M. H. WALKER RETURNS. Says Excavating Contracts for Federal Building Will Soon Be Let.

al, 78

Ag

lay

sig

ali

Mr. and Mrs. M. H. Walker have returned from a two months' trip to Washington, D. C. Mr. Walker left Washington assuming a lively aspect, owing to arriving members of Congress. He says contracts for excavaling at the site of the new federal build. ing will soon be let, work to begin in the spring. Mr. Walker left Judge Colborn and W. A. Nelden in New York looking after the sale of the illuminating invention which was developed in this city.

eld Arizona and Sheba ranked among largest producers and richest mining properties on the coast. The company headed The company headed by Judge Bartch is composed of experienced mining men, who are fully aware of the value of the properties they have just acquired. It is said to be their inten-

tion to immediately inaugurate an ac-tive campaign of development. They have also purchased the old Star mill, situated near the mines, and it will be put in order for the working of such ores as are not of a rebellious nature. Shipments will also be made to Salt Lake smelters and without doubt the Zionites will soon have their newly acquired property on a paying basis.

VALUABLE CHUNK.

Rich Ore from Thunder Mount-ta Kept in a Vault.

There is a wonderful piece of ore from Thunder Mountain at the First National bank, says the Bolse Statesman. It weighs about 100 pounds and is so valuable that it is placed in the vault at night for safekeeping. One face of the plece, presenting an

irregular surface approximately 14 inches square, is literally plastered with gold-not sprinkled with the metal but covered completely as heavy frost covers a plank. A piece weighing three pounds was

pounded up and yielded \$24. It is not assumed that this entire chunk is as rich as that, but it would probably assay close to \$10,000 a ton. There is gold all through the rock, while all the seams are lined with the precious

stuff This great nugget came from the rich This great nugget came from the rich streak opened by the Caswells last spring. The streak was exposed for 40 feet and showed from 5 to 7 feet in width. Two samples taken across its entire width assayed \$1,000 and \$1,900 a ton. It was the opening of this streak that led Col. Dewey and his associates to take up the bond at once instead of waiting for its expiration. This fine nices of ore was brought

This fine piece of ore was brought in from the property by the Caswells, the discoverers of the district.

Bonanza Improvements.

The Baker City, Oregon, Herald of Wednesday says that the improvements under way at the Bohanza mine, cen-tering around the installation of a large hoisting plant, will cost in the neigh-borhood of \$200,000, it is estimated. The machinery for this large plant is be-ginning to arrive at the mine. On Tuesday and Wednesday its two bollers, weighing 25,000 pounds each, were received. It took twenty horses to deiver these boilers one at a time, and liver these boliers one at a time, new roads had to be constructed to get the machinery to the mine. The engine will be of 100-horse power capacity, while each of the boliers will be capable of generating 200-horse power. The room containing the gallows frame will be almost 100 feet square and 75 feet high, the whole plant covering more than one acre of ground. The holst will

than one acre of ground. The holst will be capable of raising nine tons of ore at a time at a speed of 1,600 feet per minute. The sinking capacity of the plant will be 2,500 feet. A pump, with gearing combined, weighing 48,000 pounds, will also be installed. The mine at present has a depth of about 100 feet. About 150 men are employed

mine at present has a depth of about 400 feet. About 150 men are employed at the Bonanza, and the output of the r the is estimated at all the way from \$50,000 to \$50,000 a month.

FROM NEAL DISTRICT.

Salt Lakers Report Some Fine Properties Up There.

Thurs ay's issue of the Bolse States-Thurs'ay's issue of the Boise States-man says that Brigham T. Cannon, of Salt Lake, arrived in that city Tuesday evening, and in company with H. A. Smith and A. L. Morris, made a trip to the Neal district, returning Wednes-day evening. Mr. Cannon is enthusias-tic over the district, and while he stat-ed that he had no desire to pose as an expert, still it did not require an ex-pert to see that Neal is destined to be one of the great mining districts of the west. With the crude methods used it is astonishing the show that is be-

of their efforts. A special meeting of the stockholders of the Morrison Mining company is to be held on next Tuesday. The call The call says the meeting's object is the "re-moving of George W. Bartch as presi-dent and C. D. Morrison as a director. of he company" and to fill vacancies thus to be created. Secretary Snow is Amalgamated Copper were taken at an advance of 11%, and Atchison gained hot upon somebody's trail on account of the suit recently brought against him. about as much. While prices generally ruled above yesterday's final figures.

Baker City Herald: The Belcher mine, in the Greenhorn district, is showing richer and richer every day. Superintendent W. H. Jackson says he never saw such riches uncovered in that entire district. The Belcher, I. X. L. and Phoenix will be the greatest

mines in that whole country. The ledges are true and the values of cres increase with depth, \$70 and \$100 ore being common. Baker City Democrat: J. J. Hennessy, the well-known mine operator, yes-terday closed a deal for the purchase of the Healy & Griffin placers near Bridgeport. The amount paid for the prperty is not made public, but a sub-stantial cash named in the stantial

stantial cash payment, it is said, was
