Is to rely upon local applications, such as arans, lotions, salves, etc., which can not possibly go below the set of this treatment is very much like attempting to belt of the superior of the top of the vessel containing it, he-rybody know what a crude and unsatisfactory process it would be, and no one would think of employing such a method. Yet it is a very common thing for those afflicted with Ecrasa to expect to be cared by treatment which does not touch the disease. Ecasima is not a skin disease, as so many people think, afthough it produces flory and burning itching that becomes almost unbearable. Zinc continents, and other applications containing minerals, should be avoided, as they are very injurious to the skin. The disease itself, the real cause of the trouble, is in the blood, and only a real thood remedy, like Swift's Specific, which goes down to the very foundation and forces out all impurity, can ever lave any permanent effect upon it.

De lyes, Wis.

Those who are content with only temporary relief from Ecsema can continue the use of local applications, but all who would have every trace of the irritating, burning disease thereughly eliminated and the system rid of it forever, will find the only mire in Swiff's Spenific (S. S. S.). Being a real blood remedy, it never fails to cure the most obstinate, deep-seased cases, which are beyond the reach of other remedies. S. S. S. is the lest bleed remedy, became it is PURELLY VIGUETABLE and is the only one guaranteed to contain no mercury, potash or any other mineral.
