ONE YEAR BEET CONTRACTS.

Beet growing contracts for one year have been let to the Payson farmers. Mr. Austin of Lehi, field superintendent, came down last Saturday and arranged with the farmers for delivering their beets at the railroad station in stead of at the Leland crusher, and, as stated, the contracts will be for one year instead of five, as first required. Hyrum Reece was appointed field su-perintendent for Payson and vicinity for this year.

At the Priesthood meeting a week ago it was decided to build a stake house for Teton stake, to be located at this place, and to cost in the neighborhood of \$15,000. Work on it will commence at once. It will be built of sand stone and the rock will be hauled on the ground this winter, while there is good sleighing. Hurst are all two story brick buildings, and would adorn the streets of much larger cities than Dublan. We have a beautiful townsite in the midst of a large grass covered valley, surrounded with excellent farming land, which will in a few years have a good water system if the proposed reservoirs prove a success. It will require much courage and hard labor to bring about the desired improvements. Securing the tille to this large tract of valuable land on which Dublan is situated is due to the writing energy and fine business ability of President A. W. TO THE INSURING PUBLIC :

HE Great Chicago Fire of 1871 was the cause of 68 Fire Insurance Companies retiring from business. The Boston Fire, which occurred one year later, wiped out 50 more. It is, therefore, only reasonable to suppose that the great Baltimore fire will compel a number of other Fire Insurance Companies to cease business.

As our business is insurance, we will be in a position to keep track of any companies that may retire, as well as those that may be weakened by this calamity. We will take pleasure in giving to the inquiring public any information that may come in our possession. To keep you properly advised, we would suggest that all who read this notice kindly mail us a list of their insurance policies and we will endeavor to keep them posted on the condition of their respective companies. We may as well add that the Companies we represent have been through all of the great fires of the modern time and are "time tried and fire tested."

The representatives of our companies are today upon the ground at Baltimore, adjusting and paying claims.
