English papers are about as well siste I on American affairs as States apers are on "Mormon" affairs. For xample the Liverpool Post says: General Gar. Field, the next Preident of the United States, comes rom splendid stock. He is a brother of Cyrus J. Field,"

Not only is Europe shipping its cores of thousands of emigrants to America, but Canada is sending arge numbers over the border. The Port Huron (Ontario) Times says hat 57,000 Canadians have left that icinity within the last eight nonths, and that all of them came nto the United States to locate pernanently. Several years ago he was run wer by a train of cars, his arms beng so mutilated that both had to be aken off near the shoulder. Lackng hands he learned to write legibly by holding the pencil hetween his seth. He writes quite rapidly, and n his work of enumerator takes an verage of 200 names a day."

But even this proof did aot shake the expert's confidence in als own opinion. He said that the writing looked like shoulder and wrist writing, and that that was
