His envoys and intimates are able to please him immensely by sending him models and notes of in-ventions, and none of his subjects stud-ted with the subjects studied more carefully than he the reporton inventions of mechanical devices, which he utilized for the improvement of conditions in the empire.

Particularly attractive to the emperor were clocks and watches. In the win-ter palace at Pekin and in the royal summer residence, some miles distant, were hundreds of clocks from all parts were hundreds of clocks from all parts of the world, nearly all of different makes and styles. Nothing is said to have pleased the emperor more than to tear a clock to pieces and then re-assemble its parts. He became quite expert in the adjustment of these time pieces. His collections of these con-trivances is said to have been one of the most complete in the orient, not only remeasaring moders work but the only representing modern work, but the development of time recorders through

the centuries. The Associated Press dispatches gave the first news of the death of the emperor. When they were shown to Minister Wu Tang Fang he commented:

"But reports of his death have been received before." He added, however, that while he had not been notified, such notification was not to be expected immediately after the death on account of the commotion which would follow the death of the emperor. Confirma-tion of the denise, he continued, would probably be made by the American minister at Pekin.

Through nearly all of the 34 years that the emperor was on the thronc be was in poor health, the minister explained, and added that the cmperor's death at this time would not interfere with the policy of reform which had been adopted and partially put into practise by the Chinese goveroment. MRS. ALLEN F. READ MAY NEVER RECOVER

Denver, Colo., Nov. 13 .-- Weakened by disease and drugs, Mrs. Allen F. Read, who threatened the life of Mrs. Genevieve Chanler Phipps with dynamite last Monday, may never live to undergo the experiences of the prison cell or and house, as the cosequence of her daring attempt at extortion. Late last night information reached Chief of Police Armstrong that Mrs. Read's condi-tion was extremely critical. The mes-sage came from her husband, in whose

This information was corroborated by Dr. R. O. Butterfield, Mrs. Read's physician. Mrs. Read has recovered somewhat from the effects of the drugs she had taken, it is said, to get relief from pain. Still, her mind has not cleared. She insists that she remembers nothing of what had taken place in the last week

LAMPHERE DEFENSE MEETS FIRST DEFEAT

La Porte, Ind., Nov. 13 .- The defense in the Lamphere murder trial in its effort to prevent certain information going to the jury suffered its first de-feat today, when Judge Richter ruled that the report of the coroner's verdict was admissible as primary evidence. The ruling followed exhaustive argu-

nents by the attorneys for the state and for Lamphere. The jurors looked fresh and alert when they entered court today after their first night's confinement on the third floor of the court house. They had enjoyed a walk, breakfast at a hotel and read morning papers from which all reference to the trial had

been expunged. The defendant looked paler than on yesterday. He was unnerved considerably during the opening statement by Prosecutor Smith of yesterday and to-day looked as though he had not slept well. When questioned he said Mr. Smith's statement was very strong "but there is nothing in the claim that I want most the Guinness heat went past the Guinness house that morning."

Coroner Mack was the first witness on the stand. He was quite uncertain about his answers at times. He testified to the finding of the bodies in the neuro and said that one was that of an adult female and the other three were those of children. Atty. Sutherland conducted the ex-

Denver, Nov. 13 .- Rumors of contests for official honors in the American Federation of Labor are beginning to be heard, although the election of officers does not occur until the latter part of

next week. No one is mentioned as an opponent of President Gompers for reelection, but there is a report that Thomas L. Lewis, who succeeded John

ened Eye of Deputy Reid. For "cleaning out" a hotel at Gav-field, W. C. Snyder, allas Walter Mor-gan, is in the county jail. The clean-ing out process was not done literally, but tiguratively, the man having driven all the people about the place into the street, while he held full sway. To do such a thiag single handed would not have been a very unusual occurrence, had the man been armed, but the fact of the matter was that Snyder, allas Morgan, did not have a solitary weap-on, or at least did not exhibit one. He is a six-footer, however, weighs about 200 pounds, and added to this he was filled with had whisky at the time. There is one man who knows by ex-prience that Snyder, or Morgan, is a hard hitter. Deputy Sheriff Walt Reid hoks like it had been made by the kick of a mule. Snyder did the job with his fist, and the biow sent Reid to the mat. The officer was up in an instant, and then it came Snyder's turn to go down. He was a little too much for Reid, however, and turned over on top of the officer, but a a little time-lers enabled the miniton of the law to overpower Snyder, and the prisoner was brought to town by Deputies Reid and B. He had the hotel people and the guests "done to a frazzle" when Reid appeared upon the scene, and th. rest has been told. W. C. It is claimed that the road is already se short of skilled trainmen that "boom-ers" are crowled on to trains, and for mistakes caused by their inexperience the regular trainmen are held responsi-ble on the demerit system mentioned.

WILL NOT DISCUSS MATTER.

It was impossible to locate the main afficials of the gelevance committees of the organizations named, most of them being out on the road, but from men who could be seen, any statement of a prospective strike on the 22nd was de, nied. It was not stated whether a strike on the eastern end of the road could be likely to extend to the west ern division, or whether the grievance held by the men on this end would be ufficient to justify a sympathetic trike of all the operating employes on he Rio Grande. It is certain that the the relation of the four men discharged for eating on their run at Hunter has aroused a great deal of feeling among the men, and this, with other things claimed to be unjust in the dealing of the company with them, gives some ground for the statement that in case a strike is called on the eastern division a strike is called on the eastern division of the Rio Grande, a sympathetic move-ment might follow here.

SOME HAIRSPLITTING.

From the offices of the Rio Grande in this city, it is given out that there is nothing to the movement: and that the engineer who was discharged on the Garfield branch, was not discharged for that the two brakements were with the two brakements when the two brakements were put back to work, and that the engineer is the only one of the crew who has not re-turned to work. turned to work.
