NEWS BRIEFS. Charles Caldwell and William Boam returned Wednesday from a trip over the entire west. They left two weeks ago to see the country and to investi-gate business propositions they had in view. They expressed themselves as being highly pleased with what they aw and learned. The brick-work in the new meeting-house is progressing rapidly. Now that spring has come the city work should not stop here. There are many yards, if thoroughly cleaned, would add greatly to the appearance of the city, and more than likely would add to the health of the people. Mr. and Mrs. Miles W. Rommey of Big Cottonwood had the sad misfortune of losing their little 2-year-old daugh-ter. The child died Wednesday of bronchils, and will be burled Sunday in the South Cottonwood cemetery, The family is now quarantined for diphtheria.

New Industry in Emery County Makes Farmers Prosperous.

Special Correspondence. Emery, Emery County, Utah, Feb. 4. —Threshing is not quite over with yet, nor will it be for about two weeks. The main crop is the lucern seed, which has brought the farmers ready cash at the threshing machine, in fact most of them have had part payment before it was harvested. There will be about 10 good carloads of alfalfa seed shipped out, be-sides quite a bit of second-class seed which is being sold to the neighboring towns. One farmer raised 868 bushels, others in less quantities. It is a new industry in this section, it being the third year's trial. The people seem quite encouraged, as it is like a little gold mine to each farmer. Most of the farmers' wheat and oats are stored in the bin waiting till next summer, as most of them have plenty of cash for their present need. We have had more snow this winter than for a great many years past. Special Correspondence.
