AN OFF DAY ON THE EXCHANGE.

A Very Light Average of Sales Also Proposed Increase of Capital Was Recorded,

AJAX IS AGAIN IN FAVOR.

What the Sales Were and the Figures the Various Stocks Brought-Transfers in Detail.

Today was one of the off days on the exchange, and only a light business was done as compared with the average sates during January so far. Ajax is fast becoming a favorite in the trading, and today 1,700 shares of this security was dealt in at figures around the dollar mark, the last sale being recorded at 98% cents, 400 shares changing hands at that figure.

Daly West is strong and 185 shares were sold at figures just below the \$30 mark, \$29.85 being the highest, and \$29.67% the lowest figure reached, with \$29.50 bid at the close. Lower Mammoth fell off in the trading, only 200 shares participating, and these went at figures slightly below yesterday's quo-

May Day showed increased activity and sold freely at about 40 cents per share, while Star Con. handed 2,400 shares out at about \$4½ cents. Sunshine and Sunbeam entered the trading list, the former bringing 27 cents and the

latter 43 cents per share .

Among the non-traders, Grand Central was strong and was wanted at \$5.10. Silver King revelved an of-efr of \$65 per share, but was held at \$72.50. Johnny, which is a new comer, in the exchange, was bid up to 75 cents but none of the stock was offered at any price. Dexter is slightly weaker and only \$1.11 was offered. Con. Mer-cur received a bid or 300, but was held at 20 cents higher than that mark. The other stocks were about stationary, and at the close the market ruled as fol-

WILL CONSTRUCT NEW ROAD University Regents Meet and Discuss Affairs of the Board.

The University regents met this afternoon, at which meeting every memher was present. The matter discussed was the method of deadening the sound in school buildings. Whether it was cheaper to construct a building with the plaster under the beams, leaving no eir space, and thus deaden the sound, or to erect the hulding leaving the air space and deaden the sound by the laying of felt and impleum on the floors. After many comparisons, it was decided that the latter method was cheaper. Had the former plan been used in the construction of the University used in the construction of the Univeruity buildings, it would have been necessary to have built the walls three feet higher, and the foundations wider which would have entailed an extra expense far in excess of the cost of se-curing the same results by the putting felt and lineleum,

The board received a communication from J. H. Clark, acting principal of the Branch Normal school at Cedar City, asking what the wish of the board is respecting the order of the State board of health prohibiting all unvacipated children from attending school The wish of the board of regents was that the order of the health board be carried out, and all unvaccinated students be expelled from school.

There was also a communication from

There was also a communication from Mr. Weir respecting the road that the regents are going to open up on the west boundary of the University grounds. The communication stated that all of the abutting property owners would pay two-fifths of the cost of construction, at the rate of \$1,000 an acre, nearly all of the property owners having signed their names to owners having signed their names to

BIG PROPERTIES TO BE ACQUIRED

Stock to \$100,000,000.

WHERE PROPERTIES ARE.

American Smelting and Refining

Companies Intended Operations as

Ontlined in a Circular. New York, Jan. 22 .- The properties to be acquired by the American Smelting

and Refining company, according to a circular sent out to the stockholders as a result of the proposed increase of the capital stock of the company to \$100,000,000, are as follows: At Perth Amboy, N. J., smelting and

refining and electrolitic copper plants; at Pueblo, Colorado, smelting and refining and copper reduction plants; at Aguas Callentes, Mexico, smelting and refining and copper reduction plants; at Monterey, Mexico, a smelting plant; in South America, mining and smelting interests; also valuable leases and contracts running a term of years in the United States, Mexico and South America. These include the refining and smelting plants, appurtenant proper-ties and business of M. Guggenheimers It is understood that the total cash (or working capital) payment to be made by the Guggenheims is nearly \$15,000,000, making the eash resources of the American company, after con-solidation, about \$25,000,000. This will probably obviate the necessity of bor-rowing money to handle the company's

large business, Allowing 100 for the preferred stock Allowing 100 for the preferred stock of the American Smelting and Refining company, and sixty for the common, the \$22,600,000 preferred and 122,000,000 common, which the Guggenheims are to receive, would be worth in round figures, \$25,000,000. Against this the Guggenheims are to pay \$6,066,666,66 in cash and roughly about \$9,000,000 more to receive the receiver and This would in cash or working capital. This would allow about \$20,000,000 for the Guggenheims plants, good will, etc.

RE-ELECT OLD BOARD.

Annual Meeting of Silver King Stockholders in Park City.

The annual meeting of the Silver King Mining company took place at Park City yesterday afternoon. The election of officers resulted in the

re-election of the old board as follows. David Kletb, president; Thomas Kearns vice-fresident and general manager; W. S. McCornick, treasurer, and W. V. Rice and James Ivers, directors.

It is stated that the treasury of the company is in an overflowing condition and that dividends amounting to 50 cents per share per month would be maintained during the coming year.

SHIPPING TO EUROPE.

American Zinc Ores to be Sent to Old Country Smelters.

Joplin, Mo., Jan. 22.-Fifty thousand tons of high grade zinc ore from the Missouri Kansas Mining district are to be exported to Europe, this amount having already been contracted for by the Enropean smelters through the Missouri and Kansas zinc Miners' associasourl and Kansas zhe landers access in tion. Zinc ore has become scarcer in Europe, while this productive district has been yielding more ore than the American smelters could handle. This latter condition of affairs has resulted in the shutting down of many zinc the which cannot make expenses at mines, which cannot make expenses at the present prices of ore. There are now about 6,000 tons of ore awaiting expor-tation. The first cargo will be shipped

WHAT THE SAMPLES SHOW.

A New Copper Proposition That Gives Splendid Promise,

Fresident Booth of the Orezaha Mining company this morning received the result of the assay made on a sample of are brought to the city Saturday from the mine. The sample was a fair average of the vein, and the result has made the owners of this new copper boranza feel happy. The ore, which is a grey copper mixed somewhat with red oxide, assayed 20 5-10 per cent copper, 8 ounces silver and 40 cents gold to the ton. The mine is situated in Millard coun

ty, and is in the mineral range of mountains six miles from the Oregon Short Line railroad track. The company have nineteen claims, with a wel defined vein running through them. Opeings has been made all along the vein and a good showing of copper and silver ore has been exposed on the sursliver ore has been exposed on the surface. At present they are working in a draw which gives a depth of about 200 feet below the copper cropings, and have exposed a well defined fissue of about 18 inches in width, from which the samples just assayed were taken.

Mr. Booth says that a force of men are at work new and that this company are determinted to make a mine.

NEW SMELTER TO START.

The Bingham Gold and Copper Company to Begin Operations.

The Bingham Gold and Copper com-any's smelter will turn the first wheels Wednesday or Thursday. It was ex-sected that this event would take place he first of the month, but owing to make hitch with the Utah Electric Power commany, who are under convent to furnish the power for the new nt, the opening has been postponed, was learned at the office of the comthis morning that the wires were nearly strung, and that by Thursday at the latest the smelter would be ready

MINING NOTES.

Ajax was in with two cars of Pice parloads of Eureka Hill ore was

The Cygnet mine of Stockton has a carload of ore at the sampler.

President Duncan of the Overland left for the mine this morning. The Grand Central people were in with tweive cars of ore today.

Ask For It.

Hundreds of good housekeepers who have used Three Crown Baking Powder, Extracts and Spices will use no other kind as they know the brand Three Crown" guarantees them a pure and good article at a lower price than the imported goods would cost. Ask your grocer for the "Three Crown" brand the next time you order goods in

Hewlett Bros. Co.

SALT LAKE CITY, UTAH.

Superintendent Raddatz is in from the Hogorine at Stockton,

David Keith of the Silver King returned from San Francisco yesterday. The Tesora and Eldorado people were in today with a carioad of ore

Nineteen cats of ore were reported by the Taylor and Brunton sampler this morning.

By next week the Highland Boy will be working their smeller to its full ca-pacity of 450 tons per day.

G. F. Dalton has returned from Marysvale, where he has been oversee-ing the work on the Dalton mine. M. L. Effenger, the manager of the Ophir company's property at State Line, has returned from a business trip to

The new mill at the Midas mine in the Deep Creek country, is rapidly nearing completion. The Salt Lake Hardware company have the contract. The Mystic Shrine people have se-cured a lease and bond on the Amazon Nos. 1 and 2, which lie near the Julia

Dean and Red Wing properties at Bing-The Utah Mine's last carload of ore was a bummer. The shipment amount-ed to twenty-two tons and assayed 123 ounces silver to the ton and 47 per cent

Everett W. Pingree is at the Knutsford. Mr. Pingree will go out to Ophir today, where he is interested in sev-eral mining properties. He is a Neph, ew of ex-Governor Pingree of Michigan,

It is stated that the reason that the consolidated Mercur passed its regular dividend, is that the directors deemed it best before applying for a position on the Boston exchange to settle an in-debtedness of \$120,000 descending from

The fight between the Grand Central and Mammoth Mining companies will be opened shortly, when it is said that Judge Marioneaux will be asked for a restraining order by the Mam-moth people, restraining the Grand Central from taking out more ore in the disputed district until after the hearing of the motion for a new trial. Word has been received at the Salt

Lake office of the Sacramento Mining company that the new roasters at the mine were all ready to start up, and mine were all ready to start up, and that the machinery would be put in operation the moment the power could be connected. It is difficult to tell, however, just when this will be, as the Salt Lake Electric Light and Power company have the contract for furnishing the power, and this plant is tied up owing to its dispute with the city over the use of Jordan river water.

The shareholders of the Ontario Mining company met in annual session in San Francisco yesterday at which time J. B. Haggin, E. H. Clark, H. L. Tevis, Thomas Turner, Richard Clark, Fred Clark and F. G. Drumm were re-elected directors. The shareholders adjournling the directors met and organized with the following officers: W. G. Drumm, president: E. H. Clark, vice president; Fred Clark, secretary; J. B. Haggin, treasurer: R. C. Chambers, general superintendent. Louisberry & New York were again named as transfer agents.

MARKET VERY IRREGULAR.

Opened With Heavy Buying Orders, Stocks Advanced and Then Receded.

High Level of Prices Met by Enermous Realizing - Hardened at Noon but Hally Not Held.

New York, Jan. 22.-Yesterday after. noon's sharp rally in stocks brought in heavy buying orders both for home and foreign account, Many prominent stocks snowed advances of from 1 to 3 points. In some stocks the opening was excited and fluctuations were wide. In Missouri Pacific the sale of 7,000 shares was made at simultabeous quotations of from 911, to 94, compared with 90 last night. Brooklyn Transit was quoted at 7812 to 80, on sales of 2,-600 shares, compared with 77% last night. Amalgamated Copper jumped 3

points and St. Paul rose 15. The high level of prices was met by enormous realizing. A rapid drop of 3% and 5% respectively in Amalga-mated Copper and Missouri Pacific dis-turbed southment and long accounts ran from 1 to 1% in some cases, but the opening advances were not entirely wiped out. Support developed in St. Paul on a scale down and its rebound from 147% to 148% steadled the list tem erarily. By 11 o'clock St. Paul had de-lined again to 146%, and the general list was saggy. The steel stocks showed signs of weakness, Federal Steel drop-

points. The liquidation in the steel stocks did

market indicated that no further selling was likely to result and traders bid up prices smartly. The grangers, trunk lines and Pacifies touched the best prices of the day, St. Paul rising 4½ over last night, Northern Pacific 2% and others from 1 to 2 points. Missouri Pa-cific recovered to 57. Prices fell back again, in some cases about a point. The closing was active and easy at the low level.

AMUSEMENTS. Commence

A large and handsome audience came out to the Theater fast night, attracted by the fame of Hall Caine's powerful story, "The Christian." It is, perhaps, as well advertised as any niar now before the public, first on account of the wide circulation of the book, next ow-ing to the fact that Viola Allen starred in it several seasons and was expected to appear here in it, but was prevented to appear here in it, but was prevented through having decided to take up a new play, "In the Palace of the King." This necessitated the sending of a "number two" company to the West, and it was that which Salt Lake saw last evening. The play is an interesting one and was followed with absorbing attention. While it entirely changes the ending of the book by uniting the lovers and ringing down the curtain Lapplly, instead of having him die in the happily, instead of having him die in the heroine's arms, the play is a strong one and was received with many marks of pleasure by the audience. It was beautifully staged and costumed, and such effects as the handling of the mobs, were, well worked up. The only shortcomings were in the company liself, which must be ranked as fairly good without rising to the brilliant. The best instance of acting was that done by Mr. Adams as John Storm. Lord Robert Ure, the villain, (the part by the way, which was filled in the New York presentation by Harold Russell of this city), was well sustained. Miss Stuart has neither the appearance nor the youth necessary to make an ideal Glory though she read her lines with feeling and spirit. Miss Stoyle and Miss Warren did some good bits of acting, the Polly Love of the latter being espec-lally clever. The game bill goes two nights more with a matinee tomorrow.

The advance sale for "Old Jed Prou-y" begins at the box office this morn-

The Grand last night showed the The Grand last night showed the effects of the recent heavy drain on the pockets of theater goers consider ably more than the theater did. The house was little more than half full, but those in attendance represented the society element which has taken season tickets for the first night throughout the engagement of the Cummings Stock company "Penceful Valley" is a quaint company, "Peaceful Valley" is a quaint and delightful old English comedy, laid among the New England hills, and was written especially for Sol Smith Russell. Mr. Cumrings plays his role, that of a hard working young man who becomes a waiter in a country hotel to obtain means to finish his education, with close fidelity, and with an excellent spirit of humor throughout. In some respects it is the best thing he has done. He was admirably supported by Miss Hall who steadily mounts into by Miss Hall, who steadily mounts into favor, and does everything she touches with taste and sweetness. Miss Dougwith taste and sweetness. Miss Doug-las, too, had one of her usual sunshiny roles and the other parts were well filled, Miss Holt doing quietly, effective work as the New England mother. took so much time to set it that the audience grew impatient. Between acts one and two, the orchestra had to render four selections. There was a gen-eral slowness too, in the rendition which doubtless, will be obviated to-

Signorina Collamarina will appear as "Carmen" and "Mignon," and as "Azu-cena" in "Il Trovatore," with the Boston Lyric Opera company during the engagement in this city.

A band of weary people was seen wending its way from the Grand at half-past three o'clock this morning. It was the members of the Cummings stock company, who were called for a rehearsal of "Peaceful Valley" as soon work look as the past of the cummings are not as the company of the company to the company to the company that the as the curtain went down last night and who were kept at work until the stage manager felt sure last night "slowness" had been entirely rehearsed out of them.

TOMORROW'S RECITAL,

Prof. McClellan has arranged the folowing program for tomorrow's Tabernacle organ recital:

"Song Without Words" ... Mendelssoh Annie Laurie.".... Schumann America. Doxology.

AGED PIONEER DEAD.

[SPECIAL TO THE "NEWS."] Ogden, Jan. 22.-Lorenzo Clark, one of

Ogden, Jan. 22.—Lorenzo Clark, one of the original pioneers of the State of Utah, passed away at the home of his daughter, Mrs. D. H. Doxey, in this city this morning.

His death was the result of general debility. He lived formerly in the city of St. George, and came to Ogden about one year ago. He was 95 years of age when he died, having been born in Groston, New Hampshire, May 25, 1806. He was endowed with that strong. Groston, New Hampshire, May 25, 1890. He was endowed with that strong, rugged New England constitution which time cannot impair until after years and years of relentless work. He was a member of the Mormon Battalien, which means that he passed through perils as great as any that men can pass through and survive, was also one of the Nauvoo policen He lived a long and honorable life, having always enjoyed the love and re ing always enjoyed the love and respect of all who knew him. He was a Patriarch at the time of his death. He is survived by seven children, who are: Mrs. Eliza Higgins and Alonzo Clark, of St. George: Albert Clark, of Panguitch: Otto, of Mammoth: Mrs. R. A. Shirtz, Mrs. Joseph McIntyre, and Mrs. D. H. Doxey, of Ogden.

The funeral notice will be given later.

DEATH OF A BRIGHT CHILD. Under a weight of sudden 'sorrow Captain J. Wash Young and wife today laid to rest the remains of their little daughter. Liberty, who died yesterday afternoon from a short attack of diphtheria at first diagnosed as tonsilitis.

A DISTINGUISHED EDITOR HERE.

Col. A. K. McClure, Editor of the Philadelphia Times, Talks in Regard to Current Events-Queen Outlived Her Usefulness,

adelphia Times, and party, including W. H. Armstrong, at one time national commissioner of railroads, and Chas. Dupont of the Dupont Powder company, arrived in Salt Lake from the East on Rio Grande Western No. 1 this afternoon on their way through to the When seen in his private ear "Pil-

grim" at the depot at the conclusion of

lunch Col. McClure was on the eve of

setting forth to view the sights which are of interest to every stranger to the Bee Hive State,
"But you must remember I am no stranger here," said the white-haired old editor as he drew himself up to the limit of his six-foot-one of stature and squared his broad shoulders, "I was here thirty-four years ago and also vis-ited Salt Lake some twelve years back, but undoubtedly it has changed since

that time. "Bryan," said the colonel as he medi-tatively helped himself to a generous chew of tobacco and considered the question that was put to him by the re-

Col. A. K. McClure, editor of the Phil- | election of Quay to the United States Senate was a natural sequence. In people felt in regard to the election of the senator for Pennsylvania Col. Mc Clure smiled a smile of deep meaning although upon the subject he was personally non-committal. He said: "Quay's friends of course rejoice, while on the other hand his enemies feel rather bad in regard to the matter. Upon the news of the death of the useen of England being given to Col. McClure for the first time he said: "It would have been much better for

England had she died 25 years ago; lo not wish you to misunderstand me or I have the greatest respect for the me time it would have been better for the country. England is now entering pon a new era and I do not envy the sture that is before the Prince of ales. England has lost her commerwales. England has lost her commer-cial supremacy for ever and aye, and the people are just beginning to wake up to the fact. I was reading in an Aus-trian paper only the other day an ar-ticle which I thought was very trite, It stated that England had reckoned

as her name implied-a ni conferred upon her from the she was born on Independ July Fourth 1897. The fu place at 12:30 today from residence, 61 Third street, were held there and the c the grave were very brief and pa consisting of a dedicatory pray Bishop O. F. Whitney and a my "Sweet and Low," by a quarter posed of Miss Ethel Saville, Miss Wilson, Mr. Leo Foster and M.

Carrington.
