John Worthen Said to Have Slashed William Harrison With a Knife.

A warrant was issued today for the arrest of John Worthen on the charge of assault with a deadly weapon, the complainant being William Harrison, who conducts a feed yard on State street and Fourth South.

According to Harrison's story, Worthen assaulted him last evening and cut him over the left ear with a knife. He received a severe wound and it required three stitches to close it up. He said that Worthen rented a horse from him to take to the canyon and paid for it in advance. When he returned he demanded a rebate of \$1, which Harrison said he was entitled to. Worthen called several times for the money but each time Harrison refused to give it up. Last evening Worthen demanded the money again and when Harrison refused to give it to him, he drew a knife and said, "Don't take that d—n you," and struck Harrison with the knife. REPORT OF THE CITY SCHOOLS

That of Supt. Christensen Makes Interesting Reading.

ENROLLMENT FOR THE YEAR

Reached a Total of 13,562 Pupils—Some Neither Absent Nor Tardy—General Statistics.

City Superintendent of Schools D. H. Christensen has about completed his annual report for the school year of 1932-33. Some very interesting statistics are given in the report. The total enrollment for the year was 13,562 pupils, as compared to 12,353 for the year 1931-32, which is an increase of 220. The first month of the year there were 12,512 pupils enrolled; at the close of the school term there were only 10,316, a decrease in attendance of 2,196 pupils. This great decrease was probably due to the uncertainty of the length of the school term caused by the distressed financial condition of the school board. During the year there were 368 pupils who were not absent or tardy a single time.

Following are some of the most interesting statistics in the report:

DEATH OF LEVI E. RITER.

Prominent Mining Man Succumbs to a Long Standing Illness.

After an illness of about a year, Levi E. Riter, the well-known mining man, died yesterday afternoon at his residence, 28 Second street, the cause of death being a complication of troubles arising from cancer.

The deceased was 48 years of age and was prominently identified with a number of mining projects in Tintic. He was also president of the Silver City Water company. He leaves a wife and two sons. The funeral has not yet been arranged for.

DIED OF HIS INJURIES.

Man Hurt at Cement Works Passed Away Shortly After.

Frank Holmes, the man who was so frightfully injured at the Portland Cement works yesterday afternoon, died of his injuries shortly after being removed to the hospital. As stated in last night's "News," the man was caught in the machinery, presumably while engaged in oiling it, and his left arm torn from his socket and his right leg broken, besides being otherwise mutilated before the machinery could be stopped and his body extricated. As soon as the accident was discovered workmen rushed to the scene and did everything possible for the unfortunate man, but his injuries were of such a character that despite medical attention which was administered by Dr. Bower, the victim lived but a short time.

Holmes was an industrious workman and had been employed at the works only a few months. He was formerly a resident of Logan, where his wife was claiming when the terrible accident occurred. Word was immediately sent her and she and her five-year-old son arrived here at noon today. Mr. Holmes was a cousin of George Solis of this city and was about 35 years of age and highly respected by his associates.

The funeral has not yet been arranged, but will likely be held on Sunday under the auspices of the Macedonia, of which order deceased was an active member. The body is at the undertaking parlors of Eber W. Hall on Second South street.

THIRD WARD IMPROVEMENTS

New Buildings to be Erected for Church Purposes.

At a meeting of the heads of the various organizations of the Third ward, held last evening, it was decided to enlarge the ward meetinghouse and to build a large hall for the use of the various organizations. The Third ward has been steadily growing and today its members number over 600. The church buildings that have served so long are now inadequate to accommodate the large congregations which assemble each Sunday evening, and the ever-increasing Sunday school.

The new buildings to be constructed of brick, will be thoroughly modern, and will cost about \$3,000. Operations are to be commenced at once, and it is expected that the structure will be completed in about 60 days.

MASTER AT LAST.

Magistrate Crane of New York has of late received innumerable letters regarding his claim that women are unable to make trustworthy identifications, and he has also been interviewed by innumerable reporters on this subject. To one reporter, the other day, he said:

"A salesman of trouser-stretchers told me a rather good thing about a woman this morning. It is somewhat foreign to the topic we were discussing, but I'll repeat it to you, anyway."

"The salesman said that he was going from house to house one evening selling his trouser-stretchers. He rang the bell of a certain dwelling, and a man came to the door."

"Are you, the master of this house?" the salesman asked.

"The man smiled faintly.

"I am, sir," he said. "My wife died last week."

GLORY OF THE SAINTS.

Cyrus Townsend Hardy was talking about the itinerant preachers of the past.

"These men," he said, "were rugged and sincere. Their minds, if they were coarse, were also strong. Their eloquence was sometimes powerful; sometimes it was amusing. They had a sense of humor."

"There was a notable itinerant who once preached on the 'Glory of the Saints,' and the description of a saint's glory that he gave in this sermon deserves to be remembered. He said: 'The glory of the saints is perpetuated. This is it, word for word:—

"Who, my brethren, can describe the glory of a saint? Why, nothing on earth can liken it. If you drill a hole through the sun and put it on your head for a crown, and split the moon in sunder and put the pieces on your shoulders for epaulettes—if you tear down the curly curls of the skies and wrap it round your head for a robe, and ride to heaven on the lightning wings of the tempest, this will be nothing to the glory of the saints."
