

CRESCUS IS NOW IN KANSAS CITY.

Famous Animal Smashes World's
Record on Half Mile Track.

WITNESSED BY 8,000 PEOPLE

Horse Went the Distance in 2:09.4,
One Quarter of a Second Better
Than Previous Record.

Crescus, the trotting king, astonished the world again yesterday by smashing the world's record for one mile on a half-mile track. This latest achievement of the famous horse will add interest among local horsemen over the exhibition he is scheduled to give here about the middle of next month.

George H. Ketcham, owner and driver of the trotting king, is taking his horse by easy stages to the east, and according to plans announced early in the season, will give exhibitions of speed at Denver and Salt Lake. The following dispatch gives an account of Crescus' latest visit.

Kansas City, Oct. 24.—Crescus, king of trotters, broke the world's mile record for a half-mile track this afternoon at the Kansas City Driving club's park, going the distance in 2:09.4, and clipping just one-quarter of a second off the best previous record, made by him at Toledo two weeks ago. He made the new record in his very first trial. The time by quarters: .323, 1.041, 1.363, 2:09.4.

The track was fast and the weather conditions were perfect. Fully 8,000 people witnessed the event.

"Mike the Tramp" had the pole at the start, but Crescus usurped that position at the first turn and at the quarter, which was made in .323, he was in the lead. Every few strides Murren would take the runner up and let out a yell as they trotted wonder on. As they turned into the stretch, the first time around the hundreds of watches in the crowd showed that he was going at a record-breaking pace, and as the trotter and galloper passed the half-mile wire in 1:04.1, a 2:09 clip, onlookers burst into cheers of extraordinary proportions. Murren kept up his tactics of pulling up the running mate and shouting at Crescus. The three-quarter pole was made in 1:36.3.

As they reached the head of the stretch Ketcham was seen to call upon his horse for the final effort. The stallion came through the straightaway moving like so much machinery. Ketcham did not touch him with the whip, but urged him on with words of encouragement. He passed under the wire a few lengths in advance of "Mike the Tramp," and hundreds of spectators caught the time as 2:09.4, just as the official timers did.

**Dr. Beatty Wants to Prevent the Burning of
Leaves and Other Rubbish.**

**Paving on Second South Street Gives
But One Track to Street Cars—
Horses Stolen at Murray.**

Dr. T. B. Beatty is considering the advisability of reintroducing before the council his draft of an ordinance prohibiting the burning of rubbish by citizens for the purpose of burning up leaves and other rubbish in the fall of the year. The secretary of the state board of health asserts that this practice of creating big "smudges" all over the town is injurious to health. Mr. Beatty offered his ordinance a year ago, but action on it was delayed. It may be that the doctor will attempt to revive it soon.

STREET PAVING.

City Engineer Kelsey says that the work of paving Second south west to the Rio Grande station is to be pushed as fast as possible by the Alcatraz asphalt company, on account of the liability to bad weather conditions soon. But one side of the street is to be paved this fall and the other side will be done next spring as quickly as the weather will permit. In the meantime the set of rails along the street, although a single track is inadequate to accommodate the increased business of the streetcar company. The work of laying the stone portion of the pavement is well under way and excavation for the foundation of the asphaltum is being prosecuted rapidly. In the effort to plow up the old street an old steam roller was pressed into service to draw the great plow. But its performance was unsatisfactory and horses were brought into service for power purposes in the work of plowing. Ten horses are used on each implement and the work of tearing up has proceeded as far west as Fourth West street. People who have use for Second South street for traffic purposes will be very glad of a solid pavement upon which to run the winter. Hereafter the mud has made that thoroughfare almost impassable.

LOSE HORSES.

Sheriff Naylor's office has been notified of the fact that some employees of the Germania smelter have lost a couple of horses and a buggy. Some of the smeltermen have been in the habit of driving to their place of employment and tethering their beasts of burden at various places in the vicinity of the smelter, and it was from among these that the missing horses were taken on Wednesday evening.

TELEPHONE FOR REXBURG.

Geo. W. Wooten, a representative of the Rocky Mountain Bell Telephone company, Salt Lake City, has been in Rexburg the past few days making arrangements to put in a telephone exchange. Mr. Wooten has succeeded in getting the assurance of twenty of our business firms to join the exchange with the probability of several other firms joining. Mr. Wooten is a very well satisfied with the success he met with in Rexburg. He left yesterday for St. Anthony to work on that proposition there. He told our reporter that the line man had been here about ten days to set poles and to do the wiring. In fact, he said, part of the material for the exchange has already been shipped, and is expected here any day.—Snake River Current.

BISHOP LEONARD GETS BACK

Episcopal Clergyman Enjoyed Convention at San Francisco.

Bishop Abiel E. Leonard, who has been attending the Episcopal convention in San Francisco, returned home yesterday afternoon in a party consisting of Mrs. Leonard, Professor George M. Marshall, Miss Sarah J. Elliott, Mrs. Thomas Carter and Rev. George C. Hunting, of Evanston, Wyoming. Bishop Leonard regards the convention as being very successful. Utah and her affairs did not engage the formal attention of the convention, but many of the divines seem to be very much interested in this state. The most important question that was brought up was in relation to marriage and divorce. As is well known, the first proposition was to prohibit divorced men and women to marry again regardless of the cause of the divorce. Bishop Leonard opposed this measure, thinking it to be too stringent. What he wants to see is a uniform law governing marriage and divorce all over the United States.

DEATH OF BEN JOHNSON.

Bright's Disease Takes a Veteran Miner Man.

Ben Johnson, a veteran of the civil war and an old resident of Salt Lake City, died of Bright's disease this morning at the home of W. B. Short, 63 Eighth East street. He had been seriously ill for nearly five weeks and it had been realized for some time that

he could not live. He had never married, but Mr. Short's family were very kind to him to the last. His brother, R. M. Johnson, of Chicago, was at the bedside when the end came, and is now making arrangements to hold the funeral some time tomorrow.

Mr. Johnson was a native of Kentucky but moved to Indiana when a boy. At the outbreak of the civil war he enlisted in the union ranks and fought with courage to the end of the strife. Then he came to Utah and has lived here ever since. He was a member of the James B. McKean post, G. A. R.

C. B. & K. C. TRAIN WRECKED.

Two Fatally Hurt and Several Seriously Injured.

Ottumwa, Ia., Oct. 24.—A Chicago, Burlington & Kansas City passenger train was wrecked two miles east of Axline shortly after 1 o'clock today, the entire train, consisting of day coach, mail and combination cars, with the engine, being thrown over a forty-foot embankment. The cars were splintered into small pieces. There were nearly thirty passengers in the coach and how they escaped is a mystery. Three are probably fatally injured and seven others badly hurt. Following is a list of the injured so far as known:

FATALLY HURT.

James Mace, Unionville, Mo., hurt internally; will die.

Wynan Seewright, Lancaster, Mo., injured internally; will die.

INJURED.

John Seewright, Kansas City, breast and back hurt; serious.

Miss Sophia Peters, Cedar Rapids, Ia., limbs broken; badly injured.

George Ireland, Brownings, Mo., back injured badly.

Miss M. M. Crawford, Brownings, Mo., injured internally; serious.

Miss Clark Moore, Bloomfield, Ia., injured about head and face.

Permanent Census Bureau Wanted.

Washington, Oct. 24.—It is expected that the census committee of both houses of Congress at the coming session will consider legislation looking to the establishment of a permanent census bureau. It is estimated that the census office that approximately three-quarters of a million dollars could be saved from the cost of the next census if the officials could profit by the knowledge and experience of the present census.

A quinquennial manufacturing census also has been suggested. The idea, so far as it has taken shape, and as it probably will be outlined in bills to be introduced in both houses, is to provide a census force of 100 or 200 people, including, as far as possible, experts in each branch of the industry.

"Miss" Murren today established that the total population of the United States, including the new possessions, in 1910 would be about 100,000,000 people. The work of the present census is progressing rapidly and the first volume of the report on the population of the United States will be out in December and the final report by July next. The principal reports, it is estimated, are being gotten out every three years in advance of the usual time.

Ameer Consults Umar Jan's Mother.

New York, Oct. 25.—It is reported from Peshawar, says a Sindia dispatch to the New York and London Times, that Ameer Habib Ullah, following the counsel of his father, consults the mother of Umar Jan on all important state affairs. She is a royal princess, and the chief wife of Ameer Habib Ullah, and enjoys much prestige, but she does not head any faction against Habib Ullah, as Umar Jan is only 12 years old.

JUDGE HUBBARD'S FEELINGS.

Judge N. M. Hubbard of Cedar Rapids, Iowa, general counsel for the Chicago and Northwestern Railway, was the leader of the anti-Cummings forces in the recent Republican campaign in his state. At the Cedar Rapids convention, Judge Hubbard's faction of the party was badly worsted. Mr. Cummings being nominated on the first ballot, to the great surprise of his own lieutenants. Judge Hubbard took his defeat gracefully, although it was a severe blow.

A short time after the convention, the judge was asked to go to an entertainment, and replied:

"No, I can't go."

"Why?"

"Well, I don't feel like it."

"What is the matter?"

"Well," said the judge, reminiscently, "I feel like a gambler I once knew, who had played to night and drank to quench a great thirst. About 4 o'clock in the morning his head was groggy and he was groggy on his feet, and the last of his money had disappeared. He got up and staggered to the bar and said to the bartender:

"I want you to do something for me."

"No," said the bartender, "I can't."

"But you don't know what I want."

"Yes, I do; you want whisky, and you have enough now."

"No, there you are mistaken, I don't want whisky. I only want a couple of glasses of cold water and a few kind words."

To another inquirer, who asked how he felt, Judge Hubbard told the story of a well known character of his state, "Uncle Jimmie" Jordan, who was once a candidate for state senator in the Polk district. Jordan received the regular Republican nomination, and had a big majority to go on, so felt perfectly confident about his election. A man

named Mitchell, who lived down in the eastern corner of the district, was nominated against "Uncle Jimmie" on an independent ticket, and was endorsed by the Democrats. Election day, to the amazement of all true-blue Republicans, Mr. Jordan was beaten by Mr. Mitchell. Jordan retired to his farm and was not seen in the city for several days. Finally, one day he drove in, and a citizen hailed him as he was going by on the street and asked him how he felt.

"Uncle Jimmie" leaned out of his wagon and, in a high-keyed voice, which was heard all over the street, answered: "Well, I tell you how it is, I feel like Lazarus when he had been lioked by the dogs."—Chicago Tribune.
