

BREVITIES.

Joint education—Gymnastics.
Grain elevators—Rye cocktails.
Lame conclusion—A sore foot.
Fruit for balloonists—Currents in the air.

Hush money—The price of a family cradle.

Life in Indiana is said to be much "divorce-ified."

A volume that will bring tears to your eyes—a volume of smoke.

A Young Lady's Diary—A book in which she records daily everything that she doesn't think or do.

The man that was saved from the wreck of the *Carubria* has become insane.

A party in Louisville advertises "trunks you can throw out of a fourth story window without injury."

Miss Kate Wilson of Indiana took offence at a married man for writing her a love letter, and cowhided him.

Some sinner has stolen the thermometer from the Fond du Lac Reporter office. That paper informs the thief that it will be of no use to him where he is going, as it does not work higher than 313.

A physician, who is something of a wag, called on a colored Baptist minister, and propounded a few puzzling questions. "Why is it," said he, "that you are not able to do the same miracles that the apostles did? They were protected against poisons and all kinds of perils; how is it that you are not protected in the same way?" The colored brother responded promptly: "Don't know about that, doctor. I spect I is. I have taken a mighty sight of strong medicines from you doctor, and I is alive yet."

The political prisoners in the Conciergerie of Paris have addressed to the Provisional Government a letter, in which they ask to be placed in the front ranks of the defenders of the county. "If we do not fall in battle," they say, "we shall return to our dungeons with a feeling of pride at having accomplished a sacred duty. On these conditions we ask urgently to be placed at liberty temporarily."

Mr. Bauer of Paris, has taken a patent for the manufacture of steel printing types. According to the specification, the inventor employs a machine similar to those for making pins or nails; a roll of wire being placed on a reel, the machine nips off a piece of a given length and forces one end of it into the steel die. Fine soft iron wire drawn to the shape of the body of the type is used for the purpose. After leaving the machine, the types require trimming by hand. When this has been effected, they are placed in metal boxes with the materials used for cementation, and are heated to a proper temperature in a furnace. The inventor says that, with a single machine and steam to the extent of one nominal horse-power, he can produce thirty-five thousand types in twelve hours; and that while the faces are far more perfect and durable, the types themselves are cheaper than those in general use.

A FEW WORDS TO THE PUBLIC

CERTAIN Agents of Organ Makers visiting this city have been representing that their instruments are fully as good as the **Mason & Hamlin Organ Co's** make. Being **Mason & Hamlin Organ Co's** General Agents for Utah, we beg to say that we are prepared to prove, beyond all possibility of a doubt, that their instruments are superior in every respect to those of any other make.

The Company's sales are over two hundred per week, being nearly double that of any other Organ Factory in the World. Wherever they have been exhibited, they have uniformly won the highest awards at Industrial Fairs including the **Medal at the Paris Exposition**.

On application, we will furnish the testimony of nearly one thousand musicians, including the most prominent Organists, Pianists, Composers, Musical Conductors, Directors of Opera etc., in America and Europe, who declare that they are superior to all others.

We have the testimony of Joseph H. Ridges, Esq., builder of the Salt Lake Great Organ; Professors George Careless, John Tullidge and O Pratt, Jr.; C. J. Sundback and Ben. Judson, Makers and Repairers of Organs and other reed instruments, and many other musicians in the Territory, to the superiority of these Organs, to whom we beg to refer all persons who intend purchasing.

We have sold over one hundred Organs, and many of our customers, from all parts of the Territory, have written us enthusiastically in their praise. We have been offered the Agency of many of the principal makers, including all the Organs introduced in this city up to date, and have had five leading organs placed side by side of those of the **Mason & Hamlin Organ Co.**, and the unanimous verdict of our home musicians was that they were much inferior to those of our company. We did not accept the Agency of any of them, although offered much more liberal terms, being well assured that we had the best, and could recommend them as such.

So soon as we discover a better Organ, we shall try and secure it, as we are only dependent on the Company we represent so long as their instruments are the leading ones in the Market.

To accommodate those persons whose circumstances prevent their paying the full amount at once, we offer our Organs on a small cash advance, and the balance in **Eight Monthly Instalments**, ranging from \$9.00 to \$14.00 per month, according to style. The Organs are delivered on payment of the cash advance.

Send to us for Illustrated Catalogues, giving a description of each instrument and prices.

THE CELEBRATED

COOKING STOVES!

SUPERIOR!

For Wood.

They are really what their name indicates, SUPERIOR to any other Stove in the market, and for

Economy, Durability, Convenience & Dispatch

Are Unequalled!

Kansas, Alaska

and

Improved American,

For Coal.

Which for Neatness of Design, Thoroughness of Combustion, Capacity of Oven, Economy in the Use of Fuel and Uniformity of operation, place them as the best Stoves in the market.

They have been constructed specially for the use of our Western Bituminous Coal (for which all stoves of Eastern manufacture are so ill adapted). Enlarged Flues insure a perfect draft; the plates that line the fire chamber are unusually heavy, and combine certain peculiarities in their construction which give these Stoves superiority over all others in the consumption of their smoke, thus saving a large per centage of fuel.

BRIDGE, BEACH & Co.,
ST. LOUIS

Made the first Stoves ever made West of the Mississippi River.

ELGIN

(ILLINOIS)

Watches!

UNION PACIFIC R.R., OFFICE OF GEN'L Supt.,
OMAHA, Dec. 16, 1889.

HON. T. M. AVERY,
Pres't National Watch Co., Chicago, Ill.:
Dear Sir.—During the month that I have carried one of your "B. W. Raymond" Watches, it has not failed to keep the time with so much accuracy as to leave nothing to desire in this regard. For accuracy in time-keeping, beauty of movement and finish, your watches challenge my admiration, and arouse my pride as an American, and I am confident that in all respects they will compete successfully in the markets of the world, with similar manufacturers of other nations. They need only to be known to be appreciated.

Yours most respectfully,

C. G. HAMMOND,
Gen'l Supt.

Call on your Jeweler and ask to see the Elgin Watches.
