

## CONCLUSION OF NEGOTIATIONS.

Will be None Until Troops Leave Peking.

NO ONE TO NEGOTIATE WITH

Attila, Tamerlane and Genghis Khan Never Made Demands Like the Powers Are Making.

New York, Nov. 29.—P. B. Badner, an authority on Chinese affairs, is quoted in a St. Petersburg dispatch to the Herald as saying in substance to a representative of the Novoye Vremya: "It is nonsense to suppose that the Anglo-German agreement resulted from the withdrawal of the Russian troops from Peking. The English and Germans are naturally allies in China."

"All we can hope is that the foreigners will not stop too long in Peking. Otherwise they might discover so much hidden treasure that it would seem desirable to remain for good. The Anglo-German agreement which is now disagreeable to us would then become dangerous."

"The trouble is, until the peace negotiations are concluded there can be no question of the European forces leaving Peking and these negotiations will never be concluded; first, because it is not the interest of Europe that they should be; second, because there is no one to negotiate with."

"Again, what sort of peace negotiations can include such demands as those made by Germany—nothing but exactions. History records no instance of a victor beholding the rulers of the vanquished simply because they fulfilled their duty toward their native land, according to their lights."

"Attila, Tamerlane and Genghis Khan, savages though they were, never made such demands."

POWERS ARE DISSATISFIED.

London, Nov. 28.—The representations of Prince Chin, Li Hung Chang and others to the Chinese court, that the powers are dissatisfied and are threatening action on the Yangtze to stop supplies, says the Peking correspondent of the Evening Post, writing Tuesday, are reported to be having an effect, and it is said that the court is likely to take measures to meet the powers.

An American correspondent reports from Pao Ting Fu that 3,000 Germans under Gen. Ketteler, and 2,000 French troops under Gen. Bailoud concentrated there recently for the winter with the intention of making frequent expeditions north and to punish Boxer villages.

Prince Uchomski is in daily conference with Li Hung Chang and occasionally meets Prince Chin. He regards the outlook as dark even if the powers agree, for, he says, China may reject the terms and then will come war, rebellion and famine. The powers favor allowing China to govern herself, the powers holding the ports until she does reform herself and does undertake to protect foreigners.

Russia, he assumes, has no intention of annexing Manchuria, although she will have to have more Cossacks there in order to maintain a dominating influence. He is convinced even if others make war on China Russia will not.

PACIFYING CHINA.

Berlin, Nov. 28.—The war office has received the following from Count von Waldersee, dated Peking, Nov. 28th: "Numerous expeditions carried out by the allies appear to be gradually bringing about the desired pacification of the country. Remote villages frequently request military protection against Boxers."

Isthmian Canal Program.

New York, Nov. 29.—According to a special dispatch from Washington to the Herald the program of the administration regarding Isthmian canal matters during the first two weeks of the Senate's session is:

To ratify the Hay-Pauncefote treaty without the Davis amendment; to pass the Nicaragua canal bill; to ratify the canal treaties between the United States and Costa Rica and the United States and Nicaragua which are about ready to be signed.

The report of the Isthmian canal commission to the President has been modified, it is said. The report as first virtually agreed upon favored the Nicaraguan route. At the same time it reported the Panama route to be feasible. Since that time there have been further interviews between the representatives of the Panama company and the commission.

The report, after frequent consultations between administration officials, has been modified to the extent of again considering the Panama route. An interview has been arranged between Hay and Mr. Huber for next Friday. What will result from this no one can even surmise. The final draft of the report will be placed in the hands of Secretary Hay and the President today (Thursday).

Military Parades Deferred.

New York, Nov. 29.—Military parades at Windsor and in London have been deferred, says the Tribune's London correspondent, owing to the detention of the steamer Hawarden Castle with a composite regiment of guards and the Canadian contingent. The Canadian troops will share with the Life Guards and the Horse Guards, the honor of a public reception and march from the station to Kensington barracks, and will be inspected on Monday by the Prince of Wales. The London journals are printing details of the splendid record of the 2,800 Canadian volunteers who have taken part in the campaign. The detachment arriving in London will be less than 800 strong but it will be welcomed with special honors.

Over 300 seats in the principal theaters and music halls will be placed nightly at the disposal of the Canadian troops during their stay in London and in various other ways they will be assured of the city's appreciation of their services in South Africa. Some of the men will embark for home on December 10th. Preparations are already being made for the arrival of the bulk of the colonial troops from the front early in the new year. The queen and Prince of Wales are taking a warm interest in the matter.

ROBBERS WRECK A BANK. Blow Open Safe and Secure Money and Kill a Patrolman.

Emden, Ill., Nov. 28.—Four masked men wrecked the Farmers' bank of Emden early today. It is stated that they secured all the funds of the bank between \$3,000 and \$4,000. When the robbers discharged their first blasts of dynamite in an effort to open the vault, the explosion aroused John Alberts, four blocks away. Alberts hurried to the bank. One of the robbers was on guard in the street. He seized Alberts

who was bound hand and foot and dragged into the bank, where he witnessed the gang drilling into the vault door, making ready a second blast. When the fuse was lighted the robbers stepped outside and Alberts lay in the corner when it went off. He was not seriously injured, however. The second blast unbarred the vault doors, and the robbers made off with all the cash. Securing a hand car they pulled in the direction of the station. They were met by Night Patrolman Sanford, who attempted to arrest them. One of the robbers fired and Sanford fell, mortally wounded through the body. Outside the town the men boarded a passenger train on the Chicago and Alton. All traces of them were lost. The engineer of the passenger train claims that he saw a man jump from the first car near Minier, while the train was moving at a high speed, but a search of the locality failed to show any traces of the man.

The bank building was almost a complete wreck and the vault was entirely ruined.

Germany Assents to Note.

Paris, Nov. 28.—It is said on high authority that Germany has assented, without modification, to the joint note prepared by the ministers of the powers at Peking, and that France has also assented.

The officials of the foreign office deny the statement from Peking that France has seized territory at Tien Tsin for the purpose of tripling the size of her concession.

Germans Board a Chinese Vessel.

New York, Nov. 28.—It is reported here from Peking that the Germans have boarded a Chinese vessel and demanded treasure consigned to an English company at Tien Tsin. As the boxes of treasure had been landed the Germans had to search the vessel and confiscated her cargo.

Czar's Condition Still Satisfactory

Livadia, European Russia, Nov. 28.—The following bulletin was issued today by the czar's physicians:

"The emperor passed a good day yesterday. He slept an hour and a half. In the evening his temperature was 98.5; pulse 68. He slept fairly well last night. This morning his majesty's condition and strength are satisfactory. His temperature this morning was 98.4; pulse 68."

PECTORAL COMPLICATIONS ARISE

St. Petersburg, Nov. 28.—While the attending physicians of the czar, until recently, asserted that no complications had been observed in his majesty's condition, a physician in civil clothes, declared a few days ago that there had been pectoral complications from the beginning, which, he added, explained the influenza diagnosis of the early stages of his sickness. He further asserted that the illness of the czar was in the first instance caused by the fact that he sat between an open window and an open door dictating, and that Baron Fredericks, the aide-camp, general and minister of the imperial household, had been greatly blamed because he was present and did not remonstrate with the emperor.

Electric Propulsion for Canal Boats

New York, Nov. 29.—Mr. Hawley, who has been commissioned by American interests to advocate the principle of electric propulsion for canal boats has returned to London from the continent, says the Tribune's London correspondent. He reports that plans for electric canal service have been adopted in Belgium and Holland, and that the waterways of those countries will be equipped with motors similar to those proposed for operation on the Erie canal. These motors will be provided by an American company and the entire system of electric propulsion of canal boats will be introduced from the United States. Mr. Hawley asserts that in France a bill has been prepared for the introduction of the same system of canals in that country. He expects that electric motors for French canals will be ordered from the United States.

## RINGLEADERS DESERVE DEATH.

Such is the Opinion Held in Germany.

PUNISHMENT OF CHINESE.

Attitude of the Fatherland—United States and Russia Called China's Defenders.

Berlin, Nov. 28.—The semi-official Berliner Post, in the course of an evidently inspired article, replying to the suggestions of more lenient punishments of the guilty officials in China, made by the United States government, says: "Since doubts have been expressed here as to whether it is advisable to insist upon death for the ringleaders of the anti-foreign movement as an irrevocable decision, it should be pointed out that such a doubt can be traced to considerations of humanity, as if some powers regarded such a punishment as too severe. The fact is, rather, that all the powers are convinced that the ringleaders deserve death; but the question has been raised as to whether such a measure should be insisted upon from the standpoint of political expediency."

"So far as Germany is concerned, she has never insisted upon the execution of specific persons, but has repeatedly declared that she laid chief emphasis upon the harmonious action of all the powers in punishing the guilty. This attitude corresponds with the guiding principle of Germany's policy, which seeks above all else to preserve the harmony of the powers."

The Freisinnige Zeitung describes the Post's declaration as "Germany's retreat from the demand for the death penalty."

The papers this evening resume their criticism of the course of the United States government based upon the latest news from Washington.

The Berliner Nachrichten says: "The United States, with Russia, is China's chief defender."

The Lokal Anzeiger sees "renewed evidence of the separate policy of the United States."

The Freisinnige Zeitung infers from Ambassador White's visit to the foreign office and Dr. von Holleben's call upon President McKinley and Secretary Hay that serious differences of opinion exist between the United States and Germany.

Ambassador White reassured today that in his recent interview with the secretary of foreign affairs, Baron von Riethe, he did not present a new note but only made informal suggestions which did not require an answer. He does not think Germany will give an answer to those suggestions. His instructions from Washington directing him to seek the interview with the foreign secretary were not, he says, a repetition of the Conger instructions.

WILL INVITE THE SULTAN.

He Will be Asked to Visit the Battleship Kentucky.

New York, Nov. 28.—Under instructions from Secretary Long, says a Herald dispatch from Washington, Captain Chester, commanding the Kentucky, will formally invite the sultan of Turkey to visit the American battleship. It is thought that acceptance of the invitation will give the sultan an opportunity to form an idea of the formidable character of the later warships of the American navy.

It Contradicts Reports.

New York, Nov. 29.—Marquis Ito, prime minister of Japan, authorizes a contradiction of the reports touching the stability of the ministry, says a Herald dispatch from Yokohama.

The editor of the Thimadaya daily paper, whose sweeping but general charges against Hoshi Toru, former Japanese minister at Washington, and now a member of the cabinet, and a libel suit will doubtless follow. The opposition is not inclined to make a ministerial matter out of the question.

The upshot of the charges can affect only the accused minister, who is not indispensable.

Agoncillo Has Not Resigned.

Paris, Nov. 28.—Agoncillo, agent of Aguinaldo, declares there is no foundation for the statement that he resigned the leadership of the Filipino Junta in Europe or that he is going to Hongkong to superintend the supplying of arms to the Filipinos.

Jessie Morrison's Murder Case.

Kansas City, Mo., Nov. 28.—A special to the Star from Eldorado, Kansas, says: "A noon today the defense in the Jessie Morrison murder case had only one challenge remaining, and when that is used and the vacancy filled, there will be a complete jury of twelve men, and the hearing of evidence will begin. The State has waived all of its challenges."

Jessie Morrison's comfort and support during the trial is her old father, former Probate Judge Morrison. He has been by her side in the courtroom constantly, and until today has invariably accompanied her to and from the jail. This morning when the judge opened the door of her cell and told her to come, she pleaded, "Wait a minute; father will be here soon."

"No," said the jailer, "you must come now," and she followed timidly after hesitating a moment.

Soon after she had been seated in the courtroom, Judge Morrison entered and took his accustomed place at the prisoner's side.

"I wish this trial would end," he said to the reporter. "I'm getting awfully tired of it."

DOMESTIC ANIMALS.

Census Bureau Gives Out What Their Number Is.

Washington, D. C., Nov. 28.—The census bureau today issued a bulletin giving the results of the enumeration of the domestic animals in inclosures, but not on farms or ranges. Of 1,875,207 barns or inclosures reporting domestic animals, there was substantially one-third of the total number of farms in the United States. 754,569 contained 1,466,970 head cattle; 1,355,636 inclosures reporting horses, contained 2,833,577 horses, and the aggregate of other animals reported as follows: mules, 162,115; asses, 12,870; sheep, 156,170; swine, 1,592,867; goats, 47,652.

The number of different kinds of animals to an inclosure presents but little variation in the several divisions of the country. In general it is smallest in States where there is a large urban population, and largest in States or Territories in which there are no great cities. It is only 1.1 in the cities containing over 50,000 inhabitants; 1.2 in

cities containing between 25,000 and 50,000 inhabitants, and 1.5 for the remainder of the United States.

The number of head cattle to the inclosure is smallest in the North Atlantic States, being 1.6, and largest in the Southern central States, where it is 2.5 per cent. The average of horses is lowest in the North central, being 2.7, and is largest in the North Atlantic division, where it is 7.0. The average of sheep, mainly reported in connection with stockyards, ranges from 12.2 in the Western States to 11.9 in the North central. Florida has the largest average of swine, 5.3. Goats are more numerous in the South central States, where they average 3.9. The average is 2.4 for the country.

The number of different animals to an inclosure is smallest in the North Atlantic States where it is 1.2, and the largest in the South central, where it is 1.7. In the North Atlantic and North central States there is very little variation in the average number of animals to a barn or inclosure. That amount varies from 1.5 to 1.8, with the exception of Illinois, in which the average is 1.3. The higher average of Illinois is due to the presence in Chicago of stockyards and in Peoria of extensive feed-lots.

Of the individual States Florida reports the largest number of head cattle to an inclosure. This is 5.8. Louisiana comes next with 5.5. Mississippi and Indian Territory follow with 3.7; Arkansas, 2.9; New Mexico and Colorado, 2.8; Alabama, 2.7; Texas, 2.5. Horses, mules and neat cattle, including dairy cows, are least numerous in the larger cities and more numerous in the smaller ones. Sheep and swine, however, show the reverse. The greater number is due to the large stockyards and packing houses.

For cities with over 100,000 inhabitants, Kansas City and Memphis report the largest relative of horses and mules. Chicago of sheep. Indianapolis of swine. New Orleans and Milwaukee of goats.

Bryan Writes a Letter.

Lincoln, Neb., Nov. 28.—In answer to a congratulatory address presented by the Bryan Home Guards some days ago, W. J. Bryan today sent a letter to H. E. Rooke, thanking him for the expression of esteem and concluding as follows:

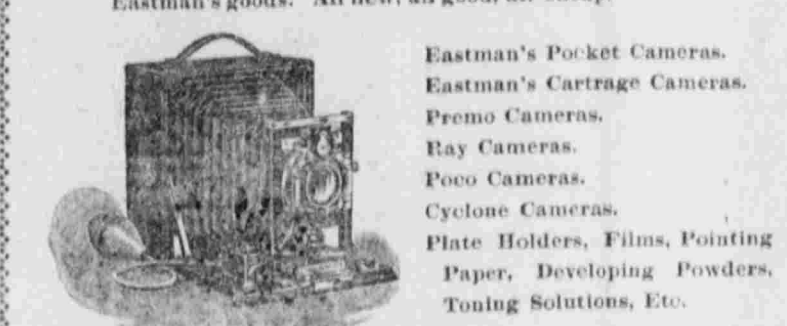

"When a political party meets with reverses the greatest consolation the candidate has, aside from the approval of conscience, is the knowledge that he retains the confidence of those with whom he was associated, and I thank the guards for this assurance. The bond between Democracy and liberty will go on, and those who believe in the Declaration of Independence and the doctrine of equality before the law must still defend human rights from the encroachment of greed."

Henry Russell, Composer, Ill.

Chicago, Nov. 28.—The Chronicle says: Henry Russell, one of the most noted composers of sea songs, is dangerously ill. It is now some years since he appeared in public, and being aged 70 years it is feared that the outcome of the present illness may be fatal.
