

CONWAY CHARGED WITH FORGERY.

Well Known Broker Arrested at Murray Yesterday Morning.

OUT ON BAIL FIXED AT \$2,000

The complaint is sworn to by Rev. Richard Wake—Alleges that Conway forged signatures to a mortgage.

P. J. Conway, the well known stock broker and insurance man, was arrested early Sunday morning on the charge of forgery and uttering a forged instrument. The complaint was sworn to by Rev. Richard Wake, who alleges that Conway forged the names of John and Mary Baer to a mortgage on the property which he (Conway) wished to borrow money on, and also destroying two copies in the abstract of the property which showed the mortgage. Deputy Sheriff Haggard made the arrest at Murray, having found Conway asleep in a lodging house at that place. The officers claim that he was there to escape arrest, but he was permitted to remain there until morning when he was brought to town. Conway, who is alleged to have been a partner in the firm of Conway & Baer, was taken before Judge Haggard, where he pleaded not guilty. His bonds were fixed in the sum of \$2,000, and were promptly furnished by E. W. Duncan, representing Frank Knox of the National Bank of the West, and Stephen Hays, the mining man.

HELD UP LAST NIGHT.

J. G. Larkin is Robbed of \$19 and a Watch on East South Temple.

Shortly before 12 o'clock last night, J. G. Larkin, of 724 East South Temple street, called at the police station and informed the police that he had been held up in front of Joseph E. Taylor's undertaking parlor, and that the thief secured \$19 and a watch. He said the hold up jumped from behind a tree and struck him on the eye and got away before he realized what happened. Larkin gave as good a description of the robber as he could under the circumstances.

ANGORAS IN DEMAND.

Goat Breeding is Becoming More and More Profitable in the West.

The goat breeders who have been quietly preparing for a boom in the industry are likely to be very much in line during the next year. Down in New Mexico there is one breeder who has about 10,000 Angoras and there are a number with flocks from 1,000 to 5,000 head. The Kansas City Packer says:

There is going to be a greater demand during 1901 for purebred Angora goats than all the present well known breeds can supply. The demand is coming mainly from the Middle West and South, but scattering orders will be booked from as far east as Maine. Those along the northern tier of States to Minnesota will be wanted. If breeders who have first-class stock will use good common sense and not get wild they can cause the industry to triple in twelve months. Prices will not be paid. The breeder who is looking to the future and to a reputation will put out a good stock at fair living prices, desiring to secure second, third and many other orders to follow from the same locality to which he first shipped.

FEDERAL SHEEP INSPECTION.

Col. Albert Dean of Kansas City Has Been Put in Charge of the Work.

The Bureau of Animal Industry is this year providing inspectors for sheep in the West to prevent the spread of anthrax. An order has just been issued by the Bureau placing Colonel Albert Dean in charge of this branch of the bureau's work as special agent of the bureau. The Kansas City Telegram says:

The sheep inspection service for anthrax has been transferred by the Bureau of Animal Industry to the supervision of Colonel Albert Dean, who has had charge of the quarantine cattle service for a number of years. Dr. D. E. Sauer, chief of the Bureau, pays a very high compliment to Colonel Dean in his new position. "From your personal acquaintance with the sheep and cattle inspectors in sheep and railroad officials this service being placed in your hands will be a great benefit to the industry."

INCREASED MUTTON DEMAND.

Market Receipts Have Doubled in Ten Years.

In 1870 the sheep receipts in Chicago and St. Louis, the only western markets at that time, were 44,300. This year the total will reach well over 6,000,000 in the four western markets, Chicago, Kansas City, Omaha and St. Louis. Connecting this the American Sheep Breeder says:

This is an increase in thirty years from half a million to over 6,000,000 sheep slaughtered in these four Western cities alone. It does not take in the great Eastern city markets nor the thousands of town and village markets where mutton is sold and bought, where twenty or even ten years ago it could not be given away by the butchers. We men, not a little, for they have been all this time studying the question of the value of foods, and have taught us all through every city, town, village—indeed, every farm house—that mutton is the most pleasant to eat, as it is nutritious. Indeed, it is only now we are learning that when Abraham, that very ancient shepherd set before the angels who visited him a lamb tender and good, he exhausted the whole list of pleasant, nutritious and acceptable foods; and we find it so today. Consequently we are always asking for more and more every year.

MARK TWAIN'S DILEMMA.

He Wants to Vote, but the Law Apparently is Against Him.

Mark Twain is in a dilemma. He wants to vote, but the election laws have been changed since he left the country, and there is no way that the Connecticut board of registration can see to allow him to cast his ballot. He was in Hartford on Wednesday attending the funeral of Charles Dudley Warner, and although Hartford is his home and he has been paying taxes there twenty years, he still does not conform to the requirements for being registered as a voter under the new laws and has been absent from the country for nine years.

An intimate friend of Mr. Clemens said yesterday: "Mr. Twain, when General Harrison was elected, and one of his reasons for coming back at the season he did was to be in time for election. The years are not light upon his head, and there is something pathetic in thinking that the man who who loves American institutions and who is as near to the American heart as any other living man, should be deprived of what is possibly the last opportunity to exercise the great American privilege—the right to vote for President."

"I hope we may be able to get a special dispensation from the Hartford board of registration, for Mr. Twain never has registered as a voter under the new laws and has been absent from the country for nine years."

LIVE STOCK NOTES.

Denver Stockman: T. B. Carpenter came in with a string of four cars of J. M. Cunningham's Utah cattle, which were on sale here and closed out at good prices. The cattle were good, however, and worth all they brought.

Denver Stockman: Hon. J. W. Lowell of the firm of Lowell & DeWitt was at the yards this morning. He reports the big farm near Colorado Springs doing wonderfully well. The Colorado climate seems to agree perfectly with the herd and they are figuring on making a public sale at Salt Lake City during the National convention in January.

PORTFOLIOS OF THE PARIS EXPOSITION.

They consist of 129 elaborate views or heavy enameled paper, in all parts. The Paris Exposition beautifully portrayed. Price only 10 cents each part to News readers. A book that sold for 75 cents. Paris to be ready at the News Office. Send 10 cents for a sample. You will be charmed with the work.

MERCHANTS' PRINTING.

Turned out on short notice at the Deseret News. A big shipment of new types and supplies just in. Our facilities for letter heads, bill heads, tags, envelopes, pads, etc., etc., are unequalled by any establishment in the West.

Many people are suffering fearfully from indigestion or dyspepsia, when one single bottle of HERBINE would bring about a prompt and permanent cure. A few doses will do more for a weak stomach than a prolonged course of any other medicine. Price, 25 cents. Z. C. M. I. Drug Dept.

For all fresh cuts or wounds, either on the human subject or on animals, BALLARD'S SNOW LINIMENT is excellent, while for corns, bunions, warts, barbed-wire cuts and sores on working horses, it cannot be too highly commended. Price 25 and 50 cents. Z. C. M. I. Drug Dept.

OUR OWN STATE.

The branch office of the Deseret News in Ogden is at No. 40 Twenty-fourth street, where advertisements and subscriptions will be received. The News is delivered by carriers in Ogden every evening on the same terms as in Salt Lake City.

FIFTH WARD REORGANIZED.

John Watson Chosen Bishop, Heber H. Thomas and Thos. A. Shreeve Counselors.

James H. Douglass Chosen Sunday School Supt.—Ogden and Weber County Polling Places.

Conference was held yesterday in the Fifth ward with two meetings at 1 p.m. and 7 p.m. The meetings were very largely attended. There were present the presidency of the Stake, members of the High Council, and Stake superintendent of Sunday schools and members of the board.

At the afternoon meeting the ward was organized, the Bishopric being dissolved, caused by the death of Bishop Thomas J. Stevens, and his counselor, George W. Larkin Sr. was unable to attend to his duties on account of his weak physical condition, and Second Counselor Charles C. Brown, was unable to fulfill his position of late because of his business interests, but each of them was most honorably released, and highly complimented on their faithfulness during the past thirteen years as counselors to their departed Bishop, and for the great progress which the ward has made.

Elder John Watson was chosen as Bishop of the Fifth ward with Heber H. Thomas as first counselor, and Thos. A. Shreeve as second counselor and clerk of the ward.

The Sunday school was reorganized, a vacancy having been caused in it by the calling of Brothers Watson and Thomas to the Bishopric. Elder James H. Douglass was chosen as Sunday school superintendent, with Willard Slow and John W. F. Volker assistants. Each of the new officers was sustained by unanimous vote of the people. They have not yet been ordained and set apart, because none of the Apostles was present at the meetings today, but that will soon be attended to. At the evening session the Saints were addressed by some of the presiding officers.

Contagious Blood Poison.

There is no poison so highly contagious, so deceptive and so deadly as this. It is too often cured because all external signs of the disease have disappeared, and the doctor says you are well. Many persons have been dosed with Mercury and Potash for months or years, and pronounced cured—to realize when too late that the disease was only covered up.

Like Bogots Like.

Driven from the out again, and to their sorrow and mortification find those nearest and dearest to them have been infected by this loathsome disease, for no other poison is so surely transmitted from parent to child as this. Often a bad case of rheumatism, Catarrh, Scrofula or severe skin disease, an old sore or ulcer developing in middle life, can be traced to blood poison contracted in early life.

The Sin of the Parent.

Life for it remains smoldering in the system forever, unless properly treated and driven out in the beginning. S. S. S. is the only antidote for this peculiar virus, the only remedy known that can overcome it and drive it out of the blood, and it does this so thoroughly and effectually that there is never a return of the disease to embarrass or humiliate you afterwards.

SSS

mineral to break down your constitution; it is purely vegetable and the only blood purifier known that cleanses the blood and at the same time builds up the general health.

Our little book on contagious blood poison is the most complete and interesting ever published. It not only tells all about this disease, but also how to cure yourself at home. It is free and should be in the hands of everyone seeking a cure. Send for it.

PRIESTHOOD MEETING.

Apostle John Henry Smith was present at the Priesthood meeting Saturday. He spoke of the necessity of work among the young that they might become better acquainted with the principles of the Gospel. President John and Chipman and Bishop T. R. Cutler also addressed the meeting on timely topics of interest to the Saints.

DEATH OF MRS. J. E. HICKMAN.

Mrs. Ella Hickman, wife of Professor Joseph E. Hickman, of the Brigham Young Academy, died Friday evening after several months' illness, suffering from chronic complications with other ailments. She was the daughter of Dr. David W. Rogers, one of the early veterans of the Church, and Mrs. Ellen Rogers, both deceased, and was born in this city about thirty-four years ago. Mrs. Hickman was a kind and loving wife and mother, and the sympathy of a large circle of friends goes out to the family bereaved. The funeral will be held tomorrow (Tuesday) at 10 o'clock, from the Stake tabernacle.

PROBATE BUSINESS.

W. D. C. Markham, Joseph Markham and Ira M. Markham have petitioned to be appointed administrators of the estate of Mary Elizabeth Markham, deceased, of Spanish Fork. Joseph Aiken has petitioned for letters testamentary in the estate of J. Aiken, deceased, of Lake Shore. The heirs of John Leveson, deceased, of Payson, have petitioned for the appointment of David Kerr as administrator of the estate of Decent.

POLITICAL NOTES.

The Democrats have decided to receive election returns Tuesday night at their headquarters instead of at the court house. Sixty instruments will be put in at the headquarters of both parties and the reports furnished by the Western Union.

The Republicans claim Utah county by majority and the Democrats claim it by 49. Tomorrow the difference of opinion will be adjusted, in the meantime those interested can take their choice of the opinions above given.

A Great Medicine.

"I have used Chamberlain's Colic, Cholera and Diarrhoea Remedy and find it to be a great medicine," says Mr. E. S. Phipps, of Potosi, Ark. "It cured me of bloody flux. I cannot speak too highly of it." This remedy always wins the good opinion, if not praise, of those who use it. The quick cures which it effects even in the most severe cases make it a favorite everywhere.

LOGAN.

AGRICULTURAL COLLEGE NOTES.

Marriage of Miss Sarah Bowen and J. E. Hyde—Spraying Experiments.

Special Correspondence.

Logan, Cache Co., Nov. 4.—Saturday afternoon a match game of football was played on the college grounds, between the college team and the team from the deaf-mute school in Ogden. The older students are beginning to

use the works on art in the library.

under the stimulus of Miss Richards's quiet suggestions.

Mrs. J. W. Paris, who has spent part of the summer visiting friends and relatives in Shoshone, Idaho, returned last week.

Miss Sarah Brown, for many years instructor in sewing at the college, left Thursday for Boise, Idaho, where she is to be married to Mr. J. E. Hyde, formerly secretary of the A. C. board of trustees. Mr. and Mrs. Hyde will reside at Baker City, Oregon, where the gentleman is in the employ of the Wood Lumber company.

Each of the English classrooms has been provided with an International Dictionary, and a large consignment of academic dictionaries for the use of students has just arrived at the secretary's office.

Professor Chase spent part of last week closing his experiments in spraying apple trees. The apples thus protected bring in the market a much higher price than from unsprayed trees.

Hereafter the lady members of the faculty, as well as the gentlemen, are to address the students at school exercises. This was the practice until a few years ago, when the public speakers among the ladies had one by one gone to other fields. Old students of the college remember Mrs. Eddy as the first of the most effective speakers the faculty ever contained.

Senator Rawlins addressed the students at chapel Friday morning.

Mr. D. K. Jones, a graduate of the Massachusetts Agricultural college, and for some time an assistant in the experiment station at Amherst, has been chosen assistant chemist of the station, and will enter upon duty about Nov. 15.

Banker Routs a Robber.

J. R. Garrison, cashier of the bank of Thornton, Ohio, had been robbed of \$100 by a man who had been visiting in the bank. Mr. Garrison, who is a well known banker, was visiting in the bank when the robbery took place. He was able to catch the robber, and is now in the hospital recovering from his wounds.

CEGAR CITY.

BRANCH NORMAL NOTES.

Students' Society Program—Interesting Moot Court.

Special Correspondence. Cedar City, Iron Co., Nov. 2.—Miss Thomas has had charge of chapel services during the past week. She has given several readings from Longfellow, and has been very successful in her efforts to interest the students in chapel. She expressed herself as being highly pleased with the school and its work.

The enrollment is constantly increasing and is moving well towards the two hundred mark. Prospects are bright for the reaching of that number by holidays. Our students range in age from sixteen to thirty-five, and more than one man with a family is in attendance.

An interesting session of the Students' Society was held on the 26th ult. The program consisted of a piano solo by Mr. Barrett; song, Miss Fay Harrison; sketch of Helen Keller, Miss Ada Bryant; a talk on the growth and development of astronomical belief and knowledge, Mr. H. C. Hocking; and a recitation, Miss Blanche Sylvia Thomas.

The moot court, held on Thursday, was most amusing and instructive. The defendant, Mr. Milne, was charged with molesting a child and interfering in the hallways. Mr. Foster, normal school city attorney, conducted the prosecution, while Mr. Willard Coffey looked after the interests of the defendant. Justice Burgess, of Prosser, C. was on the bench. The defense demurred to the complaint, but the demurrer was overruled. The case then proceeded to trial with the result that, after a spirited fight, the defendant was found guilty as charged.

Tonight the students are to have their annual "Handshake." The instructors are providing the refreshments. A program has been arranged and the students are looking forward to a most pleasant evening. This is one of the school events of the year, as the students, coming from different sections, regard this as the best time and place to get acquainted, one with another.

A Fiendish Attack.

An attack was lately made on C. F. Collier, of Cherokee, Iowa, that nearly proved fatal. It came through his kidneys, and he got so lame he could not stoop without great pain, nor sit in a chair except propped by cushions. No remedy helped him until he tried Electric Bitters, which effected such a wonderful change that he writes he feels like a new man. This marvelous medicine cures backache and kidney trouble, purifies the blood and builds up your health. Only 50c at Z. C. M. I. Drug Department.

LEHI.

SUGAR FACTORY NOTES.

Stormy Weather Retards Beet Harvest—Shut Down for a Clean Up.

Special Correspondence.

Lehi, Utah Co., Nov. 5th.—On account of the recent stormy weather, the farmers of Salt Lake county were not able to dig their beets as fast as they would have wished to do so. It was deemed advisable to close the cutting station at Bingham Junction Friday night last, in order to let the farmers get their beets into the sheds, rather than ship them to Lehi.

The factory here closed down this morning for a few hours to have a general clean up, but will start up again about Tuesday evening or Wednesday morning. The work will continue until the beets are all sliced, which will be about the 1st of December.

The farmers are rushing in their beets from every district, most all of them having been ordered.

VERNAL.

EPIDEMIC OF MEASLES.

Some Fatalities and All Schools Closed—Indian Hunt.

Special Correspondence.

Vernal, Utah Co., Nov. 1.—This morning about 10 o'clock the little two-year-old daughter of Pres. R. S. Collett, died of pneumonia. She had been sick for two or three weeks
