UNITED STATES CENTENNIAL COMMISSION - INTERNATIONAL FX-HIBITION, 1876 -Messrs, Robbin & Appleton, Agents for American Watch Company of Waltham have published, by petuission, ro" on Saturday evening. A mati- pamphlet of ferly pages, contain ing extracts from the Offici 1 Report on Horology, propared for it.

Commission Up Prof. James C Watson, Professor of Asthonomy at the University of Michigan. Member of the Board of Judges ion Instruments of Research and Precision, and Chairman of the Com-Chronometric Apparatus, at the Centennial Exhibition.

These extracts include full tables of the performance of all watches entered for competition, giving a

detailed and careful account of the thorough tests that were applied, Mr. Ben. Lusble, the gentleman- and by which the superiority of ly treasurer of the Forepaugh the Waltham to the best Swiss watches was definitely determined. This report presents in clear and indisputable terms, conclusions which are of the utmost import ance to all who would possess themselves of a trustworthy time

> The following quotation is made from page 26 of the Report:

"It is not the purpose of this report to make direct comparisons of the productions of different manufacturers. The reader who is curious in such matters will find, in

convulsions, WINNIE HAYNES CULMER, most cases, the requisite data under the heads of the report relating to the exhibits in question. But in order to convey to the general reader an idea of what the system of manufacture under consideration

has made possible in a newly-de-veloped industry in this country, it is proper to state here that the re-Sydney, Australia, twenty-three years ago, porter has compared the results of brethren with their families, num-bering, in all, thirty-three souls, who have been working during the summer with Eider D. W. Jones, clear beyond question that the

chronometers numbered 670,044, 670,082 and 670,095 (Waltham Watches) are altogether superior to any others exhibited." An Appendix contains extracts

from the address of M. Edouard
