PARIS, Tex., Oct. 28.—A message of Chief Perryman to the Council of the Creek nation, now in session at Ocmulgee, makes mention of the law enacted by Congress by which the western tribes are fast alloting lands preparatory to their admission as citizens into the American re-public. He then adds: "Thus the rights, privileges and authority of five nations are infringed upon and curtailed at almost every session of Congress. It would hardly be fair to charge Congress with mal-ice toward the Indians, or ice toward the Indians, or wilful disregard of their interests. The general policy of the govern-ment toward the Indians is one of humanity and charity. The fault humanity and charity. The fault lies in the ignorance of our would-be benefactors as regards the true condition and needs of the Indians
This Congress, through its misdirected zeal for the betterment of the condition of the Indians, has handicapped our most laudible efforts for self-government and self-preservation. The United States must be constantly informed of our condition and continually reminded of the sacred treaty obligations which they have entered into with us in the past. It is therefore recommended that a strong delegation be sent to Washington to represent our nation during the next session of Congress."
