Quarantine Case Compromised Upon the Suggestion of Judge Seatty at Boise.

PAUPER COMMITS SUICIDE.

Jack Way Shoots Himself Through The Head at the Country Poor House.

Special Correspondence. OISE, Idaho, April 5 .- The case, in which Utah and Nevada sheep-

men appealed to the United States district court for an order restraining state veterinarian, Dr. G. E. Noble, from enforcing the quarantine against the sheep from ' those states, came up before Judge Beatty. Monday. Arguments were heard on a demurrer to the answer of the defendant, Dr. Noble, and the demurrer] was overruled.

was overruled. Upon suggestion of Judge Beatty a compromise was reached, which makes doubtful the probability of the case now coming to trial. The compro-mise consisted in the appointing of a committee of inspection, whose duty it shall be to thoroughly inspect the sheep of Utah and Nevada for admit-tance into the state of Idaho, and up-on their decision would depend the disposition of the case whether the sheep from said states will be admit-ted or refused admittance. The com-mittee of inspectors consists of three persons, whose names are as follows: Dr. G. E. Noble, Dr. John McBirney and H. M. Rowe, the latter from Utah.

SHOT HIMSELF.

At the county poor house yesterday, Jack Way, an old-time miner and prospector aged 66 years, committed suicide by shooting himself through the head. The cause attributed to this the head. The cause attributed to this rash act is despondencey and suffering from bodily aliments. He was alone in his room at the time, but aid was at his side immediately after the report of the gun was heard by his compan-ions in the adjoining room; but the wound was fatal and life soon became actions

The story of how a \$10 investment earned for a Boise man \$1,700 in two days can be told in a very few words. M. H. Barber made a \$10 deposit to bind the bargain in the purchasing of the McClellan property, near Riverside park, for \$6,000. Mr. A. B. Kohney also wanted the property, but 4nding that Mr. Barber had already secured the option upon it, Mr. Kohney went to him and paid him the sum of \$1,700 to his option, then turned and bought the momenty for \$6,000. Mr. Barber had already secured the option upon it, Mr. Kohney went to him and paid him the sum of \$1,700 to his option, then turned and bought the property for \$6,000. Mr. Barber had already secured to the state the handsome sum of \$31,000. The average price per area was \$33.50. One 80-arer tract near Uniontown sold for \$57 per acre. The lowest price paid was \$16. Work upon the new capitot building find weather is being enjoyed. CITY COUNCIL SHAKEN UP. \$10 EARNED \$1,700 FOR HIM.

CITY COUNCIL SHAKEN UP.

There was a shaking up in the city affairs tonight when seven of the ap-pointive officers were dismissed by unanimous vote of the council. Those unanimous vote of the council. Those whose heads were taken off were J. A. Beal, city clerk; Charles M. Kahn, city attorney; W. F. Lockee, police magistrate; M. S. Parker, associate police magistrate; Zenos M. Vaughn, city engineer; Charles H. Irwin, con-sulting engineer and George Holstead, named master

pound master. No reason was assigned for the ac-tion taken, but it arises from numer-ous causes which have been operating for some time. There has never been harmony between the mayor and the council. The latter has been deter-mined that reforms promised the peo-ple shall be maintained and in many other ways it has been out of har-mony with the mayor from the begin-ning of the administration. pound master. ning of the administration

He has the power of nominating and the council must wait for new nominations. It is thought the mayor may again name the men who have been dismissed, but that is not certain. Clerk Beal has been on the black list with the council been on the black ist with the council because of drunkenness. He was once suspended by the police committee, but was reinstated by the mayor. Magis-trate Locke is a protoge of the mayor and devotes much of his time to the theatrical enterprises of the latter. He has never been satisfactory to the council. He came over from the last administration, the mayor refraining administration, the mayor refraining from making a new nomination of him as the council would have rejected it.

She also boasts of a bank, church house, good up-to-date newspaper and printing office, numerous places of busi-ness where the people can get goods as cheap as at any other point. Sugar City is a pretty attractive place. The streets are all graded and on either side during the summer months are streams of fresh pure water, and the streats are all shaded with trees, which makes living abreable and comfortable. The town is experiencing a good, steady growth and the population of about 800 souts will soon be doubled if the pres-ent growth counts for anything. The buildings are all substantial and up-to-date, and many of the residences are large and handsome. The beauti-ful spring weather this part of the country is now experiencing has brought the people out of doors and the spring cleaning is in progress. Already some of the lawns and gardens show the mark of labor, which adds to the efforts of the weather man to make the surroundings beautiful. Some of the residences that have been under con-struction are completed, which makes some of the street more complete. On Austin avenue W. H. Richardson and John R. SUGAR CITY CONFIDENT OVER COGNTY SEAT FIGHT.

Special Correspondence.

S UGAR CITY, Fremont Co., Ida., April 5.-"County seat" is still the main topic under discussion in these parts. The men who have been canvassing for Sugar City have most all sent in their reports and the results all sent in their reports and the results have been very gratifying; and if the voters come to the support of Sugar City as well next November as they have in signing the petitions, there will be no doubt as to the outcome of the present fight. The voters are more free to give opinious than before and the sentiment is still for this town, as those who study the question and look at it who study the question and look at it from a business standpoint can see that Sugar City is the most central place, and can give to the peope what other towns that are in the fight are unable to give. Though Sugar City is young, yet she has the advantages of towns manys times her age. She has the fin-

nel to be driven, and it is furnished with a strong and sharp cutting edge at the front. This cylinder is forced forward by hydraulic rams. There are six arms, all radiating from a heavy center shaft. To these arms are fixed strong chisels, and the arms are made to revolve by an electric motor at the back.
