#### A \$50,000 Addition to the Con. Mercur Plant.

General Manager Cohen, of the Consolidated Mercur Gold Mining companies, left yesterday for New York. Mr. Cohen's visit to the eastern me tropolis at this time is to place orders. for three new sixty-ton Jackling roast ers and two new sets of fine crushing rolls which will give the great mill i total daily capacity of between 650 and 700 tona. Just before leaving Mr. Co-hen placed an order for the steel and work for a 14x110 addition to the mill building.

The reason of this action on the part of the company is doubtiess owing to the oxide ores growing scarce in the mines, but as the base ores which re quire roasting are about inexhaustible in both the mines, the value of the output will be increased rather than de-creased. The entire cost of this new addition will be in the neighborhood of \$50,000

Reporter will say tomorrow: "The tone of the wool market has been decidedly quieter the past week, although a fairsized business has been transacted, the sales amounting to 3,500,000 pounds. The bulk of these sales, however, consisted of some large lines moved three or four houses, the rank and file of the trade presenting a dull market. The sales so far as reported have been made at practically unchanged prices. Nearly all the holders in the West are still very firm.

"The news from abroad is of a more encouraging character. Cables received the past week from London indicate a firmer market and slightly better prices while at Bradford the situation is represented as distinctly better. Manufac-turers, however, are buying in a hando-mouth manner, awaiting more favorable developments in the goods mar-kets. The sales of the week in Boston amounted to 2,567,500 pounds domestic and 550,000 pounds foreign, making a total of 3,517,500 pounds, against a total of 4,775,800 pounds for the previous week and a total of 6,821,200 for the corresponding week last year.

The sales since January 1st amount to 136,458,600 pounds, against 334,903,776 pounds for the corresponding time last
