

Is the maximum according to the law under the information on which the suit was brought. The defendant lawyers in the case are taking immediate steps for appeal which, before final judgment, may pass through three courts, namely, court of common pleas, the circuit court and the supreme court of Ohio. They feel confident of securing a reversal on manifold errors in the trial just concluded.

THE MINING CONGRESS

Votes to Hold Its Next Meeting in Joplin, Mo.

Denver, Oct. 19.—W. F. R. Mills of Denver was elected a director of the American Mining congress, to succeed J. Frank Watson of Portland, Ore., whose term expired.

Thomas F. Walsh declined, for business reasons, to become a member of the board at present, but announced that probably next year he would be in a position to accept such an appointment. The new board complete is as follows:

J. H. Richards, Boise, Ida.; Thomas Ewing, San Francisco, Cal.; E. R. Buckley, Rolla, Mo.; E. A. Colburn, Denver, Colo.; George W. E. Dorey, Fremont, Neb.; C. M. Shannon, Clifton, Ariz.; John Dorn, Salt Lake City, Utah; James W. Malcomson, El Paso, Tex.; F. R. Mills, Denver.

The congress voted to hold its meeting next year at Joplin, Mo., the vote being as follows:

Joplin, 63; Douglas, Ariz., 22; Goldfield, Nev., 2.

A LODGE OF SORROW.

New Orleans, Oct. 19.—A lodge of sorrow was held today by the Knights of Pythias convention in respect to distinguished Pythians who have died during the last two years. More Pythians of high rank are said to have died during this period than during any previous two years in the history of the organization.

AN OUTRAGE OF THE UTE INDIANS

Chicago, Oct. 19.—A dispatch to the Chronicle from Omaha, Neb., says:

An outbreak of the Ute Indians, who have been causing much trouble and worry in Wyoming all this summer, occurred near Gillette, Wyo., Wednesday night. In a battle between cowboys and Indians two of the former were killed and a number of the Indians are supposed to have been injured.

The battle occurred when the Indians attempted to raid a cattle camp and run off a lot of stock. The cowboys were in charge of the camp and resisted. The fight then took place. The Indians secured the cattle and killing a number of steers took the meat home to their camps.

This news reached Omaha last night in private dispatches and there is much excitement in army circles, as soldiers are expected to be started to Gillette very shortly.

NEW YORK CENTRAL HEAVILY FINED

New York, Oct. 19.—Judge Holt, in the United States circuit court, imposed a fine of \$108,000 on the New York Central & Hudson River railroad for granting rebates to Lowell M. Palmer, who has charge of transportation for the American Sugar Refining company. There were six counts and a fine of \$17,000 was imposed in each.

Frederick L. Pomeroy, assistant traffic manager of the New York Central, was fined \$1,000 on each count, a total of \$6,000.

Judge Holt criticized the practices of the railroad.

HUNDRED PERSONS KILLED IN CYCLONE

Was the Worst That Has Ever Visited the City of Havana.

AMERICAN FLEET MENACED.

Cruiser Brooklyn Was Torn From Her Moorings and Thrown Upon The Shore.

New York, Oct. 19.—The Evening Telegram prints a dispatch from Havana, reporting more than 100 persons are dead from the cyclone there. The cruiser Brooklyn was torn from her moorings and thrown upon the shore.

The Evening Telegram's Havana dispatch is as follows:

Over 100 are dead today from the worst cyclone which has ever visited this city. The whole American fleet was menaced, and the cruiser Brooklyn torn from her mooring and thrown upon the shore.

Ninety-four of the fatalities are confined to natives, while foreign residents are reported killed.

More than 100 tents in Camp Columbia have been blown to atoms, houses unroofed and one trooper probably fatally hurt.

Fortunately the storm gave everybody about half an hour's warning and when the blast arrived the marines on shore had sought shelter in the warehouses. All but the Brooklyn rode out the storm. These ships included the Minneapolis, Texas, Denver and Prairie.

When the tempest reached its height, buildings were shaken as with an earthquake, street cars were washed from their tracks, windows were blown in like paper and roofs and doors swept away.

Several of the smaller framehouses were blown from their foundations and were wrecked. These were situated in the poorer district and were the cause of so many deaths among natives.

It is feared that great loss of life occurred in the interior, especially in Pinar del Rio and on an island at Artemesia.

The wind is estimated to have blown at the rate of 80 miles an hour.

The greatest money loss will come from the damage done to shipping. Great waves engulfed about 25 lighters in the harbor, and they were smashed against the wharves.

It is estimated that the loss of life and damage would have been greater had it not been for the timely warning given by Father Lowe, at Gunoth. He is a noted weather observer of Berlin college.

All printing specially attended to at the Deseret News Office. Estimates promptly furnished. Rush orders a specialty.

that night and told him the story again.

ASKED FOR CHIEF SHEETS.

Fren Austee of the Sun Drug company was the last witness summoned this morning.

"Do you remember the circumstance of two men coming into your drug store on the afternoon of Sept. 19?" was the first question.

"Yes, I do. One of the gentlemen was McWhorter and the other was a little, short gentleman, whom I had never seen before. The short man rushed back through the store and asked for the use of a telephone. I told him where it was behind the counter, and he called up number 75."

"I heard him ask for Chief Sheets, and for Detective Raleigh."

While he was telephoning, McWhorter asked me if he was an officer, and told me he had been robbed of \$8,000. I smiled as I didn't know what to make of it—his saying the other man had \$8,000 of his money, and I kind of laughed at the idea."

"Do you know whose number 75 is?"

"Yes, I think it is the number of Chief Sheets."

"What time did this occur?"

"Between 4 and 5 o'clock, I am not sure."

"Did you hear the conversation?"

"No, I think there was not any. I don't think the man got the people he wanted."

The court here adjourned until 2 o'clock, when the case will be resumed for this afternoon, the general impression being that the prosecution is nearly through.

GERMAN GEOLOGIST HERE.

Prof. Rothpletz Completes Study of The Oolites in Great Lake.

Prof. Rothpletz, geologist of the University of Munich, has just completed a study of the oolites (so-called sand) in the bottom of Great Salt Lake. Prof. Rothpletz came here 15 years ago to study local geological formations and afterward published a paper stating that he believed these so-called grains of sand to be the result of vegetable life, the algae. Several geologists took issue with his statements. The eminent German geologist has been certifying his belief and finding grounds to justify his statements. One of these former theories was that these particles were the result of wave action upon larger lime stone, but to disprove this theory Prof. Rothpletz has secured specimens 20 feet below surface out of reach of wave action. And by dissolving the lime he found the oolite plant. It is a noted weather observer of Berlin college.

He attended the conference of geologists at Mexico City and there went to California, where he explored 125 miles of the earthquake fissure.

AMUSEMENTS.

Orpheum—Tomorrow evening the All Hallows college and Ogden high school football teams, together with 150 students, will be at the Orpheum in body. Two hundred seats have been reserved for the joyous crowd, and the school colors will be flaunted in the theater.

Grand—Beach & Bowers' minstrels, presented by J. H. Smith, pleased a large audience at the Grand last evening, on the first appearance in an engagement that runs for the remainder of the week. The company includes 32 persons, vocalists, instrumentalists, dancers and specialists, with a talented list of comedians. Led by George L. Wade, who for several years was with West's minstrels. Mr. Wade was strongly endorsed, and his colleagues came in for a good share of praise. Alberto, the flexible marvel, is a wonder, and impresses one with the idea that he hasn't a bone in his body. The Beach & Bowers minstrels have been on the road many years, and there is nothing new and up-to-date that is not adopted by the management. The jokes heard last night were not of the stale and hackneyed kind, and the evening's entertainment as a whole was enjoyed by the audience that filled the house, upstairs and down.

Lyric—The closing performances of "The Man Who Sings a Country" are now going on. Next week the famous success, "Thelma," will be the bill.
