

Seymour, 75; Field, two, and Hancock, two.

RICHMOND, Va., 20.—F. H. Leese was made permanent chairman. The resolutions affirm the indissolubility of the Union and rights of States, declare for free and fair ballot, unimpaired by petty officials or military show; declare disaster has followed the temporizing financial policy of the republican party and its legalized repudiation; sound currency with specie basis is the best means of securing business stability; oppose monopolies; look to the democratic party for a presidential candidate embodying these principles; favor the two-third rule; express abhorrence of the fraud which made Hayes president.

OMAHA, 20.—The Nebraska Republican State Convention met at Columbus last night at 7 o'clock, had an all night session and adjourned at 5.30 this morning. There was a long contest over three counties. The delegates elected were all solid for Blaine.

The only resolution carefully considered was one pledging support to the Chicago nominee. Just as the convention was breaking up, a resolution that John Sherman is not the choice of Nebraska, was tabled, and one eulogizing Blaine passed. No instruction to the delegates.

ST. PAUL, 20.—The Democratic State Convention met, and elected Wm. M. Campbell temporary chairman, who made a long speech. Committees were appointed and the Convention adjourned till 2.30.

TRENTON, 20.—The Democratic State Convention met to-day. F. H. Feece, temporary chairman. The customary committee was appointed and the Convention took recess.

SALEM, Ala., 20.—The Republican State Convention assembled to-day. Geo. Turner, a Grant man, was temporary chairman. A large majority of the Delegates favor Grant.

BAY SIDE, N. J., 20.—Since Saturday night the losses in the southern portion of the county by forest fires will exceed \$100,000. The largest individual loss in this county was at V. Thoroughneck's, on Tuesday, when the finest farm, houses and outbuildings in the county, together with nearly 100 head of sheep and cattle, and a number of valuable horses and mules were consumed, the occupants escaping in their night clothes, barely saving themselves.

CINCINNATI, May 20.—Mrs. Bateman, living six miles up the river, deliberately shot Mrs. Slinger with a double-barreled shot gun this morning, because the latter refused to desist from cutting grass along the roadside. Two men witnessed the deed. There is great excitement and threats of lynching.

CHICAGO, May 20.—A man signing himself L. A. Scofield, and also L. A. Scofield, is engaged in raising money on forged paper in cities between Omaha and Salt Lake.

NASHVILLE, 20.—Ex-Governor Jos. E. Brown, of Georgia, has been appointed United States Senator, from that State, vice Gordon, resigned.

FORT CRAIG, 20.—On Sunday, Hatch and a portion of his command were at Tueleros, following the trail of the Indians leading north, while another trail into the Sanwato Mountains. The horses, having given out, the soldiers were on foot. Escaped captives say that Victorio's horses have given out. The latter keeps up a steady flight. The Indians are said to have had a fight on the 31th with a party of Mormons in Arizona.

SAN FRANCISCO, 20.—The following dispatch was received last night by a staff officer of the department of Arizona, in answer to inquiries about the reported outbreak of the San Carlos Indians:

SAN CARLOS, May 19.

There has been no outbreak of the reservation Indians on the San Pedro to my knowledge. Eskiminzine and Sagully have been here since Thursday. There are seven Indians only absent from the San Carlos, and they are at San Pedro and Arivaca with permission to cultivate lands, and I know of none absent with passes.

A. R. CHAFFEE,  
Acting Agent.

SPRINGFIELD, 21.—The republican convention this morning appointed a solid Grant delegation to Chicago. The following are delegates at large: John Logan, E. A. Storrs, E. B. Raum and T. L. tler.

HALIFAX, 21.—Immense fields of ice spread from the west coast of Newfoundland to Cape Canso, and a fleet of nearly a hundred sail is delayed from getting up the north bay. Two large Norwegian barks were

lost near Rose Blanche, N. F. The crews are saved. It is supposed that many more vessels will be lost as the ice is very heavy.

SPRINGFIELD, 21.—The Blaine men refused to vote when the previous question was called for, the election of the Grant delegates to Chicago, but it was carried and the motion was then made for the nomination by the committee on delegates to Chicago of a State Central Committee. There was much opposition to this, as it meant a solid Grant State Committee. The vote stood, ayes 274, nays, 2521. Logan offered the following, which was adopted:

"Resolved, That Gen. U. S. Grant is the choice of the republican party of Illinois for the Presidency, and the delegates from this State are instructed to use all honorable means to secure his nomination by the Chicago Convention, and to vote as a unit for him and the said delegates shall have power to fill all vacancies."

On motion of A. M. Jones, the chairman of the convention was instructed to telegraph Grant that Illinois stands by him with 42 votes for President. The motion was carried, loud cries of "no" being heard.

St. Clair county presented a protest, stating that it had appointed delegates to Chicago according to the conditions of the call, and now they were set aside and others put in their stead. The delegates from the third, fourth, ninth, thirteenth, tenth, fifth, second and sixth districts concurred in this protest.

Logan then offered the following, and suggested it be the only platform.

Resolved.—That the republicans of Illinois in convention assembled, declare that they will support the nominees of the Chicago convention for President and Vice-President.

The resolution was adopted by a rising vote, amidst the greatest enthusiasm, the vast body of delegates unanimously rising to their feet and cheering enthusiastically.

A resolution directing the secretary to notify the republican convention of Alabama that Illinois sends 42 votes for Grant was offered, but withdrawn on account of the great opposition.

The gubernatorial candidates were then put in nomination, being Messrs. Cullum, Fort, Renaker, Hawley, Smith and Carr.

The committee here reported the State central committee on the presidential election and the list was adopted.

The first ballot on Governor resulted—Cullum 2194, Renaker 1083, Hawley 96, Tort 87, Ridgeway 76, Carr 55, Smith 51. Necessary to a choice 347. Balloting continued with much change before the fourth ballot was announced, when a break began and a large number of changes were made to Cullum and Renaker. The former received two-thirds of the votes and Cullum's nomination was made unanimous.

NEW YORK, 21.—The Times' Washington special says: Blaine was in his seat to-day for the first time for two weeks. Garfield spent an hour in close conversation with him. William Chandler, who returned to Washington with Blaine does not appear so hopeful for the success of his favorite as he was before leaving here several weeks ago. A delegate to Chicago from California, who is now here, said to-night that he was surprised to discover the earnestness of the popular feeling in the East, and in most of those States through which he had passed, for Grant. This gentleman said his first choice was Blaine, but he believed Grant would be the choice of the Chicago convention.

Several days ago Tom Lee, the Mott street tea merchant, was created a deputy sheriff at his own request. Lee is the leading spirit among his countrymen, and is an American citizen of several years standing. In order that hoodlumism and other persecutions by roughs may be prevented, he has been given a deputy sheriff's badge. He is the first Chinaman who has held any office or taken any part in the government of New York city or county. Celestials are delighted over the success of his application, and feel sure that they will not be molested in their own neighborhood. It is expected Governor Cornell will pardon Sam Chow, the Chinaman now in prison for firing on a mob which attacked him. A petition was presented to the Executive a few days ago, and the District Attorney has written a letter to Albany on the subject.

NEW YORK, 22.—The Tribune will by no means admit that Grant's nomination is certain or probable. It gives a table as follows: Full

number of delegates 756, unnecessary for a choice 379. Number already elected, 732; for Grant 290, for Blaine 277, for Sherman 103, for Edmunds 36, for Washburne 13, for Windom 10; Blaine's estimate is still more favorable to that gentleman. The Tribune argues editorially that every other candidate's second choice is anybody but Grant.

SANTA FE, 22.—Fifty armed men left Mas Lunas to-day for the western position of Valencia county to protect the herds. The Apaches have killed three more Romero herders. There are no troops for 100 miles East, West or North. Pope has asked for the 10th cavalry from Texas to reinforce Hatch.

FORT KEOGH, 22.—The hostiles have been wanting all winter to surrender, but were told by the traders that their ponies and guns would be taken and every Indian hung. A Grand Council of the Sioux has just been held, and a delegation of 90 selected to visit this part, is now in camp five miles North. Miles received orders from Sheridan that all the hostiles must surrender unconditionally, the military authorities, Hazen, post commander at Buford, sent out a detail to receive the surrender. Seven hundred Sioux, under Rain-in-the-face, who killed Custer, are opposite fort Keogh, but hesitate about giving up their guns and ponies.

LEADVILLE.—The White River Utes have been reinforced by a 150 Navajoes. There are over 3,000 miners on the Ute reservation.

OMAHA, 22.—The strike in the smelting works nearly resulted in a riot to-day. 1,500 workmen compelling 109 colored men who have been brought from the river towns, to stop work. The militia are ready at a moment's notice. State officers have been appealed to.

A Washington dispatch says Senator Paddock, at half past ten this evening, received from the Secretary of the State of Nebraska, now acting as Governor of the State, a requisition on the President for troops to assist the local authorities in Omaha in preserving the peace and protecting life and property from the rioters. The President was called out of bed, and at midnight, after consultation with the Attorney General, he concluded that the democrats in Congress have left him the right to order troops from the fort nearest Omaha, to the scene of the riot to be in readiness in case they are needed. Paddock sent the order after 12 o'clock, and it is hoped that the movement of troops into the city of Omaha will restore quiet.

OMAHA, 22.—Two companies of militia are here to prevent riot by the striking smelters. Trouble is expected any moment, as the latter are very belligerent.

SAN FRANCISCO, 22.—The impeachment case of Mayor Kallach comes up in the Superior Court on Monday. The defendant has filed an affidavit demurring to the complaint on the ground that the court has no jurisdiction, also that it does not state facts sufficient to constitute a cause of action and is ambiguous, unintelligible and uncertain. In another affidavit he asks that the case be heard in banc as it involves public interests of great importance, and difficult questions of law and fact. In this affidavit he refers to the duty of appointing a board of delegates, devolved upon him by the new McClure charter and draws attention to the conflict between himself and the board of supervisors on this and other points as special reasons for asking a hearing in banc.

CHICAGO, 21.—The Tribune's Springfield special states that ten of the Congressional districts have entered their protest and deny the right or authority of the Logan element in the Convention to throw out the anti-Grant delegates, and that these districts had previously chosen delegates who will take their appeal to the National Convention.

The Inter-Ocean's Washington special says: Gorham and a large force of adroit and skillful Grant men leave here immediately for Chicago to work up his campaign. It is intimated that Blaine will go thither himself.

PHILADELPHIA, 21.—Prominent labor advocates, including some from California, met to night to decide upon a candidate for President. It was concluded to support Hon. Hendrick B. Wright, and John B. Chamberlain for vice-president, but agreed to withdraw from the Chicago Convention.

CLEVELAND, 21.—The Leader will publish to-morrow comprehensive crop reports from nearly 150 points in Ohio and Pennsylvania showing that the acreage of wheat

is about 15 per cent. greater than that of last year. The crop is in a fine condition. Oats are suffering for want of rain and will be short. The corn acreage is an average. Prospects are fair.

## FOREIGN.

LONDON, 19.—Four hundred and fifty noblemen and gentlemen were present at the meeting of the Conservatives at the Bridgewater House to-day, including Lords Salisbury and Carnarvon, Sir Stafford Northcote and Mr. Cross. Lord Beaconsfield, after having expressed the hope that the proceedings would be regarded as strictly private, referred to the sudden change in the position of parties, but he saw no reason to despair. There were already signs of encouragement. If the Conservatives were true to their principles, he looked forward to their return to power at no distant period. He expressed surprise that Gladstone, after his repeated expression of a desire to retire from political controversy, should accept two posts. Lord Beaconsfield denied that he ever intended to resign the premiership. He recommended that the conservatives maintain an attitude of dignified opposition to radicalism for the present. Nothing would induce him to believe the defeat of the conservatives a desire for a change. He considered it impossible for the present ministry with its discordant elements to last long. Sir Robert Peel, Sir Stafford Northcote and Lords Carnarvon and Salisbury also spoke.

It is believed that the Queen's speech on the reassembling of Parliament to-morrow will allude briefly to the result of the general election. Sympathetic reference will be made to the distress of Ireland, but its tone regarding it will be hopeful. Measures to ameliorate the condition of tenant farmers will be promised. Renewal of the ballot act and the introduction of a census bill may claim mention in connection with the maintenance of European peace. The speech will announce the dispatch to the Powers of a circular by Lord Granville, Foreign Secretary, and indicate the reception it met with at foreign courts. Allusion will be made to the pacification and reorganization in South Africa.

A Berlin correspondent learns upon trustworthy authority that Germany intends to increase her naval force on the Eastern Asiatic stations as soon as the relations between Russia and China assume a more grave aspect.

It is stated that the conservatives are determined to oppose the election of Sir William Harcourt at Derby. It is said that Sir Robert Peel will be invited to stand.

News from Jamaica state that the drought continues. One shower of rain fell last week in the vicinity of Falmouth, the first for three months. Water is so scarce that it is sold for six cents a gallon. Stock of all kinds is dying for want of water. The dry weather is seriously affecting young canes, and fears are entertained for next year's crops.

Almost complete results of the election for members of the Italian Chamber of Deputies show the return of 120 Constitutionalists, 173 Ministerialists and sixty-one Dissident Left. Second ballots are expected to make these figures 175, 249 and 82 respectively.

The Spanish gendarmerie have dispersed a small band of advanced radicals in the province of Teruel. The band had menaced several villages and was headed by a noted Carlist adventurer.

LONDON, May 20.—Parliament re-assembled to-day.

The Queen's speech refers to the cordial relations with all powers; hopes for a speedy execution of the whole treaty of Berlin and refers to the mission of G. J. Goeschen in that connection.

She says the efforts to pacify the Afghans and establish a strong and independent but friendly government, will be increased. The condition of India finances recently made known will require special attention.

The policy of confederation in South Africa is advised but Transvaal will be retained.

Imports and exports and other signs indicate a revival of trade but depression is lately perceived. The revenue continues unabated. The estimate of income laid before the last Parliament will probably not be exceeded. The late season for convening the session will seriously interfere with legislation.

The preservation act in Ireland will expire on the 1st of June and will not be renewed. The loyalty

and good sense of the Irish people justify reliance in the provisions of ordinary law firmly administered for the maintenance of peace and order. The acts for the mitigation of distress in Ireland have been serviceable to that end. The question of sufficiency of the advances authorized by the acts is under consideration.

Barroll's bill, the ballot act, a bill to protect tenants against injury, a game bill, and a bill to determine the liability of employers for accidents to servants, and a bill for the extension of borough franchise to Ireland will be submitted to Parliament.

Lord Selborne, Lord High Chancellor read the speech. The House of Commons was crowded; the attendance of Peers was meagre.

In the House of Commons John O'Connor Power, Home Ruler, gave notice that he would offer an amendment to the address in reply to the Queen's speech that the position of the occupiers of land in Ireland deserves immediate attention in order that their legitimate claims may be satisfied.
