

DON'T KNOW ROUTE OF GLIDDEN TOUR

MANY DEMANDS ARE MADE.

Various Sections of Country Want
Classic Event—Great Interest
Shown In Big Contest.

Buffalo, Feb. 15.—(Transferring) widely prevailing impression that the itinerary of the Gladden tour for 1909 is all mapped out and tucked away in the vest pocket of Chairman F. B. How-
 ard of the central board of the American Society for the Prevention of Cruelty to Animals, the contrary is the actual situation. The board of states positively that up to the present time and for some time to come, the route will remain in abeyance as far as the selection of the principal cities to be visited and the stopping places for the tour are concerned. All that has been determined to date is that the tour will be in the west. For the details which remain to be worked out, Chairman Howard is open to suggestions.

[illegible]

POSSIBLE ROUTE.

Kansas City is pulling hard to have the tour take in that city either going or coming. The representatives of that city urging Chairman Howser not to pass her by are the Automobile club of Kansas City, by W. W. Cowen, president, the Commercial club, by E. H. Glendinning, secretary, and the Thomas T. Crittenden, Jr., and the Manufacturers & Merchants' association.

One route tentatively suggested proposes Chicago to Denver by way of

The Louisville Automobile club and the Kentucky State Automobile association have been successful in their efforts to include that state in the route. Cities included are Louisville, Bardonia, Gettysburg, Annapolis, where the Lincoln memorial farm is situated, and Harrodsburg as places not to be missed. The route offers a lot of scenic and historical interest.

The correspondence urging Kentucky's claims to the state's hospitality and manifold functions. Detailed routes showing the miles between cities and the distances between St. Louis and Louisville would be sent in to show that this section would be well worth the trip.

Chicago, of course, has left no stone unturned to induce Chairman Hower to make that the first stop on the tour. The Chicago Motor club, the automobile club of the city and about the city, the various newspapers and other interests are generally have been urging the selection

largest tour as well as the longest in the world. The tour will start in St. Louis through the commercial and automobile organizations as well as the Chamber of Commerce, and will include a strong bid for a visit from the tourists.avenport, Rock Island and Moline are arguing that they will be included in the itinerary and have strong arguments in their favor. The Chamber of Commerce has suggestions and suggestions will be welcomed as well as being assured of proper consideration. It is expected that the route and there will be none until further information discloses the preference. It is expected that the Chamber of Commerce will take part. While Chairman Hower makes his preferences in the matter, he is not sure that he will be of those who make the tour as well as to the invitations and advantages of the tour. Those who are interested in receiving the tourists.

CUPID LANDS MC HALE.
Well Known Baseball Player Takes
Into Himself a Wife.

Jimmy McHale, the well known baseball man, who played in Salt Lake is married. He met his wife, Ruth, in the Mountains says:
"James McHale, who is a well known baseball player, was married yesterday afternoon in Stockton, Cal., to Miss Hauda Trabern, at the home of her parents. Mr. and Mrs. W. H. Trabern, Mr. and Mrs. M. McHale will leave Sacramento this evening for the home of the bride and groom, the honeymoon being at the service of Mr. McHale. They are expected to arrive in Salt Lake tomorrow."

This is the explanation of the lure of California that dragged the popular sportsman from the east out of the West and back to the golden west. It was not the climate, nor was it the attraction of the big league baseball league, that used its magnetic influence.

The famous right roller, Bud Hittie, who had been in the hospital, was brought him back to sunny California just as surely as Jimmie pulled down the back fence and he came up against the back field fence.

The fans want to give him a welcome and a warm handshake. He is a new style, and there will be something doing when the newly-comes arrive in town.

DIFFERENT RESULT HERE.

From Walla Walla comes the following dispatch:

The Los Angeles Athletic club basketball team tonight defeated the Y. M. C. A. 15 to 15, in a game which was doubtful until the last five minutes. The first half closed 7 to 3 for the visitors, but the second half the Y. M. C. A. got the lead. Then changes were made in the Los Angeles team and the visitors wore out and Los Angeles picked up the score. Edouard, Brown and Truesdale were the stars for the home team.

John Wilson and Stevens distinguished themselves at Los Angeles. Duflon of the West Coast Club has been held up for the week, referred.

MOORE SKATING RECORDS.

Fast Time Made in Series of Match Races at St. Paul.

St. Paul, Minn., Feb. 11.—In a series of match races here today between Norval Haptle and John Nilsson, three professional indoor world's skating records for an indoor track were broken. In the half-mile event Haptle lowered his own record, which he had held for 17 years, by making the distance in 1 minute 47.5 seconds, a record which placed a new record for the mile, making the distance in 3:37.5, and lowered the two-mile record by making the time and covering the distance in 6:46.5.
