Quite a jump occurred in Manhattan stock yesterday afternoon on news that copper stained rock had been encountered in the tunnel. W. C. B. Allen tel-ephoned out in the evening and verified the report. He says he does not anticipate that the vein has been cut. Ac-cording to surface indications it is 250 feet further ahead. Mr. Allen says the tunnel is probably running near a fis-sure. The property lies west of south from the Lower Mammoth, ROYAL COPPER CO. Filed Certified Copy of the Articles Today. Rich in the Greenhorn Mine.

Joseph E. Price came in from the Greenborn mine, in the Buckskin distriet, last Monday, says the Dixle Faltrict, last Monday, says the Dixle Fal-con. Development work has been in process for several months. A shaft has been sunk 50 feet in the ore body with a drift of 120 feet, and a crosseut is now being made which is expected to tap the ore body in a few more feet. The ore is a carbonate; very rich and easily worked. On account of its great distance from the railroad no altempt with he made to ship the ore out frid will be made to ship the ore out, by a leaching plant will be started to re duce the ords. He returned to the mines Wednesday with help to continue the work. This is another of the mines which within a few years and with railway connections will make Southern Utah and Northern Arizona the rich-est mining section in the country.

### Big Gilsonite Vein Found.

Another big vein of gilsonite was discovered recently by Lawrence Glines, Laurite Sorenson, John Glines and Ernest Eaton, on their trip to the White river country, about two weeks ago, says the Vernal Express. They traced the vein which they says is from two to three feet wide, for several miles, and made six locations, but they run out of grub and were forced to return to Vernal. John Glines and Ernest Eaton immediately returned to the scene of the discovery with enough grub to last them three weeks, with the intention of tracing the very and making more locations. The discovery is about 25 miles from Ouray and one and a half miles south of White river. It is needless to say that the boys think they have got the world by the tall and a down hill pull and visions of brown stone mansions, etc., are con-stantly floating before their eyes.

#### Delinquent Advertising.

Considerable vexation was expressed by a well known mining man today because of mining companies advertising their delinquent sales in a daily ing their definquent sales in a daily publication that is seldom seen except by those riding on street cars or trains. Most of the men who own slock in smaller companies look in the daily pa-pers for definquent advertisements and many of them never think of looking through the sheet in question. For this means of shores of shores reason a great many shares of stock are said to have been sold at delin-quent sales. Passing over the fact that a great deal of advertising is given to some of these smaller companies in the mining columns of the daily papers it would seem that the by

stockholders should be protected b, having assessment notices in a con spicuous place.

## Suit Begins Next Month.

Regarding the South Swansea-Four Aces suit L. E. Riter said today that the company is practically ready for the company is practically ready by the fray which is expected to come up about the 15th of March. The direc-tion of the work for the South Swan-sea will be in the hands of J. W. Neill, while Messrs. Harkness, Willson and Palmer wil appear for the Four Aces. Mr. Riter says the South Swansea wants the case settled and it will not be liable to go over another term.

## CON. MERCUR TALK.

#### A Reason Assigned for Passing of the Last Dividend.

The Boston News Bureau says: Con-solidated Mercur will not pay a divi-dend before April, when the regular quarterly dividend will be resumed. I was told by one of the old Mercur stockholders that the actual reason for ing to locate the other half of its com-Reports from Eureka state that a good body of lead ore has been en-countered in the north drift of the Lit-tle Chief at that place. passing the dividend was that the com-pany was in debt for \$120,000 to Capt De La Mar for supplies at Golden Gate The directors, with one exception, wanted to pay this before they paid any dividend. In addition it is necesany dividend. Mining companies are trying to decide on the lines through the disputed ore any dividend. In another it is neces-sary to put in three reasters which will cost the company \$75,000. In regard to the ore in the mine, there is a large quantity of sulphide or reasting ores in both the Mercur and Golden Gate, The suit to decide the ownership of the Burning Moscow property in the Star mining district came up yesterday and 1,200 tons a day of this character of ore could easily be produced. The oxidized ore is getting somewhat ex-hausted and is hard to find in large quantities. The roasting capacity now is 400 tons per day and about 300 tons per day of oxides are being used. When the new roasters are put in, 800 tons per day of sulphide and 200 tons of exides can be used, giving a total of 1,000 tons per day.

#### Red Wing Vein is Large.

erty. Messrs. Curtis, Orem and Kidwell, of the Red Wing directorate, returned from Bingham last evening after exnial Eureka will build a smelter. Man-ager Allen said today that the com-pany is considering the cheapest methfrom Bingham has even ing anter the amining the Red Wing which is giving such a good account of itself these days through the Teachnor lease. Mr. Cur-tle said today that fully a 9-foot breast work in sight there vesterday. od of been decided upon, its said today that fully a 9-foot breast of ore was in sight there yesterday. The ore is said to be running better in lead and the outlook is extremely en-couraging. In the Williams lease a 2-foot streak of pay ore is in sight. The company is contemplating starting work with the royalty supplied from the recent shipments of the leasers. ent employed there and it is expected that it will be open to traffic about April 1st.

#### Native Copper from the Spy.

Some very fine specimens of native copper may be seen at the office of the Carisa Mining company. They were

The documents have \$6 worth of revenue stamps on them, which places the property's real value at \$6,000. is understood the transfer is made in the nature of a gift.

## SCHOOL HOUSE BROKEN INTO.

Some time last night the Whittmen school house on Fifth South, between West Temple and First West, was broken into by a gang of young hoodlums, who, apparently, were bent on doing all the damage they could. After ringing the bell for an hour or so, they stole the bell cord, and also a number of books. The matter was reported to the police, and they are looking into the case,

For a Cold in the Head Laxative Bromo-Quinine Tablets.

# PEOPLE WHO ARE PASSING

Sam C. Park, cashier of the Bank of Commerce, returned to Salt Lake yes-terday from a brief trip to California. While in San Francisco Mr. Park saw Joe Lippman, who stated to him that he was no longer connected with Senafor Kearns, and that his visit to Callfornia was in the interest of some oll properties in which he and other Salt Lakers are interested. Mr. Park had an agreeable trip and says that Miss had Park is very much improved in health.

J. P. Gardner returned to the city yesterday from a very successful busi-ness trip of five weeks in New York.

R. W. Hanson, editor of the Railway and Mines Gazette of Denver, is in the city. Editor Hanson is here gathering data and photographs for an illustrated adition of his magazine which will deal especially with the resources of Utah.

R. C. Lund, of St. George, arrived in Salt Lake yesterday and is staying at the Cullen. Mr. Lund is a member of the state board of equalization and is here to attend the meetings of the board. In speaking of the southern portion of the State Mr. Lund said: "The snowfall is unusually heavy this year and even so far south as Arizona snow has fallen. We suffered some from the severe cold, the high winds, and the snow storms, on our way up from Modena and in places where we found the snow over three feet deep we had to get additional horses. It took us four days to come sixty miles by stage. There will be plenty of water next summer down around St. George." Dr. F. G. Hill, wife and child left for

San Francisco today. John Hendrickson, of Nephi, is

A. H. Thompson and wife, of Ogden, are staying at the Kenyon.

William Langton of the People's Cash store has returned home from a two week's business trip to Omaha and other cities.

UP-TO-DATE.

**Probate Matters.** Jimima Cecilia Hanson, widow of

Jimima Cecilia Hanson, whow of Joseph Hanson, deceased, has peti-tioned the district court to be appoint-ed administratrix of the estate of her husband. The petition says Mr. Han-son died in this city, on the 4th of this month, leaving an estate valued as fol-lows: Real estate \$1,439; personal property consisting of sheep, cattle, horses and cash, amount to \$4,923.70, total \$6,362.70. The heirs of the estate are the petitioner and eight children whose ages are given as running from 3 up to 21 years. The executors of the will of the late

fendant will endeavor to prove his side

of case.

John Sharp have filed their annual ac-count of the estate of the deceased, with the county cierk, which shows re-ceipts from the income of the estate for 1900, \$7,658.43, and disbursements amounting to \$5,048.92, leaving a bal-

ance of \$2.611.51. The appraisers of the estate of Antoinette Schauffelen, deceased, today filed their inventory and appraisement of the property belonging to the estate, which is given as follows: Personal property \$1,368.50, and real estate \$18,000, making a total of \$19,368.50.

MAY FIGHT IN DENVER.

Otto C. Floto of the Post Hopes to Secure Jeffries-Ruhlin Match.

AND RECORDS A Denver, Feb. 15.-Otto C. Flotto, man-ager of the Colorado Athletic associa-tion, hopes to secure the Jeffries-Ruh-lin fight for this city. He has tele-graphed Manager Brady an offer to post a guarantee of \$10,000 to bring off the event here on one data in the off SPECIALTY. he event here on any date in March that may be agreed upon. Should the offer be accepted, a roofless arena in which 15,000 spectators can be accom-modated will be constructed especially

for this occasion. The senate bill to repeal the Cannon prize fight law has been defeated in the house.' The effect of the repeal would be to wipe from the statute books all legislation on the subject, leaving Colo-rado with no laws at all concerning pugilism. On this showing many members voted to strike the enacting West Morning Glory Mining C

clause from the repealing bill. The Cannon law is now before the supreme court, and if that tribunal decides it to be unconstitutional, previous legislation on the subject will stand.
