LOCAL AND OTHER MATTERS.

CORRESPONDENTS writing for publication are requested to write on one side of the paper only. No notice can be taken of anonyme

SABBATH MEETINGS .- The morning meeting was addressed by Elders George Q. Cannon and Jonathan Pugmire, and by Bishop E. D. Well

by the Saints in being guided by a living, inapired priesthood, and exhorted them to honor their callings by observing the counsels imparted unto them.

THEATBICAL .- There was another good house on Saturday night to witness the closing performance of "Under the Gaslight," and the presentation gave much satisfaction. The piece ran very smoothly, and the machinery worked excellently. From the performances of this sensation play, say theatre goess will be able to form he ides of the difference between putting a difficult play on the boards for one performance and running it an indefinite number of times; and will not be so exacting when everything does not go as smooth as might be wished on the first performance of such a play. To-morrow night the beautiful drama of "Love and Daty," will be performed, with Madame Scheller in her chaste impersonation of Mathilde. This is a touching and captivating drama, rich in the purest sentiment, and teaching lessons of love and duty by which all may be profited. Mr. McKenzie plays the artist lover and husband, Mr. Hardie the inexorable father, Mrs. Clawson the mercenary grandmother, apt with quotations, Mr. Lindsay the heartless brother, Mr. Graham the rejected suitor, Mr. Hyde the faithful old servitor and Mr. with Messrs. Graham, Margetts and Lindsay, Mrs. Clawson, Miss Adams and Miss

wind that was blowing and were almost sta- river, the callle rushed to the upper tionary; those who were lower down were side of the boat, which caused it to sink making good time in a south-easterly direction. and all the men and cattle were washed

off. It filled with water, and the To MILL CREEK. - Yesterday Local accom- pressure was so great that it broke the panied Edward Stevenson on a visit to Mill main rope. Bro. Robinson was the first Creek Ward, which is not a region of mills as might be expected from the name, nor yet given but not with standing all their exercitions but not with standing all their exercitors bet not with standing all their exercitors bet in the six brethren named were lost. The people are strong believers in Miller, but it is boat was carried down the stream about their worthy Bishop, of that name, who holds their feelings, belief and affections. The first question that arose on the way was, What are the locuats doing? For their ravages were very in the water until they were very wet severe in that locality a few weeks ago. The and cold; their change of clothing was "winged hosts" have in a great measure depart- in their wagons across the river, and ed, and where they have cleared the ground they were crossing to obtain dry there is a chance yet for planting and obtain- clothing. There were three of the cattle ing a crop of corn and potatoes. The early drowfied; in all they lost four head. ing a crop of corn and potatoes. The early sown wheat and planted crops seem to have stood best and promise to give a greater yield than those which were put in later. Some wheat and barley looked very beautiful; and the indications for the pes and potatoe crops are most promising, as far as we saw. Indeed we can speak personally of the quality of both these edibles, as grown by Bro. David Grant, who kindly acted the part of host to us. Up to-wards the bench, we understood, most damage had been done, still there are hopes now of har-vesting more than it was believed at one time would be done this year. Before meeting we drooped into the Sandar achool, which is prowould be done this year. Before meeting we dropped into the Sandar school, which is pros-pering, over a hundred and flity scholars being present, with sixteen teachers and two superintendents. The young people seemed much. interested in their studies. The meeting held afterwards was wall attended and spirited. There is a good show for plenty of fish be, ing obtained in that quarter after a time, for Bro. J. Hill has a pond made, with the water in it, covering nearly three adde of ground; and Bro. David Grant designs making one, in an excellent and natural location for it, which will cover about two acres. Superintendent R. L. Campbell, who visited Battop Briston's Ward yesterday, informs as that the crops have suffered severely there, but that there are prospects of harvesting a fair is product of some crops, potatoes especially.

AHQIII friends for past favors, and would say, they lesire to continue in the confidence of the oublic. Our Goods, all of the best quality, will be sold at reduced prices to correspo nd with

Correspondence.

ROBINSOR'S FERRY, June 25th, 1868.

President Young .- Dear Bro.-We arrived here this evening without any mishap. Missionaries, Elders Church, Clemons, Petersen, Eldredge, Grant and Teasdale are all well. I regret to have to record a sad acci-

dent that happened to-day at the ferry, which resulted in the death of six men, DAMERCIAL ENTERPRI named Niels Christoffersen and Peter Smith, from Manti; Peter Nielson, from Fairview; Christen Jansen and Christen Nebellah, from Mount Pleasant; and Thomas Yeates, from Millville, Cache county. Bishop Seely and Simpson Molen's companies met together at the Muddy, and arrived at the ferry in safety. They commenced to ferry the wagons last night, and to-day all the Crowther the hotel servant. A farce, new here, with the euphonious title of the "Two Puddifoots," will follow, which is presented with Messrs. Graham, Margetts and Lindstrong. The cattle would swim a little way and then return. They tried until Alexander in the cast. This afterpiece is full of mirth-making material, and in such good hands cannot fail to yield immense amusement. Hrow Ur.-The grasshoppers were in the air Hrow Ur.-The grasshoppers were in the air to day in countless myriads. Vast numbers teen men on the boat. As they were seemed to be away up above the current of about two thirds of the Way across the
