Temperance.

New York, 28.—The Mail and Express thinks the temperance movement lately inaugurated here on the part of the English Church Association for limiting the sale of liquors, will sweep over the whole land. It proposes to limit groggeries to one for every 1,000 population, and legislation is asked to effect the restriction. Beecher's address to an audience in Brooklyn Academy last evening was in favor of such legislative restriction, and petitions are likely to be sent to the legislature from every important place in the State urging the enactment of a law limiting the number of drinking places as aforesaid.

The Monster Telescope.

Among the passengers by the Service is Dr. Otto Wilhelm Struve, director of the Imperial observatory at Pulkovo, Russia. While on his visit to this country is to test the object glass lately completed by Alvin Clark & Sons, Cambridgeport, Mass., on the order of the Russian government. The glass is the largest ever constructed, being 30 inches in diameter and 4 inches longer, than the largest of the Washington equatorial telescope of the Washington observatory, also made by the Clarks. The Messrs. Clark are also under contract to furnish a still larger object glass, 36 inches in diameter, for use at the Lick observatory in California. As was the case with the Russian glass, however, it will require several years for its completion.

Nearer the North Pole.

WINNIPEG, 28.—Later news received from the British circumnavigation expedition in charge of Captain Dawson, of the British Navy, and three subalterns of the same, who set sail the 1st of November, one month later than the previous year. Minimum reading of thermometer in November 60 degrees below zero on the ground, and below by a suspended thermometer. Three photographs of auroral display were taken on the 10th, 20th and 30th, respectively. Observations taken by Captain Dawson had shown Port Rae to be in reality 60 miles nearer the North Pole than previously supposed, and the geographical position and shape of Great Slave Lake is also incorrect. Port Rae is not within the Arctic circle, being in 64 degrees of north latitude.

New York, 28.—The Mordant scandal is entering a new phase. Samuel Mordant, yesterday announced that he had gathered sufficient evidence against the actor and Miss Laura Wallace to warrant his arrest commencing a suit for libel and divorce against her, and one for criminal conversation against the latter.

Washington, 28.—In the Star route trial, Mr. Dorsey was again on the stand, and a large crowd was in attendance, in anticipation of important testimony, but little new was developed.

Witness continued on the stand till adjournment, and made specific details of various points in Karsel's testimony, and in general offering place in evidence a large number of checks and other documents, which government counsel declined.

New York, 28.—The Herald's Philadelphia special says: It leaked out today that the board of officers at League Island, Navy Yard, is engaged in arranging the wages of mechanics for the ensuing three months, and that the commandant favors a regulation in rates to correspond with the reduction in the hours of labor. When the foreman of the carpenters was apprised of the fact, he said he had no doubt if this were done the men would recover the reduction, and add to their pay. He said he would put the men on ten hours' duty, and every man got his back pay when it was reconsidered, and they went back to the eight hours' duty. He said he would put the men on ten hours' duty, and every man got his back pay when it was reconsidered, and they went back to the eight hours' duty.

Some of the bold bands were demagogues, made of black lead. Where the holes in the plates did not correspond, Roach's men were at work stopping the leaks, and our men as they were charged as work on the Okeanos.

Denver, 28.—Recently the directors of the Basick Mining Company, New York, received a letter from a letter from a large number of miners at Querlar, where the mine is located, demanding the dismissal of Superintendent Perkins and Foreman McGee, on charges of insubordination, and that they interfere in numerous ways with their rights as men, etc. We are reliably informed that the true situation of the trouble is that Perkins discovered that an organized band had long been stealing ore from the company, and was instrumental in sending several to the penitentiary. The climax was reached today, when the mail contents served notices on fifty persons to leave town forthwith, threatening violence. Querlar and the surrounding country are terribly excited. Armed miners are parading the streets. The law is defied. Governor Grant has issued a proclamation martial law. Fears are entertained of bloodshed before morning.

Re-Trace of Chipp.

New York, 28.—Boston special: Professor Newcomb, of Salem, taxidermist of the Jesuette expedition, who first traced a letter from St. Petersburg, stating that the bodies of DeLong and his comrades are between Balun and Yakoutsk, Siberia, being carried on reindeer sleds. The interpreter of the Harper search party describes their condition as follows: The bodies are "black, extremities black." This interpreter is a very intelligent Dane. It is further stated in the Harper letter that he explored the Siberian coast, with Lieutenant Harper, thoroughly explored the Siberian coast, with no traces of Lieutenant Chipp were discovered. The bodies of Captain DeLong and his comrades will probably be detained in Yakoutsk till October or November, as the country is well high impassable during the summer, owing to the melting of the numerous bogs and morasses.

Frank Byrne.

Frank Byrne, whom Carey, informer, in the course of his examination in Dublin, swore was a member of the assassination society, or invincibles, and who being Irish government vainly sought to extradite from France, arrived today from Havre by the steamship Amerique, accompanied by his wife. The latter Carey also implicated. He testified that on one occasion she brought to Dublin from London four knives, and that she had a rifle slung over her shoulder, under her cloak; on another occasion, Carey swore Mrs. Byrne brought another consignment of arms from London, including 4,000 rounds of ammunition. Mrs. Byrne was charged with the murder of Captain DeLong, and his comrades, who were killed on our side of the boundary. Troops are in pursuit. So far as threats made by the people of Tomboro are concerned, I am in full sympathy with them, and should be glad to learn that the last of the Chiriquians were under ground. They are an incorrigible lot. Ten Chiriquians have been killed, and the Chiriquians were specially exempted by the government from the same outrage. Since then it is believed they have killed not less than 1,000 persons in this country and in Mexico. They are constantly trying to stir up mischief among the agency Indians, and so long as they can run back and forth across the border of this Territory and New Mexico we must look out for trouble. They are the worst band of robbers in America. The agency Indians are behaving well, but one has left San Carlos, and their assistance can be relied on in case all the Chiriquians were to be driven to the Arizona border by Mexican troops or the desire of plunder. (Signed) GEORGE CHOOK, Brigadier General.

Secretary Taylor in reply to Gen. Crook telegraphed as follows: Your telegram received, for which I accept my thanks. I agree with you that the renegade band must be completely destroyed. The interests of whites and peaceable Indians alike demand this.

San Francisco, 28.—A Tucson dispatch says: As far as heard from, 21 people were murdered and buried in seven days. Advances from Sonora place the predatory band down there at not less than 150, who are being driven to the Arizona border by Mexican troops. If the Mexican troops pursue them across the border they will likely be forced into the mountains, where the renegades are now hovering reinforcements. A Richmond special gives intelligence of the killing of two

more men, making a total of nine white men killed in the vicinity of Richmond during the last twenty-four hours.

Kenosha, Wis., 28.—Many of the citizens are mourning for the town is draped in mourning, and on all sides there are evidences of deep sorrow for the loss of the deceased Postmaster General. A Chicago special being sent to the Washington delegation, arrived at 3 o'clock. Secretaries Lincoln, Teller, Chandler, Frelinghuysen and Acting Postmaster General F. A. Hutton, and a delegation from the Postoffice Department composed the Washington party. They brought numbers of magnificent floral offerings. A light snow storm prevailed, which gave the deeply draped town a picturesque appearance.

The body was at the residence of Colonel J. H. Howe, two miles from the city. The hour set for the funeral services was 2 o'clock; but before that time the remains were borne by the officers of the National Church, where in front of the altar they lay in state. A host of the statesmen was present to view, and was closely and fearfully scrutinized by a vast concourse of people, representative citizens of this and other States, and the masses who in his life he loved so well and served so faithfully. Decorations at the church were simple and entirely floral in their character. Upon the front of the altar platform were arranged a number of beautiful designs, sitting mementoes of the sad occasion.

The services opened with a chant by a Chicago quartette under the leadership of Prof. Phelps. This was followed by a scriptural reading by the Rev. H. M. Simmons; invocation by Robert Fuller of New York; followed by the singing of the hymn, "Abide with Me." Mr. Simmons reviewed the character of the deceased, with whom he had been closely associated for many years. The beautiful lines beginning, "O spirit freed from earth," were sung by the quartette, and Mr. Collyer spoke freely of the host of immortals who had preceded the deceased to the life beyond. The services were brought to a close with a selection by the quartette.

The congregation then viewed the remains, after which the cover was placed in position, and the casket given into the hands of the pall bearers. Chief Justice Cole, Gov. Briggs, Secretary Lincoln, Secretary Teller, Horace Rublee, Senator Hill, and taken to the depot and placed aboard the funeral train, which left for Groveland at 3 p. m. The services were exceedingly simple and appropriate, the relatives of the deceased having requested that there be no display of pomp or ceremony. There was neither a uniform nor organized society in the procession. He belonged to no secret organization or society, but to the people, and by and of them will be mourned.

At Green Bay the body will lie in state at the late residence of Mr. Howe from 10 o'clock to noon tomorrow, and at noon the interment will take place.
