CRUTCH-BOUND

The crutch is a poor substitute for legs, and affords a very meconvenient and tiresome mode of locomotion -there is no more pathetic sight than a person slowly and painfully moving along the

street supported by these artificial limbs. When Rheumatism settles in the bones and muscles of the legs, it is safe to predict that the victim will eventually become helpless and crutch bound. The corrosive, irritating matter that is deposited in the joints and muscles causes the most intense pain, the knees and ankles swell, and when the natural oils and fluids that lubricate these parts are completely destroyed the joints become locked and

the muscles drawn and stiff, and crutches a necessity. The acid poisons that produce rheumatic pains form in the blood, and are definited through the system, and lodged in the arms, shoulders, hands, her and feet, or other parts of the body—resulting often in total disability. Amanent cure of Rheumatism can be effected only by a complete cleansof the blood, and no other remedy so surely accomplishes this as S. S. HENEFER.

Proposition to Annex Henefer to Morgan Co.-New Wagon Road.

Special Correspondence, Henefer, Summit Co., Utah, Sept. 30. There is some travel over the new

state wagon road, through the narrows, which divides Morgan and Summit counties. The abutments for the bridge across the Weber river at the lower end, which is in Morgan county, are completed; the iron bridge material is als on hand and ready to be put in place. This will always be a good road, when a few more places have undergone a little improvement. The road has also een put in shape around the Henefer meadow and made to connect with the

state road in the narrows.

It was intended in the first place to make and locate the road in a straight line on the river bottoms to the county road east of Henefer. To help settl the matter it is now proposed in the lower country that Henefer be joined to ·lorgan county, which would give it power to locate and build the road in a direct line to the Coalville mines.
