NEWS FROM TRANSVAAL.

The Times publishes the following from its correspondent at Lorenzo Marquez: "Webster Davis, assistant secretary of the interior of the United States, has emphatically repudiated an alleged interview with him published by the Standard and Diggers' News, attributing to him the statement that, in his opinion, the Boers would never be

uered. "It is asserted that since the beginning of the war 6,000 new burghers have been enrolled in the Transvaal. A refugee asserts that on February 6th 1,200 men, including the Irish brigade, were sent from Ladysmith to assist in a contemplated night assault on Kimberley and that the Irish brigade was expected to lead the onslaught.

The Daily Chronicle publishes the fol-lowing dispatch from Mafeking, dated January 29th: "The Boers shelled the woman's lager for two hours on Saturday, January 27th. Boer women, warned by spies, evidently went into the trenches, clapped their hands and hurrahed when the shells fell near the English women. Lady Sarah Wilson was slightly wounded. Maj. Gould-Adams and Capt. Wilson received con-tusions from shell fragments."

A dispatch from Ladysmith dated Thursday, February 8th, says: "H. C. Foss, a resident of Ladysmith, has been court martialed and sentenced to a year's imprisonment at hard labor for circulating false reports calculated to discourage the troops, and for advising soldiers to desert. Mr. Foss, who is a native of Natal, resided for some time in the Free State. He has been twice warned for asserting that the garrison was on the eve of starvation and capture.

LIBERALS CONDEMN WAR.

London, Feb. 14-Supporters of the liberal party to the number of 300 or 400 held a private meeting at the Westminster Palace hotel this afternoon, to protest against the government's war policy. Sir Wilfrid Lawson, M. P.; David Lloyd-George, M. P., and C. Schreiner, the husband of Mrs. Olive were among those present. Schreiner, The resolutions adopted denounced

the war as "a crime and a blunder," committed at the instigation of irre-sponsible capitalists; demanded the publication of the full correspondence cerarding the Jameson raid; protested against the increasing armaments; reaffirmed the liberals' gratitude to Sir Henry Campbell-Bannerman, John Morley and John Bryce, and decided to open a permanent fund to carry on a vigorous political progaganda for the principles thus enunciated.

Sailors to be Protected from the Evil in American Harbors.

Law to Prevent Boarding - house Reepers Getting Away with Seamen's Wages.

New York, Feb. 15 .- A special to the

Tribune from Washington says: Congress proposes to vest in the secretary of the treasury authority to stamp out the "land shark" evil in American harbors, and to protect sailors from being the prey of those who board incoming vessels in violation of law. The bill for + this purpose, which has been favorably reported to the House from the committee on merchant marine and fisheries, is warmly supported by the International Allied Seamen's Ald societies and other organizations, and the chances are excellent for speedy legislation.

As explained by Supt. Houghton, of the Maritime Association, of the port of New York, the immediate object of the proposed law is to prevent the de-coying of seamen from ships on arrival. The vessels are boarded by sallors' boarding house runners in quarantine as soon as pratique is given. The sea-men are plied with liquor, incapacitat-ing them for service, even in docking the ship. That, however, is only the begin-ning of the trouble with the runners, shipping masters and others. The sea-men are enticed to sailors' boarding houses, where they become practically ter bill now pending before Congress. This bill provides for the delimitation and leasing of the grazing lands on the public domain to stockme for terms of ten years, with the right of their use.

Boston, Feb. 15 .- The following com-Pottigrew of South Dakota, signed by Thomas Wentworth Higginson, William Lloyd Garrison, Gainaliel Bradford, Morefield Story, Erving Winslow, Winslow Warren and fourteen other antiimperialists:

The undersigned, citizens of Massachusetts, cordially inviting the co-oper ation of lovers of liber;y and their coun try in other States, desire to express to you their thanks and congratulations for your courage in the cause of free speech in the United States Senate.

"For months the government press has groaned under the production of documents aiming to convince our people that their opponents in this war are savages, with no rights which we are bound to respect: that they are unfitted for self government and entitled only to such as we may see fit to bestow on them: and that they must bow in abject submission before there can even be any negotiations for peace.

Against this you have asked for the printing, as a congressional document, of a translated paper issued by the pa-per of these opponents, setting forth in temperate and courteous language the history and basis of the war. This paper, if it proves nothing else, shows that he is no savage, but an accomplished master of composition and statement, and that, if his people belleve it to be true, they are as much justified in accepting him as their guide and leader in resistance to us as were our ancestors in following Washington

in our struggle for independence. "For doing so you have been sligmatized by more than one senator on the floor as a senator on the floor as a traitor; while the presiding officer, who was also a member of the President's Paris commission, Janked without a word of reproach or enforce-

ment of parliamentary rules. "The government has had one suffi-cient warning of the danger of interfering with the privacy and freedom of the mail. We congratulate you, sir, that it has fallen to your lot to protest before the country against the violation of a right which for more than a century has been one of the most precious to the English-speaking race, and we trust the English speaking race, and we trust that on all proper occasions and by all proper methods you will insist on the maintenance of this right to the end that, when the people of the United States are shortly called upon by the action of our cherished institutions to exercise their sovereignty, they may have before them full materials for the formation of their judgment."
