

MAINE SALUTES CUBAN PENNANT

New Battleship Anchors in Havana Harbor Near Where Her Namesake Was Blown Up.

HER FIRST VISIT TO WATERS

Is There to Participate in Inauguration of Gen. Gomez as President of the Republic.

Havana, Jan. 25.—On this, the eleventh anniversary of the arrival of the old battleship Maine on her ill-fated mission to Cuban waters, the new Maine, with the still more modern Mississippi following in her wake, sailed into Havana harbor to be present at the inauguration of Gen. Jose Miguel Gomez and the new Cuban government on Thursday next.

This is the first Havana visit of the namesake of the wrecked ship and her coming excited great interest among all classes of the residents who lined the harbor walls from La Punta battery, opposite Moro, to Machina wharf, off which the two American battleships are expected to anchor on Monday night within a few hundred yards of the tangled mass of steel and the old fighting top, the visible remains of the ship destroyed Feb. 15, 1898.

The new Maine arrived at 11 a. m., precisely the hour at which the old Maine steamed into the harbor on Jan. 15, 1898. The old Maine, saluted the Spanish flag over Moro castle. Today the new Maine, which is the flagship of the third squadron of the Atlantic fleet, commanded by Rear Admiral Arnold, saluted the Cuban pennant flying from the historic old fortress. The salute was returned by the Catalina battery on a high hill overlooking the harbor.

This attention was exchanged by Rear Admiral Arnold, Gov. Maguon and the American minister, Mr. Morgan. The Maine and Mississippi joined company at Key West yesterday, the former coming up from Venezuelan waters and the latter down the coast from the Philadelphia navy yard.

Tonight Havana's downtown streets were filled with hundreds of citizens. Lieut. Cluverius of the Mississippi is a survivor of the old Maine on which he was serving as a midshipman at the time of her destruction. Lieut. Commander Sumner E. W. Kittelle, navigator of the Mississippi, is a son-in-law of Rear Admiral Sigsbee, retired, who was the commander of the old Maine.

The Maine and Mississippi will remain at Havana until Jan. 28, when they will accompany the scout cruiser Salem, on which Gov. Maguon will leave the island after President Gomez is sworn into office. The Salem will arrive here tomorrow.

S.S.S. HEALS S.S.S. OLD SORES

Before any sore can heal, the cause which produces it must be removed. As long as the blood, from which our systems receive their necessary nourishment and strength, remains impure and contaminated with disease germs, any old sore on the body will remain open, and resist every effort made to heal it. The nerves and tissues of the flesh around the places are continually fed with unhealthy matter and nature is simply disposing of the poison by draining it from the system through the sore. The only cure for an old sore is a thorough cleansing of the blood, entirely ridding the system of the cause. S. S. S. heals old sores by removing every particle of impurity from the circulation. It goes down to the very bottom of the trouble and so completely cleanses the circulation that there is no longer any impurity to drain through the sore, but the place is once more nourished with rich, healthful blood. S. S. S. heals the sore from the bottom, the place soon fills in with healthy, firm flesh, the tenderness leaves, all discharge ceases, the skin regains its natural color and when S. S. S. has thoroughly cleansed and purified the blood the place is permanently healed. Book on Sores and Ulcers and any medical advice free to all who write.

(FROM NEW YORK WORLD, JUNE 10, 1883)

WAS DOWN AND OUT AFTER FOUR YEARS' STRUGGLE

E. A. Castle Gave Up Business Because Dyspepsia Was Too Much For Him.

E. A. Castle's preparation, which is at present enjoying a tremendous sale in New York, was strongly endorsed by E. A. Castle, of 200 West 42nd street, Tuesday.

Castle, who claims that most of his health is caused by stomach trouble, is meeting the public and explaining his medicine at present in New York. Mr. Castle called at the Cooper headquarters about 3 o'clock and said:

"This New Discovery is all and more than Cooper claims. I say this after a tremendous experience with this preparation. I had heard of Cooper's success in Boston, and therefore when I began to hear of him in New York I came to see him some time ago. I had little faith in any medicine, but after four years of constant suffering, during which time I consulted the very best specialists, was operated upon twice and received no benefit whatever, I made up my mind to try this treatment."

"I started taking Cooper's New Discovery seven weeks ago. At that time I was in such poor health that

Partial Paralysis

May Be Entirely of a Functional Character.

It Is Not Necessary to Accept it as Hopeless Since There Are Many Well Authenticated Cures.

There is absolutely no way of reaching the nerves with medicine except through the blood. The nerves receive all of their nourishment and support from the blood which, under healthful conditions, carries the elements needed to rebuild wasted nerve tissue.

Let the blood become deranged and deficient in these elements and the nerves will be badly nourished and headachings, neuralgias, sciatic, functional paralysis and a host of other nervous troubles may result.

In seven nervous disorders Dr. Williams' Pink Pills have accomplished many seemingly impossible cures. Such an instance was the cure of Mrs. Elizabeth Stratton of no. 1128 Devey Ave., Detroit, Wis. Mrs. Stratton has lived at her present address for the past six years and there is no room for doubt regarding her statement she says, "I had been ailing for some time, through nervousness and worry, when my right side suddenly became partially paralyzed. I could not move for some weeks without taking hold of a chair. My right leg and arm were affected so that I could not use them. My nerves were in a terrible state. I shook all over and was excited by the least little thing. For weeks I could not sleep. My appetite was poor and I was a nervous wreck."

"I doctored with local physicians at Quincy, Ill., who said I had partial paralysis caused by a nervous shock. I did get a little relief from them but it was only temporary. Through a friend I was induced to try Dr. Williams' Pink Pills. This was after I had been sick for over a year. I was then up and around but could not walk. The pills soon helped me and finally entirely cured me. My daughter also used the pills for a run-down condition of the blood and they helped her also."

"While so promptly effective, Dr. Williams' Pink Pills contain no harmful stimulants or opiates. They are perfectly safe and create no drug habit. Our booklet, 'Nervous Disorders,' will be mailed free on request to any address. Send for a copy today. Dr. Williams' Pink Pills are sold by all druggists, or sent by mail, postpaid, on receipt of price, 50 cents per box, six boxes for \$2.50, by Dr. Williams' Medicine Company, Schenectady, N. Y."

success in business life or banking, and particularly for a life in Wall street," says that while he formerly deprecated such training and still thinks a bright graduate from a high school can be placed on a par with the college man at the beginning, he believes a higher education gives its necessary great advantages in after life. Mr. Crows' active career was soon forgotten after graduation from college while the educated student gathers laurels as long as he lives.

ANTI OPIUM BILL.

Washington, Jan. 25.—The importance of the passage on Feb. 1, of the anti-opium bill, now before the house, is the keynote of a dispatch received at the state department today from R. P. Brent of the American delegation to the international opium commission at Shanghai. This commission meets on that date, and the American delegates are anxious that they may be able to present to the international body substantial evidence of the attitude of this government regarding the importation and use of opium.

CHICAGO SWITCH TRACK ORDINANCES

Chicago, Jan. 25.—The city council last night, by a vote of 42 to 1 passed an ordinance establishing a standing committee on local industries to consider all switch track ordinances.

This action was the result of the report of a special industrial commission appointed by Mayor Buess last

year. It does away with three regular council committees and extends the terms of switch track ordinances from 10 to 20 years, making them revocable at the will of the council and the mayor. The Chicago Association of Commerce and other business interests have been fighting hard for this action. It is considered by this business men a subject of vital importance to the growth of the city's industries.

Delay in the consideration of switch track ordinances through a personal reason was established by this city-wide committee, according to its promoters.

STAGE UNCOVERED AND BULLION RECOVERED

Telluride, Colo., Jan. 25.—The stage which was carried down the Smoky canyon slide near Ouray has been uncovered and the \$6,000 in bullion which it carried recovered. It is feared that F. Stanger has perished of starvation in his cabin on the towering hill. He has been cut off by an enormous slide since the night of the storm, and his provisions were known to be low.

Supplies of food and coal at Silverton are said to be running low, and unless railroad communication can be established shortly there is danger of a famine.

FINALLY SURRENDERED.

Members of St. Louis Belmont Pleasure Club to Police.

St. Louis, Jan. 25.—Thirteen members of the Belmont Pleasure club, an alleged "lid" organization, surrendered today, after defying the police for 16 hours. The officers had gone to the place yesterday to raid it for violating the Sunday-closing law, but found the doors and windows barred, and as the men inside had been charged only with misdemeanors, the police were not authorized to break down the barriers. There was nothing to prevent them establishing a siege, however, and this was done. In an effort to drive the men out, the police blew cayenne pepper through the keyholes and stopped up the chimneys. This failed, and only the desire for breakfast caused the besieged to surrender.

BLEW OUT HIS BRAINS.

Postmaster Kennedy of Searchlight When Accounts Found to Be Short.

Renó, Nev., Jan. 25.—Following the arrival of a United States postal inspector last Saturday, Postmaster J. W. Kennedy of Searchlight, Nev., was found at the top of his head with a revolver. A shortage of \$400 was discovered in his accounts.

Kennedy disappeared soon after the inspector had started in on his work, and was not seen again until the next morning, when a searching party that had been out all night discovered his dead body.

TOWN LOTS FRAUDS.

Those in Oklahoma Will Surpass Everything.

Muskogee, Okla., Jan. 25.—Governor's officials now in Muskogee seem to feel that no fraud in town lots ever investigated will equal the stupendous proportions of that now being made in the government case here. Witnesses from a dozen states have been summoned to testify before the federal grand jury that meets tomorrow. The government officials say there is nothing in the records to show who these persons are, but it is announced that a large corps of secret service men have worked for months to locate them. These secret service men have, it is stated, secured from the witnesses affidavits to the effect that they were used as "dummy" names in scheduling the lots, and that they knew nothing of the use of their names until asked within the past three years to sign affidavits in connection with the lots. About half of this number are reported to have signed the deeds, while the other half, suspecting something irregular, declined to sign the affidavits.

The discovery was made today that one of the men summoned to serve upon the grand jury is the son-in-law of one of the men accused and brother-in-law of another. These men are projected as jurors, and other prospective jurors will be examined particularly with a view of eliminating any relative of the men accused of fraud. Today government officials learned that two of the men accused of fraud have died recently, and that a third is dying of tuberculosis.

Gov. Charles N. Haskell and Adj. Gen. F. M. Canton arrived here today. The governor declines to talk for publication.

BANKER T. B. RICKEY.

Nevada Supreme Court Remands Him To Sheriff's Custody.

Carson, Nev., Jan. 25.—The supreme court of Nevada rendered today a decision in the case of T. B. Rickey, president of the defunct State bank. The court unanimously has indicted Rickey on a charge of embezzlement, and has ordered his arrest. Rickey is now in the custody of the sheriff of Esmeralda and Ormsby counties. The case was appealed from Esmeralda county. Rickey is now in California, where he has taken up his home.

It is expected that he will be brought to this city immediately, in case he does not surrender in person. The defense was given until Thursday to answer orally or in writing.

AGRICULTURAL DEPARTMENT.

Washington, Jan. 25.—In the agricultural department appropriation bill reported to the house today, there is an increase of \$1,000,000 over the amount given the department for its work during the present year, although the amount reported, \$12,800,000, is less by \$1,700,000 than was expected by the secretary of agriculture.

The largest increase in the appropriation is that of about \$200,000 for the bureau of plant industry, the increase being chiefly due to the need for demonstration work on reclamation projects and to extend the cotton leaf weevil experiment work in the southern states.

Part of this sum will be expended

CORN, OATS, Rolled Barley.

Inter Mountain
Milling Co.

In experiments of a commercial sort in keeping barley from rust stalks. Another large increase is that of \$75,000 for seed distribution, making the total amount for this purpose \$27,250.

For the bureau of animal industry the amount appropriated is \$1,402,500. For the forestry bureau, the amount recommended by the committee is \$1,446,200.

A RELIGIOUS AUTHOR'S STATEMENT.

For several years I was afflicted with kidney trouble and last winter I was suddenly stricken with a severe pain in my kidneys and was confined to bed eight days unable to get up without assistance. My urine contained a thick white sediment and I passed some frequently and at night I commenced taking Foley's Kidney Remedy, and the pain gradually abated and finally ceased and my urine became normal. I cheerfully recommend Foley's Kidney Remedy. F. J. Hill Drug Co., ("The Never Substitutors.")

WOULD-BE MURDERER DROPS DOWN DEAD

Pueblo, Colo., Jan. 25.—Staggering into the home of the girl he loved, with upraised gun, about to shoot her, just as Herring fell dead at the feet of his former fiancée, Miss Mary Robertson, this morning, from the effects of a dose of poison.

Herring and Miss Robertson had been engaged for almost a year, but the match was recently broken off. This morning Herring went to the girl's home. It is thought he took the fatal dose upon her threshold and immediately afterwards slipped her bedroom. He raised a revolver, but was too weak to pull the trigger, and almost immediately fell dead.

Herring was a steel worker, about 26 years old. Miss Robertson is about 20 years old and is a stenographer.

Many little lives have been saved by Foley's Honey and Tar, for coughs, colds, croup and whooping cough. It is the only safe remedy for infants and children as it contains no opiates or other narcotic drugs, and children like Foley's Honey and Tar. Careful mothers keep a bottle in the house. Use these substitutes. F. J. Hill Drug Co., ("The Never Substitutors.")

LONDON AUDIENCE

EGGS CARRIE NATION

London, Jan. 25.—Mrs. Carrie Nation, who is attempting to deliver a series of lectures here, met with a hostile reception at the Canterbury music hall tonight. She was pelted with eggs, one of them striking her in the face. The audience maintained a chorus of hisses. Mrs. Nation was obliged to quit the house under police protection.

at the capitol another communication. In part it is as follows:

"In the press dispatches of the 20th inst., there are several assertions purporting to emanate from the president which, if permitted to pass unchallenged, may lay the people of California open to the indictment of being unfair and unreasonable."

"California is accused by imputing of breaking faith. With whom? With the president or Japan?"

"The assertion that the numbers of Japanese in the United States are decreasing is not warranted by facts presented by the report of the commissioner-general of immigration for 1908. 'It is worthy of note that the secretary of commerce and labor has failed up to the present date to explain the discrepancy in his annual report as to the addition of the Japanese population in the United States and the statements contained in his monthly report.'"

HASKELL VS. HEARST.

Guthrie, Okla., Jan. 25.—The state supreme court today decided that the papers in the Scott MacReynolds case shall remain in the hands of the county court. These papers make up evidence collected by MacReynolds for William R. Hearst in the libel suit filed by Gov. C. N. Haskell against the New York editor. They were seized last week upon warrant of Gov. Haskell, but were later placed in the hands of the sheriff. The governor then asked the court to enjoin the different papers. To this MacReynolds filed protest and the ruling today is in his favor.

Argument on the criminal case of MacReynolds, in which Gov. Haskell charges an attempt to defame his character, was begun this afternoon. The judge finally took it under advisement.

There is no case on record of a cough, cold or a gripe developing into pneumonia after Foley's Honey and Tar has been taken, as it cures the most obstinate deep-seated coughs and colds. Why take anything else? F. J. Hill Drug Co., ("The Never Substitutors.")
