at the conclusion that the region was rich in gold, silver and copper, and that it would, in time, develop into one of the most productive mining camps in the state.

Accordingly, he acquired property there which formed the basis for the organization of the Tornado Gold Mining company, comprised of well known Salt Lake citizens, among whom are T. R. Black, president, F. G. Carthy, vice president; Isadore Clive, treasurer; J. A. Largent, secretary; George L. Nye and M. L. Fowler, the latter, of Grand county, directors.

The new company is now ready, said Mr. Largent today, to commence an active campaign of development and has contracts to be let for several hundred feet of exploratory work, consisting of winzes and drifts. At the time of taking over the property 500 feet of development work had been performed, in which was exposed a vein of ore, 10 feet in width from which assays ranging from \$7 to \$108 to the ton in gold were obtained.

There are 1,000 tons of ore on the dump which will average \$3 to the ton. The new vein has been traced along the property for a distance of 3,000 feet, and lies between a formation of lime and granite.

Another property of merit in the La Sal mountains is the International Copper mine, in which local mining men are interested.

In the same region, but just over the state line in Colorado is the La Sal mine, containing some marvelously rich ore bodies. Mr. Largent was privileged to see the returns from 88 car loads shipped from that property which brought net returns of \$105 per ton. The ore was hauled overland 70 miles to the nearest shipping point.

Mr. Largent says the mining men of Salt Lake do not realize the importance of the La Sal and Henry Mountain mining districts. If they did he believes that the country would receive the attention which it deserves. An immense amount of trade could be diverted to Salt Lake from that part of the state if a railroad were built into the country from Cisco on the line of the D. & R. G. railway.

Mr. Largent says the steps are already being taken by persons interested in the welfare of Colorado to have the road built into the district from that side. This would mean that Denver would reap the benefit. If Salt Lake people will make a more active interest in the region, Mr. Largent states, the road can be financed to run in on the Utah side without difficulty.

The Tornado company has a large tonnage of ore blocked out and it is planned to build a mill later in the year.

SALT LAKE MARKETS.

Changes are few and of no special moment in this week's retail markets. In the poultry market hens continue at 20 cents, and spring chickens are being received in quantities, and make fine broilers. The egg market is recovering its equilibrium, as the supply is falling off, and so prices have a tendency to stiffen. At present the 20 cent price continues. Butter continues in good demand, the best creamery bringing 30 cents, and ranch butter sells at 15 and 25 cents.

In the green grocery market, articles and prices are as follows: Florida tomatoes, 20 cents per pound. Spinach is going four pounds for two bits; California asparagus is now to be had at two pounds for 35 cents. Potatoes have fallen to 85 cents per bushel. Utah sweet potatoes are out of the market. Utah rhubarb sells at two pounds for two bits, cut flower, 15 and 20 cents, cabbage, 5 cents; grapes, 4 to 10 cents for two bits, radishes, 5 cents; celery 5 cents; beans, 15 cents; onions, two for 5 cents.

In fruit, oranges are retailing at from 20 to 50 cents a dozen; lemons at 25 cents; apples at from \$1 to \$1.50 a bushel; figs, 5 to 25 cents a package; dates, 15 cents a pound.

Fresh and cured meats are retailing at the following prices: P. m. ribs of roast, 17 1/2 cents; porter house steak, 20 cents; full lamb, 15 to 20 cents; mutton chops, 12 1/2 to 15 cents; veal, 10 to 15 cents; pork, 15 to 17 1/2 cents; lamb, 15 cents a pound; spring lamb, \$1.25 to \$1.50 per quarter.

In the fish market fresh salmon is selling at 17 1/2 cents; pike at 25 cents and frozen salmon at 15 cents per pound. Sacramento river shad is selling at 15 cents, pike, 20 cents per pound, 2 for 35 cents. Shrimps are 20 cents a quart; prawns are 40 cents a pound; crabs at 25 and 30 cents apiece; lobsters, 15 cents a pound; oysters, 50 and 60 cents a quart; blue points, 25 cents a dozen; salmon, Mackinac trout white fish, 17 1/2 cents a pound; red snappers, 20 cents; fresh mackerel, 20 cents; fresh sea bass, tom cod, rock cod, sole, rounders, halibut, herring, two pounds for a quarter; blue fish, 17 1/2 cents.

In the flour and grain markets, prices remain as follows: High patent flour, \$2.50 a hundredweight; straight grade, \$2.30; bakers' grade, \$2.20. Whole and cracked corn retailed at \$1.45; wheat, \$1.10 a bushel; lucern, 60 cents a hundredweight; timothy, 80 cents.

Victor Consolidated Showing.

In his statement made to the listing committee of the stock exchange, before the placing of Victor Consolidated among the listed securities, Manager Victor M. Con. states that the company's mine is blocked out no less than 6,000 tons of ore, which is of the value of \$20,000.

The report also shows that 2,600 feet of exploratory work has been executed, which includes that of the Boss Tweed mine.

Victor Con. of Oregon.

Prof. W. H. Tibbals, president of the Victor Consolidated mine, located in Baker county, Ore., received word today that a shipment of high grade ore to be made at once from the new smelter at Summit. The ore is taken from a vein which carries values ranging from 75 to 200 ounces silver and from \$12 to \$75 gold.

DAILY-JUDGE AFFAIRS.

Broughall Resignation Was Not Entirely Unexpected.

Officials of the Daily-Judge company were not inclined this morning to shed any new light on the reported resignation of Mr. J. J. Broughall, who has been charged with the mill construction work for that company during the past few months.

But there is no doubt that the report is true and that Mr. Broughall's name is no longer upon the pay rolls of the company. It comes from well informed sources that the resignation was not entirely unexpected; for it is claimed that since the new Daily-Judge plant has been in commission there has been some friction between the superintendent of the mine and Mr. Broughall over the value of the ore sent down to the mill for treatment. At any rate, it is alleged, that the mill returns have not been quite satisfactory to the management and therefore the fault must lie between Broughall, of the mine, and the mill management; either the former has not sent down the ore of the value claimed for it, or else the mill has not been performing its functions properly; a too heavy percentage of the concentrates going down the canyon.

But whatever may be the case it is hoped that the difficulty may soon be remedied and that the mine will get in shape to pay the anticipated dividends.

FORCE

Satisfies taste and appetite

CONCENTRATES.

The Tonopah Miner is keeping pace with the growth of that wonderful camp. It has been enlarged to a six page paper and its columns are teeming with good live news each week. Until Col. Sam Dunham, its editor, drove his stakes in Nevada, the newspaper of the Sage Brush state were a sleepy lot. While he has shown his contemporaries a few things about modern journalism, and they have profited thereby, they are still distanced by Tonopah's Miner.

The new smelter at Sumpter, Ore., is nearing completion.

The Lynch-O'Meara company, operating the Alpine mine, near Tonopah, is producing 3,500 sacks of ore each month, netting about \$20,000.

James A. Flint, a well known Tonopah mining man, was in the city yesterday. He departed last night for Montana.

Fred H. Perkins, consulting engineer of the Stockton Gold Mining company, is looking over the Stockton property today.

Managed Tony Jacobson, of the Columbus Consolidated expects to depart for the east shortly.

The ore and bullion settlements made yesterday amounted to \$48,500, as follows: Base bullion, \$11,300; ores, \$32,200.

The management of the Johnny mill, at Stateline, has started up its cyanide department.

Willard F. Snyder, of the Western Exploration company, is in the Gold Mountain district.

A. J. Bettles has gone to Montana on mining business.

Henry C. Cutting, one of Tonopah's leading citizens, says that camp will be connected with two lines of railroads before this year closes.

The movement on foot to establish iron blasting furnaces to handle the product of the Iron mines of Iron county in this city is reported to be progressing favorably.

STOCKS OPENED AT A DECLINE

Lower Prices for Americans in London the Cause.

THERE WAS NO GREAT SLUMP

Large Blocks of Pennsylvania Were Unloaded Resulting in General Depression of the Market.

New York, April 2.—Lower prices for Americans in London foreshadowed the opening decline here. Declines were restricted to small fractions except for a fall of 1/4 in Reading, 1/4 in Amalgamated, and a point in Canada Southern. Room sentiment favored still lower prices when liquidation on a large scale began in Colorado Fuel and Western Union. These stocks scored losses of 3/4 and 2/4 respectively. Bear operations offered down Pennsylvania, the coals, Pacifics and Gould stocks. Amalgamated, Sugar, Rubber Goods, Ice preferred, American Cable, Canadian Pacific, Missouri Pacific, Southern Pacific, Illinois Central, Pennsylvania, Reading, Wabash preferred and Minneapolis, St. Paul and Sault Ste. Marie, held last 10 1/4. Blocks of 2,000 and 3,000 shares of Pennsylvania were unloaded, which had a depressing influence on the general market. Texas & Pacific Land Trust certificates advanced 2. Bonds were weak at noon.

Bears made no effort to press their advantage beyond the noon level, but the market never hung back. B. & O. dropped 1/4, Northwestern 2 and Anaconda 4 points.

Wide and frequent fluctuations in Colorado Fuel had an unsettling effect. It broke to 90 1/4, a loss of 5/4, rallied to 95 and then moved feverishly. St. Paul and Pennsylvania fell to the lowest of the day and what little rallies had been made elsewhere were wiped out.

MONEY AND BONDS.

Money on call firm at 8 per cent. Prime mercantile paper 5 1/2 per cent. Sterling exchange steady, with actual business in bankers' bills at 4.57 1/4 for demand, and at 4.55 1/4 for 30 days. Posted rates, 4.8 1/4 and 4.57 1/4 for 60 days. Commercial bills, 4.3 1/4.

Mexican dollars, 28 1/2.

Government bonds steady. Refunding 2s registered, 101 1/4; 3s coupon, 101 1/4; 4s registered, 101 1/4; new 4s coupon, 101 1/4; 4s registered, 101 1/4; 4s coupon, 101 1/4; 4s registered, 101 1/4.
