factory in every way. Architect Neu-hausen is now preparing to begin work on the great terrace of granite steps which will cost \$15,000.

A Norman mare is employed as a "steam hoist" at the new telephone company's building, that has learned her duties as well as a trained artillery horse obeys the various bugle calls. The boy who is supposed to drive her has therefore a good deal of a snap, and he puts in most of his time roosting in front of a neighboring stove, and "earning" his pay.

Ike Russell got even with the Stan-ford Juniors who ducked him recently in a bathtub because of his roasting them in the comic paper of the college. He turned the fire hose on the entire class the other night, as they were cele-brating a class function on the football field, and drenched them good. Hon-ors are now even, and Ike is wearing concern emile as breach as an oregan seate smile as broad as an ocean unset.

There is more trouble in the Rich family, whose misunderstandings and quarrels have been ventilated in the po-lice court several times during the last year or two. As usual the trouble this time is between the lather, E. E. Rich, and one of the sons. The latter wants the former arrested because he alleges his father wilfully tore up, a fume his father wilfully tore up a flume which the son had just completed on his property. Both were at police head-quarters this morning, but the warrant was not issued for lack of sufficient ev-idence upon which to base a complaint.

There was an interesting marriage last evening, in the Maccabees lodge, where Seth Brown and Miss Tony Kes-ler were united by Rev. Frank Barnett of the East Side Baptist church, in the presence of 760 friends. Miss Leo-nora Brown, sister of the groom, acted as bridesmaid, while Lew Halsett was the best man. After the ceremony, the following program was observed: Soprano solo, Miss Bes-sie Kosworth; comedy nonsensical, Ira E. Walden; recitation, Miss Nora Brown; Baritone solo, Lew Halsett; solo, "The Bride's Dream," Miss Ida Owen; overture by orchestra. The pro-gram was followed by a banquet. Bulletins announce a probable Bulletins announce a probable strike by the rik designers at Pat-terson, N. J. Relative to this Sait Lake dry goods men say that in their judg-ment it will be very foolish for the selfs designers to strike, as it means only bread taken from their mouths. The rik stocks of the country are well summed and in cases are provided as supplied, and in cases overloaded, as the demand for the last two years has been falling off, and fashions have been running to cottons and worsteds. There is very little business in sliks now as compared with the trade of the years previous to 1902. So a strike in the silk factories would have hardly more of an effect than to throw people out of em-ployment, and manufacturers could af-ford to wait six months or a year for dealers to get rid of surplus stocks.

## DEATH RATE FALLS OF

### Month of October Shows a Big D crease in Mortality Returns.

The report of the board of health the month of October shows a decrea of 15 deaths, as compared with the pr vious month, representing - an annu death rate of \$.00 per 1,000 as against the of 10.40 for September. The actual mo tality for the month was 26 males and females, 49 of that number being whil and one colored. Of the decedents 21 we natives of Utah, 22 were single and magnia

natives of Utah. 22 were single and married. In comparison with the preceding mont deaths atnong children under five years -age decreased one-half, there being deaths during October as against 22 for September, while deaths among adult from 25 to 45 years of age increased fro 10 to 17, this being due to deaths fro other affections of long standing. S deaths resulted from organic diseases deaths resulted from organic disease the heart, 6 from typhoid fever, 4 each from meningitis and diarrhoea, 7 of this number being children under 5 years o

room meningitis and diarrhoea, 7 of this number being children under 5 years of age. While the births reported during the month were 29 less than were reported in September, the total number is more than twice the number of deaths for the same period. All of the 115 births were whiles, 65 being males and 49 females; as compared with the preceding month, births among the male sex decreased only 4, while the decrease for females during the same time was 26. There were 7 still births reported during the month, but these are not included in the birth or death rate. There were 77 cases of typhoid fever reported during the month, as against 125 for September, 10 cases of diphiheria com-pared with 3 for the month here, and asses of scarlet fever in comparison with 3 in September, and smallpox having in-creases of contagious and infectious dis-ease ported was 100, 39 less than dur-ing September. While going through the alley back of the Utah Commercial and Savings bank, Mr. Randolph saw two men near oank, Mr. Randolph saw the rear door of the Salt Lake hat factory. Going towards the men he de-manded their business there. Then it was that a third man put in an ap-pearance and struck the nightwatch-man on the forehead with a rock, knocking him senseless to the ground When Randolph recovered, the fellows had made their escape. Investigation proved that the men had been trying to effect an entrance to the hat factory and when they heard the officer coming, they remained quiet in the hope that he would not see them. One of the men hid in a shadow, and when Randolph asked what they were doing there, the hiding thief struck him with the rock. A deep gash was made in the officer's forehead just above the eves, but the wound is healing nicely and will be all right in a few days.
