THE DOCTORS AND THE TELEPHONE

Labor Unions Resent Action Taken by Medical Fraternity Against Independent.

GLENWOOD SAUCER TRACK.

Utah Student Honored in Quaker City—Suit Against S. P.—Junction City News in Brief.

Ogden, June 12.—The fight recently taken up by the doctors against the Independent Telephone company by the doctors of the city has aroused the ire of the labor unions and they are taking steps toward having the doctors reconsider their action or else lose the patronage of the members of the labor unions.

The information has just been given out that a meeting of the Trades and Labor Assembly of the city, which is composed of about 20 of the labor organizations of the city, was held Monday evening.

The meeting opened with a speech by President W. M. Piggott of the labor assembly and he delivered the most hot shot at the members of the medical profession for the alleged injustice done the Independent Telephone company.

A veritable storm then broke loose and many members took occasion to express their opinion of the action. A set of resolutions were introduced and it was ordered that four members from the assembly wait upon the doctors and thank those who took the stand against the proposition of taking out the phones and to urge those who had ordered their phones out to reconsider their action.

No definite action will be taken against the doctors until the committee makes a report back to the labor assembly. When the action was taken by the doctors against the Independent Telephone company the information reached this paper that the fight was the result of a personal grievance of one doctor who had started the ball rolling to get all the doctors to order the phones out of their office.
