## PAYMENT ON CONDITION OF THE DIXIE BOND STOCK MARKET Big Advances Recorded on Several Certified Check and Deeds Placed Stocks This Week. in Escrow Today.

TESORA JUMPED | TODAY. AWAITING COMPANY'S SEAL.

#### Sold jat 50 Cents - Daly-West Very Lower Mammoth Looking Well-Strong-Johnny Active-Silver Shield Falling Off.

Business closed on the exchange today with the sale of 18,660 shares for \$15,583. The sales for the five business days of which brought the sum of \$102,349,90. South Swansea and Tesora. A marked at which 10 shares changed hands to-Alax, which stood around 80 on day. Monday has since moved up around 86, while South Swansea has sold up to \$1.40 during the week. Tesora put on a spurt today and sold up to 50, after hanging around to all the week. Sun-shine is all much stronger as the result of the closing of the deal for the sale of the property to Eastern parties. The stock opened at 37 today, but it weakened to 30. Star Con. was quite active at a little better than 75, while Little Chief sold down to 15 and closed at 15%. Johnny of Stateline made its first sale today at 50, after being held at a much higher figure for some time past Grand Central was active around \$6.02½, while Lower Mammoth opened at \$3.01, and after selling up to \$3.10, weakened to \$3.03 on the closing sale. Mammoth was active around \$2.21 May Day was very firm today. A sale was made at 48 today as compared with 44%, the price of the highest sale on Monday last, Sacramento remains practically unchanged around 38, as does Northern Light at 5, with assessment paid. Ontario remains firm around \$7.60, while Swansea shows a weakening tendency. Dexter is weaker with 96 bid. A serious decline is also reported in Silver Shield during the past two weeks. On Monday it stood around 21, but it has since fallen to 14, the price at which 1,500 shares changed hands today. Con Mercur has been very active this week around \$3.20, though a decline to \$3.15 is recorded to-day. Daly of Park City is also stronger today, selling up to \$1.90. The quotation of the stocks at the close were as follows:

Ringham Copper Company's Operations-Items from Camps. A certified check for \$55,000 was today

placed in escrow in Wells, Fargo & Co.'s bank with the deeds of the Dixle Copthe week amounted to 221,385 shares, per company's property, pending the arrival of the company's seal from St. The most notable changes during the George. Owing to this delay the trans. week are recorded of Daly-West, Ajax, fer of the property to the St. George Copper company will not take place unadvance has been made by each of the til Monday morning, but at that time above stocks. Daly-West sold round it is expected that the original bond \$31.00 on Monday, but in the past few will be paid off. Heretofore the St. days it has climbed to \$33.00, the figure | George Copper company has been operating on this bond, no title to the property having passed into its hands. During October and December of last year two payments of \$5,000 each were made on the bond, which was origi-nally secured for \$65,000. This left a balance of \$55,000 which will be wiped off on Monday. This sum will then be distributed between the men forming the old Dixle Copper company, who have stayed with the company, who have stayed with the proposition since the discovery of the claims in 1884. Among the interested parties are Seth A. and John Pymm, R. Lund, James Andrus and the Foster estate. Six men originally located two claims named the Apex and Morning Star. From near the surface in 1884 a shipment of several tons of ore was extracted, which assayed 52 per cent copper. Since that time it has been de-veloped to the depth of 600 feet and the property is improving as greater

depth is obtained. The payment of the above sum gives the St. George company a clear title by which it is able to transfer the property to the Eastern parties to whom it was recently sold by Willard Snyder for \$200,000 and other considerations.

#### AT LOWER MAMMOTH.

#### A Number of Men Inspected the Mine Yesterday.

The Lower Mammoth was visited yesterday by a number of people who, as far as can be learned, were all well pleased with the outlook. Among those who returned last evening were Simon Bamberger, James Chipman and M. W. Taylor, the well known broker. Very little change is reported in the property Very httle change is reported in the property owing to the delay with the other half of the compressor. It is now in the camp, however, and if the roads are not impassable it will likely be hauled to the mine and put in place during the coming week. While connections are coming week. While connections a being made Mr. Bamberger expects get air from the Mammoth which will prevent the men losing any time. Noth-ing is now being done on the 700 level and sinking has ceased for the winze in the winze from the 800. The shaft is now down nearly 70 feet below the The management is running an 800.

Hundreds of good housekeepers who have used Three Crown Baking Powder, Extracts and Spices will use no other kind as they know the brand "Three Crown" guarantees them a pure and good article at a lower price than the imported goods would cost. Ask your grocer for the "Three Crown" brand the next time you order goods in our line.

### BUSINESS NOTES.

The week's business has been quiet as is to be looked for at this season, February and March being the dutlest months of the year. Bank clearings for the first two weeks of February showed a marked advance over the corresponding period of last year, but dur-ing the latter part of the month the clearings have fallen so that the month will probably average about the same as last February. There has been a big demand for Utah Sugar at \$16.25 today. Broker J.C. Cutler, in his weekly circular, says:

There is a good undertone to busi-ness and it is believed that spring trade will be good. The real estate market is quiet, but it is stated that nearly every house in the city for rent is oc-cupied. The mining stock market has been active and many of the stocks have participated in the sales.

The local commercial stock and bond market has been rather quiet during the week. There have been a number of sales of different socurities, but all sales have been small. Cunnington Co., stock dropped to \$102. Rocky Mountain Bell Telephone company stock was of-fered at \$97.00 per share. Utah Sugar Sugar company stock was sold in small blocks at \$16.00 and \$16.25 per share without stock dividend, and brokers and finan-cial men believe that the stock will advance to \$17 per share within a short time, before large blocks are loosened up. Partles from Utah county say that there is plenty of snow in the mountains to insure good crops the coming season, and the beet growers are feeling elated over the outlook. The demand for money is fair, but the

deposits in the banks are large. Collections are somewhat slow, The latest quotations are:

uprais from the sure better air and is encountering some, good ore. The company had five cars of ore on the market today which are expected to run very well in silver.

## STARLUS PROPERTY.

#### Is Being Pumped Out Preparatory to Inspection by Eastern Parties.

After over a year's shut-down the Starlus group is again showing signs of life, says the Bingham Bulletin. George E. Lee, in charge, has a half-dozen men at work pumping out the incline shaft, to have it ready for the inspection of Eastern parties, who will arrive in a day or two. We understand the Star-lus is likely to soon be under new control, in which event capital will be forthcoming to at once install a plant for sinking to at once instant a pust-for sinking the incline to 500 feet—pres-ent depth being 200 feet. At the same time, work will likely be resumed in main tunnel, which several years ago was driven some distance beyond the incline, then discontinued on account of bad air. The last work in it fol-lowed a streak of high grade copper pyrites. Little or no timbering was done and some caving has occurred. Altogether the Starlus presents one of the most promising layouts for welldirected operations of any property in West Mountain district; but a few hunwest Mountain district; but a few hun-dred dollars added to what has already been expended might as well be thrown down a rat hole. It looks like a great property, and should be handled as such.

## BINGHAM COMPANY'S MATTE.

Fifteen Cars Sent Out Today - Second Stack to be Fired Monday.

The Bingham Copper and Gold company's new smelter is giving an excel-lent account of itself, which will go a long way towards inducing capital to long way towards inducing capital to enter the famous old camp from which its supplies of ore are drawn. Another lot of 15 cars of matte were sampled and passed to the Germania smelter to-day. This output will be increased next week when the second stack is to be started up. This will be done Monday or Tuesday and will mean an output of two cars of matte per day. two cars of matte per day.

SPURT IN TESORA.

#### Due to a Large Buying Order from Boston.

Holders of Tesora stock were surprised to see the violent reaction in that security on the exchange today. Near-ly 8,000 shares changed hands today at by 8,000 shares changed hands could ut 50 cents a share. A few days ago the stock sold as low as 37. No change is reported in the mine, which is giving an excellent account of itself. The spurt was due to a big order from Boston on which D. H. Perry, Jr., purchased sev-eral thousand shares. Work is to be pushed on the new mill and the out-look for Tesora reaching \$1.00 per share is said to be very good.

Items from Bingham.

In its weekly review of the camp the Bingham Bulletin says: A spring thaw this week has left

## Blue Jacket Improvements.

Mr. French, who is in the employ of the Blue Jacket company at their cop-per claims in the Seven Devils country, says their company has taken out for-ty carloads of 40 per cent copper ore during the past season, and will add \$100,000 improvements to their plant during the coming year. Mr. French thinks the Seven Devils country will develop into one of the best copper sec-tions in the United States. The Blue Jacket company has organized into a stock company, with ample capital to push development work. They have Mr. French, who is in the employ of push development work. They have been shipping from Welser, but a branch railroad has now been built up the Welser river to a place nearer the mine.

#### MINING NOTES.

The Carisa of Tintic reached the market today with 5 cars of ore. The Grand Central of Tintic reached X XX

CLEMENCE:

the market today with 11 cars of ore." Two cars of copper ore were on the market today from the Horn Silver of Frisco.

Manager McLaughlin of the Quincy at Park City has returned from his trip. to the coast.

A car of copper bullion weighing 60. 100 pounds went East today from the Highland Boy Smelter.

The Taylor-Brunton sampler reported 21 cars of ore from Tintic, 2 from Bing-ham, and 2 from Frisco today.

Manager Berry of the Creole property at Park City reports a continual im-provement at the mine. Bunches of good ore are being encountered in the northeast drift on the 265 level, and it looks favorable for the early tapping of a body of pay ore.

The Bingham Bulletin records 3 accidents during the past week, 2 of which occurred in the Highland Boy mine and 1 in the Bingham Copper and Gold company's property. The first mine and 1 in the burger. The first Gold company's property. The first was caught by running ground, the sec-ond was struck by a falling rock and the third approached a point where some shots were going. The names of some shots were going. The names of the three men are John Brazter, James Trembath and John Muso.
