M. M. Johnson of the Hewhouse That the Century mine in the Park Valley district will again become en-rolled among the dividend paying mines of the state is the firm convic-tion of P. W. Madsen, who has redeparted yesterday for the Seven Devils district in Idaho. Thomas Weir is in Bingham today looking after matters in connection with the development of the Ute copper turned from a trip of inspection to Mr. Madsen gave up the active man-Mr. Madsen gave up the active man-agement of the property several weeks age when the property was optioned to the syndicate represented by H. U. Hart of New York. The new crowd has taken hold of the mine in earnest and, Mr. Madsen states, splendid re-sults have already come from the work done. A new vein of good milling ore, three or four feet in width, has been opened on the 1,000 foot level. Mr. Hart and associates have made Superintendent Joseph Ferron of the Glasgow & Western Exploration com pany has gone to Nevada. Directors' meetings of the Uncle Sam and May Day mining companies are scheduled for tomorrow and the Lower Mammoth board is to meet on Saturday, Lying on his side in a heap of muck, 40 feet above the bottom of the Al-pha shaft, the skeleton of a man, sup-posed to have been Hercules Constanti, has been found by the miners at work mucking out the shaft, and was short-Mr. Hart and associates have made me payment on the purchase price of the mine, and it is understood that the next one will fall due about a month ence. It is believed that by opening mucking out the shaft, and was short-ly afterward brought to the surface, An inquest will be held today over the remains by Coroner Cartwright, who was immediately notified of the finding of the body by Supt. E. W. Walter of the Giroux, who drove to Ely for the purpose.—White Pine News. the Century mine at depth it will turn out to be a producer of a good deal of Importance HAVE EXTENDED TIME.

P. W. Madsen Well Pleased With Existing Conditions.

such a gathering.

The brokers operating on the floor of the Salt Lake Stock & Mining ex-change have had a busy day of it. Trading was very brisk during the forenoon calls and Sloux Consolidated again presented itself as a star actor. The selling orders were plentiful, but the stock had good support and held up very well under the pressure. Black Jack and Iron Blossom develop-ad much strength while South Swaned much strength, while South Swan-sea held its own around 28 cents. A few of the unlisted stocks were

active. Uintah Treasure Hill sold at 2814 and 29; East Crown Point at 3 and 314; Thompson at 27, and East Tintic Con., at 4 %

The closing quotations and sales were:

WILL VISIT PIOCHE.

George Weddell, English Capitalist. Will Inspect Mining Interests.

A prominent English mining operator and capitalist, George Weddell, who is extensively interested in the mines of Pioche, has arrived from abroad and will leave for the southern camp to-

night. night. The visitor is a large shareholder in the Prince Consolidated and Ohio Kentucky mines, and is also promi-nently identified with the affairs of the Nevada Horn Silver Mining com-pany, another very promising Pioche enterprise

Mr. Weddell visited this country Mr. Weddell visited this country about a year ago: but since that time many changes have been wrought in the famous Nevada district. First or all, the town has been linked with the outside world by rall; but most im-portanto f all, the Ohlo Kentucky and Prince Consolidated have been devel-ored to the stars where they have here been developed to the stage where they have been devel-come recognized bonarzas and destined to rank among the big producing mines of the state of Nevada,

Mine Manager E. L. Godbe of the Ohio and Prince is now in Ploche and will remain there until the arrival of Mr. Weddell.

We have had a financial upheaval in England a good deal like you have had here in America," said Mr. Wed-dell today, "but conditions are arright-ing themselves again there just as they are here. Money is getting easier and it ought not to be very long until everything will be ruoning along smoothly again."

THE METAL SITUATION.

Only Lead Offers Encouragement at Present Time.

Sliver moved up three-sights of a cent an ounce today, while copper and lead are unchanged.

There is some encouragement in the metal situation," said Williard S. Morse of the executive department of the American Smelling & Refining company today. "Lead has been moving upward a little almost every day for some little time, and that helps. Then seems to be a better demind for lead now than there was, and makes the situation somewhat better." "Silver has been going inte opposite way, and the only way I can account for it is the falling off in the demand for the metal. India, as we all know, is the greatest silver market in the world; but that country is not calling for much silver now, and that couse quently has an effect on the selling price." "The time does not seem to have an the set of the top of th

"The time does not seem to have ar-rived for copper to make much of an advance; but I think it will after awhile. I think the whole business, situation will settle down upon a more substantial basis after the two great national conventions."

Request for it Granted Seven Troughs Eclipse Leasers.

The directors of the Seven Trought Eclipse Mining company, at a meet-ing held vesterday afternoon, decided to grant the request of Irving & Cranz

to grant the request of Iving & Cranz for an extension of eight months in their lease on blocks Nos. 1 and 7. The leasers are also given six months' time after the expiration of their lease to remove any accumulation of ore which they might have. This action came as a result of in-formation from the leasers to the ef-foct that they had obtained substantial backing, and that they were prepared to go ahead and spend \$25,000 in open-ing up the ground. The Irving & Cranz lease adjoins the rich Meteor ground and right to the south of the Meteor is the Hayes & Monette lease on the Mazuma Ex-tension and on which \$50,000 is being spent in development.

spent in development.

ORE AND BULLION.

The ore and bullion settlements re-ported late yesterday by McCornick & Co., were: Crude ore and concen-trate, \$10,000; base bullion, \$50,000. To-tal, \$60,000.

TROUBLE SETTLED.

Litigation Pending for Years Over

Mining Property Comes to An End.

San Francisco, May 7.-The litiga-tion over the famous Mormon mine near Angels has been amicably settled hear Angels has been amicably settled and preparations are being made to re-open the property, which in early days yielded millions to its owners. Sena-tor Fair and William Irvine fought for years to prove fills to the property and after their deaths the legal strug-gle was continued by their heirs. Through the agency of Thomas Magee and sons who represented Mag Col and sons, who represented Mrs. Oel-richs and Mrs. Vanderbilt, the legal

In today's local markets, the receipts include car lots of oranges and bana-nas, Florida tomatoes, mixed vege-tables and cabbages from southern California, shipments of very good strawberries, etc. Utah vegetables are arriving quite freely, and there seems to be no shortage in the markets. Flour has taken another upward turn. Wholesale prices of veal are slightly down, hens are shaded down half a cent. The prices obtaining in today's markets are as follows:
