

Thursday, Oct. 12, 1888.

FLOATING FRAGMENTS.

On account of the wires being down east of Laramie, there is a deplorable dearth of telegrams to-day.

The interior of the Seventh Ward School-house is being painted, calcimined and otherwise improved and beautified. It is an excellent building.

Some unknown person left a lot of tinners' tools and tinning forks on the premises of Mr. Joseph Horne, 14th Ward, the other night. He would be pleased if the owner would call and get these miscellaneous articles.

The Ogden Herald says: That town's prospects for iron works are steadily improving. The ironmaster is on the road from Pittsburgh hither, the necessary capital is deposited in a New York bank and everything works fair.

George W. Telford, formerly of Silver Reef, Utah, heard that a rumor was going that the ironmaster was dead and buried. He lately wrote from Sonora, Mexico, in relation to the report, saying: "I am positive that it is a mistake."

Watermaster Wilcox is engaged in cleaning out all the street crossings and drains. He is anxious for the people to follow suit and clean out the regular ones, and thus prevent overflowing of the streets, especially in winter. A good notion.

The Silver Reef Miner says: From private sources we learn that an English expert representing large capital, is expected here on or about the 10th inst. He will no doubt meet with a surprise to see the sandstone yielding bullion at the rate it is being turned out of our mills.

Last Monday night Elder Robert Ure, of Bountiful, who left on a mission to Great Britain on Tuesday, was visited at his home by about thirty personal friends, who presented him with a purse of a hundred dollars. He felt genuinely and pleasantly surprised.

On Tuesday morning, Peter McFarlane, a brakeman on the C. P. Freight, brought a lamp in too close proximity to an oil tank on the train. The gasous emanation from the oil exploded, throwing him a distance of nearly ten feet, and burning him badly. He reached Ogden the same evening, where he is receiving medical attention.

The bicycle business is receiving some attention here. It may be interesting to some of the enthusiastic devotees of the two-wheeled horse, to know that the more timid lovers of that kind of dry land sailing in England are beginning to take more to the tricycle, which, although not such a swift machine, is more safe, and the art of riding on it is more easily acquired.

LOCAL AND OTHER MATTERS.

MISSIONARIES.

Those Elders who were called on missions to the States and Europe at the late Conference, and who did not leave for their fields of labor on the 11th inst., will take notice that the next company will take their departure from Salt Lake City on Tuesday October 25th, at 7 o'clock a.m. Instead of November 1st, as at first intended.

Those Elders called for the Sandwich Islands and New Zealand will leave Salt Lake City on Monday October 17, at 3.40 p.m., to be in time to sail from San Francisco on the 23d.

JOSEPH F. SMITH, F. D. RICHARDS.

Feeling Better.—We are gratified to be in a position to state that Apostle C. C. Rich is at least "holding his own." A dispatch received yesterday by his wife in this city stated that he had passed a good night and was feeling better.

Business.—By conversation with gentlemen connected with prominent houses in this city we feel safe in expressing the opinion that the amount of general business done last week was greatly in excess of that of the same number of days at any Conference time in the history of Salt Lake. The prospect is good for an unusually brisk fall trade, which will probably continue until Christmas is over.

Grading.—To-day, Second South Street, adjacent to the Elephant corner, was in process of being graded. The ground being of the hard baked kind, a plow, to which were attached four yoke of stalwart oxen, was employed in breaking it up. In addition to this strong motive power, pressure was brought into play, produced by some of the workmen sitting on the plow while it was being dragged through the dirt.

Taken Ill.—We regret to learn that Mr. John Anderson, of the 13th Ward, was taken suddenly and seriously ill yesterday. We are pleased to know that he has been feeling somewhat better to-day, having regained consciousness, which he lost for a short time. Brother Anderson is an old member of the Church, having embraced the Gospel when it was first carried to Edinburgh, Scotland, by the late Apostle Orson Pratt.

District Court.—In the Third District Court this morning the trial was entirely occupied by the trial of the case of the People, etc., vs. Henry Shiels, for assault with deadly weapons, etc., alleged to have been committed at Alta. The jury returned a verdict of not guilty.

At the afternoon session of the Court, the People, etc., vs. George McKinnay, assault with deadly weapons, etc., alleged to have been committed at Park City, was called for trial.

An Improvement.—The old tobacco-stubbing plant, which has long disgraced that portion of the south side of First South Street that is situated between the Kimball and Lawrence buildings and the Market corner westward, is being abolished. In place of it there will soon appear a new asphaltum stretch of walk. The next thing in order would be a block of buildings suited to the sidewalk. The existing row of structures is becoming a trifle too antique for the business centre. A little modernizing would help the matter amazingly.

Terrible Accident.—We are indebted to Mr. Alexander Fortie, for particulars, by mail, of a fatal accident that occurred near Heber City, Wasatch County, on Saturday evening, October 8th, by which a young man named Samuel Ogden lost his life within a few hours. He had been working for McMullen & Co., at their saw mill, in Daniel's Creek Canyon. The hands at the mill left about 4 o'clock, being Saturday afternoon, and he was left in charge of the mill. It appears by the evidence that he was alone at the time, but when last seen, previous to the accident, he was cleaning a gun, and must have loaded it heavily. In the act of firing it off it burst, knocking out one eye, and cutting his cheek and nose, and otherwise dreadfully injuring his face. He was conveyed to Heber City, and surgical aid procured, but he died at half-past one on Sunday morning.

He was a young man well respected, had no relations living there, and although he had been working between two and three months at the saw mill, no clue could be obtained that showed where his relatives lived, excepting the testimony of a person who stated that he heard him say his father lived south, he believed it was Spanish Fork.

An inquest was held on 8th day, October the 9th, at the Court House, Heber City, before Henry Clegg, J. P., when the following verdict was rendered: "That Samuel Ogden came to his death by the accidental blowing out of the breech pin of a gun, held in his own hands."

Mrs. Ferguson Heard From.—By courtesy of Mrs. E. B. Wells we learn something of the movements of Mrs. Ellen B. Ferguson. As soon as Mrs. Isabelle Beecher Hooker learned that she was in the east she sent her an invitation to visit her at her home in Hartford, Conn. At that place she was invited by the Rev. Mr. Kimball, of Unity Church, to take part, in connection with Mrs. Hooker, in the Garfield memorial services, on September 28th, which she did, speaking twenty minutes, alluding in the course of her remarks to incidents of the late President's visit to Utah.

At the residence of Mrs. Hooker, Mrs. Ferguson met with a number of notable people, among whom was Mrs. Harriet Beecher Stowe, author of Uncle Tom's Cabin.

Mrs. Ferguson has been invited to the Woman's Congress, to be held shortly at New York, where she will read a paper entitled, "Can Woman Organize," in which she will give a description of the Relief Societies and Young Ladies' Improvement Associations in Utah. It is probable that Mrs. Zina D. Young will also attend the Congress at Buffalo.

Astronomical.—This year has been noteworthy for the unusual number of strange heavenly bodies that have come within sight of our earth.

Professor Barnard, of Nashville, Tennessee, discovered a bright telescope comet on the 19th of last month. No tail was apparent. Professor Swift, of Rochester, N. Y., discovered the expected Encke's comet on the 20th of September. Four comets are now visible with a good telescope, known to astronomers as B. C. D. and Encke's.

A mysterious star, called the Pill-grim, is expected by astronomers to appear before long. It appeared in the years 945, 1294 and 1572. In 1572 it is said to have been brighter than Jupiter; "Such was its brilliancy that persons were able to detect it at noon in a clear sky, and at night when the sky was so overcast as to hide all other stars." If it appears it will probably be visible several weeks.

A very bright star can be seen each night in the north-east horizon. It rises about 11 o'clock. Its appearance was unexpected to our local astronomers, so far as we have ascertained. One who gives close attention to the science states that it is not described on any of his maps.

Bishop Woolley Ill.—The hosts of friends of Bishop Edwin D. Woolley, of the Thirteenth Ward, will regret to learn that he is lying seriously ill. All last night, up till about three o'clock this morning, he was so low that there appeared but a very small chance for recovery. At that hour, however, he rallied, and has been a little better since. He is, however, in a state of great exhaustion. Still there is yet some hope entertained for his getting better.

It is about two weeks since Bishop Woolley was brought down with his present attack. We understand the attending physician, Dr. Benedict, states that there is no special local disease, but that the trouble lies in a general debility of the system. The patient has been a most assiduous and industrious worker all his life, and is now about seventy-four years old. He was visited last evening by President Woodruff, and by President John Taylor this morning.

Ancient Relics.—The discoveries of antiquities on this continent harmonizing with the historical statements of the Book of Mormon are rapidly multiplying. Dr. de Plongeon, of Mexico, has lately made some interesting excavations in the ruins of Uxmal, near Merida, Yucatan. He has found a well-preserved bust of the god Uay, with an inscription in the Mayan language, stating that the god is Isaac, i.e., necessary revealer, or Messiah. Near the bust was an altar with ornamental signs. Other articles in the ruins bear a striking resemblance to those discovered at Heliopolis and Memphis, and he believes he has traced Chaldean words in the inscription on a stone forming part of a freemason's lodge of the first class. He has placed dynamite bridges round the ruins in order to prevent the Indians from coming to them.

A CARD.

The family and brothers of Edward J. Hall, deceased, wish to return their thanks to the speakers, singers and friends for their kindness at the funeral yesterday.

JAS. HALL, DAVID HALL, In behalf of the family.

The Emigrant.—The lovers of sensation and fun can be feasted by attending the Theatre to night, when Mr. Geo. C. Staley, supported by home actors, will present the new play of "Carl the Emigrant." The piece has had very successful runs in other places, and will, doubtless, please many theatre-goers here.

Accidentally Hurt.—The Ogden Herald learns that, on last Monday, an orphan boy, Thos. Kay, from Mona, 90 miles south of Salt Lake City, who was working for Mr. S. P. Eyring, eight miles southwest of Soda Springs, on the Oregon Short Line, was shooting ducks with an old double-barreled shotgun, when one of the rusty barrels burst and the contents were emptied into the boy's left hand. The lad was brought down to Ogden yesterday morning, had his wound dressed and then proceeded to his home at Mona, Juab County.

A Deplorable Case.—Some time since we noted the fact that a young man named James Thomas Edwards, of the 11th Ward, had his back hurt by a falling tile while working on the Denver and Rio Grande Railroad. An inquiry made last evening discloses the fact that he has been prostrated upon his bed, at his father's house, ever since his arrival from the scene of the accident. He is hopeful and cheerful, and has improved so far as to be able to make a slight movement of his lower limbs. The physician attending him expresses the opinion that he will yet recover their use. We are, however, exceedingly doubtful on this point, as it is very evident that the unfortunate youth has received a very bad hurt in the spinal column. The lower portion of his body remains as yet devoid of sensitiveness. Young Edwards is about 20 years old.

Curtailed Mail Facilities.—The Postmaster General seems very much in earnest about the establishment of an economic policy in the running of the United States mails. The reaction in this direction, caused by the Star route developments, is likely to be too strong. While it is commendable to render the postal service as far as practically self-sustaining, it should not be done at the expense of the people's convenience. We observe that a number of post-offices in the southwest particularly, are being abolished, and it is probable that other changes of this character will follow. Some of the new settlements in Arizona have been placed at considerable disadvantage from a suspension of postal routes, especially a number of those towns that are situated on the Little Colorado. It is a pity that the settlers should be deprived of postal privileges on account of the alleged defalcations of officials and contractors. The people should protest against any permanent curtailment of their mail facilities, which are of special importance to people living in semi-isolated localities.

Preserved Flowers.

As I had charge of all the flowers from Elder Orson Pratt's funeral, and as there are a great many more than the family desire preserved, I will, by permission of the family, spare the rest preserved for those of the friends who wish to get some loose, or made up in bouquets, etc. Please call personally at my residence and give me your orders.

Look the First Prize (Silver Medal) at the Territorial Fair of 1881, for Preserved Flowers. O. F. DUE.

DR. B. B. CLAWSON.

Has arrived from the East, and his office is now open for patients. d270 84 sw 8
