Almost any day during the Centennial, a knot of physicians might have been seen gathered around the corner of Main street, in front of the Main Building, in which Benson's Caprine Plaster was exhibited. The scarcity of Diamonds, Gold and Silver, and the difficulties met with in securing them, is a sure indication of their value.  
Thus it is with a valuable medicine: Dr. Aug. Kaler's Celebrated German Pulmonic Balm, through the jealousy of rivals, has met with the most bitter opposition, and apparently almost insurmountable obstacles have been thrown in its way; but its opponents might as well try to change the course of the sun, sweep back the ocean with a broom or put out a prairie fire with a tear.

For the cure of Throat and Lung diseases, such as Coughs, Colds, Consumption and Bronchial Affections, it is unequalled. Its cures are truly magical. Ask your Druggist for it. The genuine bears the signature of Dr. Aug. Kaler, and has his name blown on every 75 cent bottle. Trial bottle, 25 cents.

## A CARD.

TRUNK MANUFACTORY, 55 First South Street, Salt Lake City, March 17th, 1879.

John C. Cutler Esq.,

Sir:—I write to you through these columns, as a man whom the law has vindicated, of the foul and groundless charge of burglary and grand larceny, made by yourself against me, on Monday, March 10th, 1879, thereby causing my arrest, search of premises, &c., thus causing me a vast amount of annoyance, expense and public odium, to the detriment of my welfare, character and reputation as a fellow citizen and tradesman.

I, therefore, in the name of common justice, a principle which should actuate all honorable men, call upon you, John C. Cutler, a fellow citizen and a tradesman, to make through the press, a public apology, for the wrong you have inflicted upon me, by this false accusation, and wherein the public examination held before Judge Pryor has succeeded partially, you by this act will accomplish more general in relieving the public mind of suspicion and dispersing the calumny, you have made against me, the undersigned.

## JOHN H. CLEMENTSHAW.

A Touching Death-bed Scene.  
"Oh, if I had only received it before, I am confident it would have cured me." These impressive words were spoken by a gentleman in the last stages of consumption, who, on his death-bed had received one bottle of HALL'S HONEY OF HOREHOUND AND TAR, and had taken only a part of it, when he found he could breathe with almost perfect ease; his cough had left him, but not having commenced the article in time, his constitution was broken, and he had not sufficient strength left to overcome the disease. Therefore, the public will see the necessity of keeping this article constantly in the house, ready for immediate use, as it is a certain cure for all Coughs, Colds, Hoarseness, Difficult Breathing, and all Affections of the Throat, Bronchial Tubes and Lungs, leading to consumption. Sold by all Druggists, and at CUTLER'S Central Medicine Warehouse, 76th Avenue, New York City, at 50 cents and \$1. Great saving by purchasing large size.

FINE'S TOOTHACHE DROPS cure in one minute.  
We call the attention of our readers to the advertisement of C. W. Stayner, Esq. In all matters pertaining to the securing of land his advice will be found useful, and his reliability will, we think, be appreciated in these days when there is so much rascality and dishonest practice among those claiming to be land agents.

## By order of the Committee.

**Educational Meeting.**—The meeting of the Salt Lake Educational Association convened on Saturday at 1 o'clock. After the usual opening exercises an address on the duties of trustees was delivered by Mr. John W. Snell. His ideas of education were of a sound practical nature, and he favored the particular study of the main common branches before attention was paid to the higher studies and dead languages. He expressed the opinion that vocal music should be introduced in schools, and he believed in opening and closing the day's study with prayer, recommending also that religion be taught, as from that important branch a more perfect knowledge of all true science could be obtained.

Mr. George J. Taylor in a very interesting and amusing manner, explained his method of teaching drawing. He first gave a short history of the art, and its antiquity, showing that the alphabet itself originated in drawing. His illustrations of his mode of teaching the art were explained with much clearness, and his statements concerning the utility of the study were well received, and are becoming generally admitted.

A. C. Smyth delivered an explanation of his manner of teaching music, saying that it was necessary to give reasons for every step, and that he found pupils improved faster when they did most of the singing themselves. The necessity of music in our schools is every day becoming more widely conceded, and the remarks of the gentleman and his recognized ability as a teacher, commanded the strict attention of the audience.

Messrs. Wm. Fuller, John T. Gaine and John W. Snell were appointed the committee to examine and report upon the merits of defects of the present school law.

The meeting adjourned for two weeks, to meet in the same place at the same hour.

**Cattle at Large.**—The season has now arrived when the roaming of cattle at large through the streets is being complained of by the citizens. An incident is brought to our notice which occurred in one of the higher wards of this city, in which an honest unassuming citizen mildly remonstrated against the nuisance to the owner of some of the trespassing cattle, and only received for his pains considerable abuse, with the admonition to mind his own business. Nearly every one who expects to raise his own vegetables has now got his garden prepared and the seeds planted, and it is high time that the ordinance in relation to the keeping of stock out of the streets should be enforced. We respectfully suggest that due notice be given to parties who are violating the law by their carelessness in this matter, and after that, we hope to see all trespassers upon the rights of their neighbors dealt with as the law directs.

**NOTICE.**  
NOTICE is hereby given that a meeting of the citizens of Bonneville Irrigation District will be held in the school house, on the 20th day of March, A. D. 1879, at 7 o'clock p.m., for the purpose of electing officers for the year 1879, and for a further complete and final action by the Trustees of Bonneville.

T. H. STEPHENS, President.  
JOHN PARKETT, Secretary.

It is fixed to take place in Independence Hall, on Monday evening, the 24th inst. B. Young in vocal selections; Professor Holmberger and lady in choice piano selections; Professor Kennicott will preside at the organ, and other eminent musicians, as well as vocalists, will combine to make the performance one of great merit. Solos on various instruments will be given, and the musical selections rendered by the combined and practiced orchestra will be from the most famous and worthy productions of the greatest musical masters.
