Papers sent to subscribers by mail have the names stamped upon them with figures opposite to indicate when the subscriptions will expire. For instance, *John Smith, 4-11-8*, means that John Smith's subscription will expire on the 4th day of the 11th month of this year, or November 4th, 1888. Subscribers will please notice the figures on their papers, to see that they have their proper credits, and to know when to renew their subscriptions, and to cause to stop the paper when the subscription expires.

IN INDIANA.

General Harrison—A Secret Political League.

INDIANAPOLIS, Sept. 28.—The day with Gen. Harrison was one of quiet. His large correspondence is not allowed to accumulate. The volume of mail arriving has decreased but little since the day of his nomination. To-morrow he will receive delegations from Cleveland, Chicago and Lasalle. It is probable that there will be two public receptions.

The proprietors of the *Journal* to-day tendered Hon. J. F. McDonald, as custodian under the terms of the "dollar a day" story being circulated against Gen. Harrison, their certified check for $9000. McDonald returned the check, declining to have anything to do with the matter.

A SECRET ORGANIZATION.

A matter of the highest importance leaked out here today. It is nothing more than the existence of a great secret league known as the Indiana Fair Election League, whose membership comprises all shades of political conviction. For the past two months the projectors of the league have been quietly perfecting its organization in every county in the state. The object of the league as it is now understood, is to prevent the casting of fraudulent and illegal votes. So far as known, its existence is not attributable to any efforts on the part of either the democratic or republican committees. Full and reliable particulars touching the membership and organization of the league have been given by those known to possess them. It seems its members are not to be known in their respective localities unless an occasion arises to cause an arrest or prosecute an illegal voter, in which event two or more members of the executive committee will be put forth publicly as members of the league to conduct the prosecution. The executive committee of the league consists of nine residents of Indianapolis. Each county organization is under the direction of an executive committee of five, while the precinct leagues elect from two to five executive officers. It is now claimed that branches of the league already extend into every precinct in the state.

Gen. A. P. Hovey has returned from Washington and re-entered the state canvass. He has been detailed by his state committee, together with Corporal Tanner of New York, to meet Blaine at Goshen October 10th and accompany him on his canvass throughout Indiana.

Chairman Houston today received the following telegram:

"Boston, Sept. 28.—It is stated in the easters papers that you have arranged to have me speak at the railway stations between my appointments. I hope this is not true. If it is my speaking in Indiana will last just one day. My throat will not stand it at all.

(Signed) JAMES G. BLAINE."

The committee replied to this, stating that it was not expected Blaine would speak elsewhere than at appointed meetings.

Governor Hill will be met at Mitchell on October 12, by Governor Gray and a number of other distinguished democrats who will accompany him on his canvass.

THAT CAMPAIGN BALL.

WASHINGTON, Sept. 28.—The Harrison and Morton campaign ball arrived here today, and escorted by several local republican clubs, was rolled up Pennsylvania Avenue to the republican league club house. A large crowd assembled and listened to speeches by Senator Dolph, Representative Perkins, of Kansas, and Johnson of Indiana. The ball will next go to West Virginia.

The California Sprinter.

NEW YORK, Sept. 28.—V. E. Scheffenstein, the sprinter of the Pacific Coast, says he doesn't claim the 100 yards record of 9 4 5 seconds made by him at St. Louis, although he says the starting was well done and the future movements will have to show whether the track was measured all right and the time correctly done. Says he:

"To my mind the track was a trifle down hill at the start but up hill at the finish, say for about forty yards or so. As for the timing I can only say that after my race I timed several events with the officials and agreed with them on nearly every occasion, but I will not claim any record of which there is any doubt of its reliability. I propose to let my subsequent running speak for me. If I am as fast as is claimed for me, and I believe I am, I will prove it. I may not have as good a day again for some time, but I think that sooner or later I will show just how good I am. Do I think I can beat Westing? Well, I do not care to say. I have a high regard for Westing. I know he can run fast very fast indeed, but if we meet in Canada I will try to beat him. I know he will make me run fast if I do beat him, but I rather like that. Do you know it is a peculiarity of mine that I can't run fast unless I am forced out. Some men can run very fast trials, but as a rule I can not. I run fast when I am pushed, and as Westing will undoubtedly push me in Canada I'll expect to run fast. I am told that the track up there is new, and very liable to be slow, but I look at it this way. It will be as slow for other men as for me. It may be suggested that it will be more against me on account of my being a long stricter, but I'm willing to take long chances."

Scheffenstein has made many friends while east. He left a couple of days ago for Canada to compete in the championship meeting there.

A Defalcation.

CHICAGO, Sept 28.—Shortly after the board closed today a rumor gained currency on the streets that one of the employes of the American National Bank of this city had left the city suddenly with a large amount of funds. The fugitive was alleged to have been using money freely on the 'Change in making good his shortage of cash and September wheat. The sudden rise in the market, it was asserted, had cost him not only every cent of his own, but also a considerable amount belonging to the bank. The officers of the bank declined, at first, to either affirm or deny the report. The members of the bank in connection with the wheat corner last year attempted by Harper, the wrecker of the Fidelity, were recalled and formed the subject of much talk. Late tonight the president of the bank authorized the statement that there had been a defalcation, but that it would not exceed $50,000. The amount would be made good tomorrow by the culprit's friends. The president refused to give the name of the offender.

A mob at Nauchatel, Switzerland, made savage attacks upon the Salvation Army yesterday, blockading the meeting house, pouring petroleum on the building, firing pistols, etc. A riot ensued in which several persons were injured.

CAPITAL NEWS.

Mail Matters—Politics in the Arsenals.

WASHINGTON, Sept. 28.—The Senate committee on finance devoted four hours to reading the new tariff bill, and reached the end at 5:30. Senator Harris expects to receive from Senator Beck on Monday the latter's suggestions in regard to a minority report and to be able to submit them to the committee by Wednesday.

The following named fourth class postoffices will be raised to the Presidential class October 1st: Blackhawk, Sterling and Yuma, Colorado; Granite, Montana; Pesca, Nebraska and Carbon, Wyoming.

The special committee appointed to suggest additional safeguard in handling public funds in the treasury department, began its labors this morning. Treasurer Hyatt, chairman of the committee said today he was satisfied there were no irregularities in his office beyond those already published.

FAST MAIL LINE.

Postmaster-General Dickinson, assisted by Mr. W. L. Bancroft, general superintendent of the railway mail service, has just completed arrangements by which a new fast mail train will be established between Chicago and New York; commencing on the 30th inst.

This train will be known as the "New York and Chicago fast mail east," scheduled as follows: Leave Chicago at 8:30 a. m.; arrive at Buffalo at 11:45 p. m., Albany about 7 a. m., Boston about 3 p. m., reaching New York at 12:30 p. m., being about twenty-seven hours in transit from Chicago to New York. This is the most important improvement, it is claimed, that has yet been made in east-bound mail facilities between the great Northwest, the Pacific Coast and the East in the history of the service. At Chicago direct connections will be received from east-bound fast trains from San Francisco via Omaha and Portland, Oregon, via St. Paul, thus constituting a fast mail service from the Pacific Coast to the Atlantic seaboard, resulting in the saving at one business day for correspondence from the Pacific Coast states for all points east. By the present schedule, the arrival at Boston in late for the mail to be available till next day, either for local delivery or connections from the extreme east. The new train, reaching Boston about 3 p.m., will admit of local delivery and response the same day, and will also secure delivery the same day of mails for all the New England country west of Boston; and delivery connection at Portland, Maine, at 5:30 p. m., instead of 6 p.m., as at present. By the arrival at New York at 12:30 p.m. the city mail will be delivered in the afternoon in ample time to admit of response for the same day's dispatch by fast mail west bound, leaving New York at 9 p.m. The most important fact in connection with the arrival at New York at noon, is that all bank paper can be handled by banks and clearing houses on the day of its arrival, instead of being delayed for treatment until next day, which is the case under the present schedule.

AQUEDUCT INVESTIGATION.

As the investigation of the construction of the new aqueduct tunnel progresses the more flagrant and criminal appears the fraud. A large number of holes have been drilled through the walls of the brick arch in many sections of the tunnel, and at few points was the work found to have been done in any particular according to the contract. On the contrary, there was in most cases an entire absence of packing, and were found it consisted of large free stones and free dirt, at best a miserable pretence.

The House conferees on the deficiency bill have already agreed upon a resolution authorizing a joint Congressional investigation, and as soon as action has been taken by the Senate and the House committee can be appointed, the work will be begun.

ARSENAL EMPLOYES.

The *Post* tomorrow will publish th following:

Berry S. Heath, correspondent of the Indianapolis *Journal*, has delivered to Senator Hale, chairman of the select committee on reform in the civil service, a copy of a confidential circular issued by Gen. Benett, chief of ordinance, which the Senator says he will make the basis of a request for an official inquiry by the Senate. The circular is as follows:

ORDINANCE OFFICE,
War Department, Washington,
January 4th, 1886.

To the Commanding Officers of the National Armories at Springfield and Rock Island, and of the United States Arsenals at New York, West Troy, Philadelphia, Boston and Benicia:

While the arsenals and armories are not intended to be converted into political machines, two political parties in this country are recognized. It is therefore ordered that hereafter in employing or discharging employes of any and all grades, other things being equal and qualifications satisfactory, democrats will be favored, the object being to divide the force into different grades gradually, between democrats and republicans. This rule will apply to women and children as well as men, and will be strictly enforced.

B. V. BENETT,
Chief of Ordnance.

Heath informed Senator Hale he had shown the circular to General Benett, who acknowledged its genuineness, and stated he had been instructed to write it by Secretary Endicott.

"The Friends of Indians."

LAKE MOHONK, N. Y., Sept. 28.—Today was the last day of the conference of the friends of Indians. Dr. Lyman Abbott, from the Committee on Resolutions, reported a platform which, after various amendments, was adopted. It embodies the suggestions of Dr. Abbott in his recent address before the conference.

Southern Ute Indians.

IGNACIO, Col., Sept. 28.—Councils were held between the commissioners and the Southern Ute Indians yesterday and today with very favorable results. The Indians have appointed a delegation of nine to go with the commissioners to look at the country in the Blue Mountain region, on condition that if the country does not suit them they will be under no obligation to accept it as a new reservation.

Protocol Abandoned.

ROME, Sept. 28.—The Italian government recently notified the Port that Italy would sign the protocol which the Porte desired to append to the Suez Canal convention only on condition that the Porte specified the territory claimed by Turkey in North Africa, and that it also defined the western frontier of Tripoli. The Porte refused to comply with these conditions, on the ground that such compliance would compromise Turkish rights in Tunis. The protocol has been abandoned.

Thai Indian Business.

CHAMBERLAIN, Dakota, Sept. 28.—The general council of all the Indian agents and leading chiefs with the Sioux commenced last Saturday at Lower Brule Agency. They dispensed last night and the commission left for the east today. The agents with their Indians left Brule for their respective agencies this morning. The commissioners having no authority to treat with the Indians, they were compelled to refuse any concessions to their demands for changes in the bill. Delegations from each of the Six Nations, composed of agents and their leading men, will now visit Washington and the Indians will be given an opportunity to present their case to the government authorities, with the hope that some arrangement may be made that will satisfy them. The commissioners now look for a satisfactory conclusion of their labor with greater hope than at any time heretofore.

THE WORST OVER.

The Yellow Fever Apparently Abating.

JACKSONVILLE, Fla., Sept. 28.—Up to noon, there have been nineteen new cases and one death.

MEMPHIS, Tenn., Sept. 28.—Travel on all the railroads entering here was resumed this morning. Many small towns followed Memphis' example in raising the quarantine.

EDISON'S THEORY.

DETROIT, Mich., Sept. 28.—A leading physician, speaking of Edison's alleged discovery about an exterminator for yellow fever germs, said:

"Edison's discovery is based on the theory that the fever is caused by a microbe or germ. This has been accepted by some investigators, but never received by the profession as even a tenable theory. Assuming, however, that Edison has some occult means of proving it to depend on a microbe, his methods are inadequate to its destruction. His germicides, rhigolene and caustic soda are indubitely inferior to many germicides in use. The problem of killing the germs, when shown to exist, is simple to the merest tyro in pathology; but to apply gasoline to the total destruction of innumerable myriads of infinitesimal hypothetical microbes is absurd. When we consider that a glass of water or a banana may contain many times the number of germs that there are inhabitants of Jacksonville, and that (if the germs exist) they are generally distributed upon what is eaten, drank and worn, its mode of application is puzzling."

FERNANDINA, Fla., Sept. 28.—The citizens of Fernandina, through the executive committee of the Howard association, call attention to their need for substantial and immediate aid, and appeal to the public.

NEW YORK, Sept. 28.—The total contributions received by the mayor today for the yellow fever sufferers were $1560.

At a meeting of the Florida relief committee in the Grand Central Hotel it was announced that supplies would be sent to Jacksonville at once by steamer via Savannah. It was decided to telegraph to Jacksonville to send relief to Fernandina.

JACKSON, Miss., Sept. 28.—With the high tension of feeling removed, this community has assumed a tranquil state. Each day increases the number of demands for food. Much destitution is reported. Rations will be forforwarded by orders from Washington. The sick are all reported as doing well. There are no new cases and no deaths have occurred during the past 24 hours.

JACKSONVILLE, Fla., Sept. 28.—The reduction in the number of new cases and deaths today seems to justify the hope that the worst of the epidemic is over. Eighty-five cases were reported today, of which 26 were white and 59 colored. Deaths, five. Dr. L. T. Eddy of Louisville, who was one of the first of the heroic physicians who responded to the call for medical aid, sank down at his post today.

It is believed now that there is no yellow fever in Florida except at Jacksonville, Fernandina, McCleny, Sanderson, Gainesville, Tampa and Manatee, except, perhaps, sporadic cases near the places named. The splendid orange crop is ripening, and there can be no danger in sending it to market in fumigated cars.

A Woman Robbed.

CLEVELAND, Ohio, Sept. 28.—At North Baltimore, Ohio, last evening, Mrs. H. C. Moyer went to the stable to feed her horse, when she was accosted by a man who demanded her money. A struggle ensued, and the woman finally escaped with nearly all of her clothes torn from her person. Going to her house she encountered another man who was ransacking the house. Picking up a gun, she fired at the fellow but missed him. She was then knocked down and beaten so badly that she will probably die. The thieves secured $200 and escaped. Officers are now in pursuit.

Italian Strikers in Canada.

SHERBROOK, Quebec, Sept. 28.—The striking Italians on the Hereford railroad, who have for several days created trouble, today so far interfered with tracklaying that Colonel Cope in charge of the military, ordered bayonets fixed. He gave the rioters a brief time to reconsider before charging upon them. The men resumed work. Advices received this morning from the American end of the road say that aliens armed with guns drove off the subcontractors and chased them into Canada, Vermont. Owing to a variety of circumstances the military have not yet reached the border. The quickest route is via the United States, but this of course is impossible to men wearing the uniform of Her Majesty.

Renews Her Youth.

Mrs. Phœbe Chesley, Peterson, Clay Co., Iowa, tells the following remarkable story, the truth of which is vouched for by the residents of the town: "I am 73 years old, have been troubled with kidney complaint and lameness for many years; could not dress myself without help. Now I am free from all pain and soreness, and am able to do all my own housework. I owe my thanks to Electric Bitters for having renewed my youth, and removed completely all disease and pain." Try a bottle, 50c. and $1, at A. C. Smith & Co.'s Drug Store. (4)

Worth Knowing.

Mr. W. H. Morgan, merchant, Lake City, Fla., was taken with a severe Cold, attended with a distressing Cough and running into Consumption in its first stages. He tried many so-called popular cough remedies and steadily grew worse. Was reduced in flesh, had difficulty in breathing and was unable to sleep. Finally tried Dr. King's New Discovery for Consumption and found immediate relief, and after using about a half dozen bottles found himself well and has had no return of the disease. No other remedy can show so grand a record of cures, as Dr. King's New Discovery for Consumption. Guaranteed to do just what is claimed for it.—Trial bottle free at A. C. Smith & Co's Drug Store. (4)

DOCTORS' BILLS.

Nearly all diseases originate from inaction of the liver, and this is especially the case with chills and fever, intermittent fevers and malarial diseases. To save doctors' bills and ward off disease take Simmons Liver Regulator, a medicine that increases in popularity every year, and has become the most popular and best endorsed medicine in the market for the cure of liver or bowel diseases.—*Telegraph*, Dubuque, Iowa.

Largest in the World.

In the department of baking powders and flavoring extracts the Price Baking Powder Co. of New York, Chicago and St. Louis is the largest in the world. Hundreds of tons of the crystals of cream of tartar, direct from the grape vineyards of France, are annually used in Dr. Price's Cream Baking Powder, and the entire product of a large Mexican grower of vanilla beans is consumed every year in Dr. Price's Extract of Vanilla. This immense business is accounted for by the purity and excellence of their productions. 1
