COUNCIL OF EMPIRE OPENS. .

St. Petersburg, May 11, 6:30 p. m.-Russian parliamentarism, the formal opening of the recognized council of the empire or unner house of the empire or upper house of the parliament, took place at 2 o'clock this afternoon in the hall of the nobles in the Winter palace. The pomp and cere-mony characteristic of the old Russian official life, the absence of which at the opening meeting of the popular lower house of parliament in the Tauride palace yesterday was significant of the new spirit in Russian affairs, found vent in the convocation of the council empire, which, with half the members forms the forms the connecting link between the new and the old systems.

The display of uniforms and orders vivid ribbons and gold braid which was seen at its hight during the ceremonial at the Winter palace yesterday, was repeated on a smaller scale in the great hall of the nobles today. The ministers displayed their full regalia dress and swords, the doors were flanded by servants in picturesque livdipiomats and high officials and richly dressed women, and though a number of the elective members were not in uniform, the colored smoke and Kaftan of the peasant and the high boots and rough coat of the workmen were not in evidence.
