## LOCAL AND OTHER MATTERS.

### TO THE Y. L. M. I. A.

It is urged that those Associations who have not sent in their Quarterly Reports, do so without delay, that they may be had for our General Quarterly Conference.

MARY A. FREEZE, President.  
AGUSTA J. CHOCHELOS, Secretary.

**Priesthood Meeting.**—There will be a general meeting of the Priesthood of this Stake on Saturday morning, April 3, 1890, in the Salt Lake Assembly Hall, at 11 o'clock. A general attendance and full reports are requested.

By request of the Presidency of the Stake.

W. M. W. TAYLOR, Clerk.

**Firemen Attention.**—Brigade drill to-morrow evening at 7 o'clock sharp. Come fully equipped. By order of the Chief Engineer.

R. H. HARDY, Sec'y.

**Returned.**—President Taylor and party returned to the city last evening. He had a pleasant visit to our friends, who enjoyed the treat of an excellent discourse from him on Sunday.

**Painting the Sign.**—Scaffolding is being erected along the front of Z. C. M. I. for the purpose of painting the name of the institution on a suitable space running along the entire front of the building, just above the doors and windows.

**Police Court.**—On Saturday, a man named John Hawks was arrested for shooting his pistol in the streets and fined \$5.

Another named Tom Welch, for drunkenness and vagrancy, was fined \$10 for the former and \$50 for the latter offense.

**Send in Your Reports.**—The secretaries of the various Young Men's Associations, throughout the Stake, are earnestly requested to send in their quarterly reports, at once, to Hester J. Grant, Secretary of the Stake Y. M. M. I. A. organization.

The Stake Conference is approaching, and a general report must be prepared in time for presentation at the session.

Reports are also wanted of what has been done by the various societies in respect to donations for the Standing monument.

**"Puck" and the Puzzle.**—The latest number of Puck contains a good deal of the puzzle, 1145-11. Conkling is contemplating the numbered blocks in the box, each of which bears the head of some presidential candidate. Blaine is numbered 13 and seems to give the enigma the most concern; Sherman is 14 and Grant is 15, while Tilden figures as No. 1. Both Puck and the puzzle may be had of Francis Drayton, who has received an assignment of the new craze, and has also Frank Leslie's Popular Monthly for April, and Harper's Weekly for March 27, both contain beautiful engravings and interesting reading matter.

**Attempt at Train Wrecking.**—On Thursday evening, Mr. Edgar Stone, of Lynne, was walking home on the Utah & Northern track, he discovered in one of the bridges, a box which had been fastened in the tie below and projected through the bridge some two feet above the track. He removed the box and found it to contain a small package of dynamite, which he carried home and placed in a safe. He was not aware of the fact that the box was a part of a scheme to wreck the train.

**Still Another.**—A correspondent to the Enquirer writes from Payson, under date of the 17th inst., as follows: Wednesday afternoon, between three and four o'clock, Mr. William Drayton and another went to Utah Lake to hunt ducks. While crawling through the rushes the gun of the younger brother was discharged, by catching on some rushes, the charge of shot passed through the thigh of Wm. Drayton, who was about six feet in advance. In about an hour's time a team was secured and taken home. The doctor in attendance says that it was a miracle, as the charge for some time produced instant death. The patient appears to be doing well.

Perhaps, sometime before the country is depopulated of duck hunters, they will learn to handle their weapons more carefully. The above is the third event of the kind we have noticed within the last week.

**A Faithful Saint Departed.**—Our sympathy and condolences are drawn out toward the family of our brother and fellow laborer, Godfrey Lienhard, of the 18th Ward, in the bereavement sustained by the loss of his wife Margaretta Gubler, who departed this life yesterday afternoon at 20 minutes past 4 o'clock, at the family residence. Deceased was taken sick last Tuesday morning, and since that time has not been out of bed. On Friday the disease was stated by a physician to be a serious case of inflammation of the stomach. Everything was done that could be, but the patient gradually sank until the time of her death. Sister Lienhard was a good faithful wife and mother, an active worker in the Relief Society, and a Latter-day Saint who showed her faith by her good works. She came from Switzerland in the year 1864, a widow with three small children, and was here married to Brother Lienhard, night watchman at the News Office for the last 10 years. The funeral will be held in the 18th Ward Meeting House, to-morrow morning, at 10 o'clock. Friends invited.

**The Jordan and Salt Lake City Canal.**—A great many inquiries are being made among the inhabitants of this city, relative to the Jordan and Salt Lake City Canal, the route to be taken from the Jordan River to this city, and the estimated cost of the entire work. We are enabled to give a few answers to some of the questions propounded, which may give partial satisfaction, but we are not in possession of all the facts, especially as relates to the cost of construction. The final estimates are not yet in the hands of the work, already finished, consequently there is but little on which to base a calculation of the whole, which at best, could only be an approximation.

The Jordan and Salt Lake City Canal commences about three miles below the old Camp Floyd Ford which, measuring along the river bank, is about nine miles from its source. From this point the canal follows along the Jordan for about a mile and a quarter, and after traversing a succession of bluffs, for about three miles, comes out upon the open flat, and keeps on in a north-easterly direction until it crosses the State Road a little north of Dunyon's. Thence it takes a northerly direction as far as Sandy. The railroad track is crossed between the Junction and Sandy. The proposed route then takes a north-easterly direction until it connects with the Deseret Irrigation and Navigation Company's old canal at Cottonwood. It follows this right through to this city. A great deal has been said about "running water up hill," and of the difficulties in the way of the building of the canal. We will endeavor to give an idea of the grade of the proposed aqueduct. The first seven miles the fall is 23 feet to the mile, after that it is 15 inches to the mile. At Sandy, where it is said the water cannot be taken "up hill" to the Cottonwood, the descent of 18 inches to the mile can be kept up all the way to the latter point, where there is a surplus fall of 194 feet. From there to this city the descent is 32 inches to the mile, along the route of the old canal. The proposed length of the Salt Lake City and Jordan Canal is 23 miles, 13 miles of which is out on contract, and the greater portion finished. The amount of money expended up to date is \$23,000. The estimated cost of construction, from the Jordan to the Cottonwood, is thought will not exceed \$90,000, and from there to Salt Lake City, as shown, the cost will be comparatively light, since the old canal can be utilized, without the necessity of making new excavations.

**The Opening Performance.**—The Home Dramatic Club will open their performance in the Theatre on Thursday evening, the 1st proximo, on which occasion will be produced the beautiful and romantic drama "The Romance of a Poor Young Man." The characters and plot of the play will be remembered well by many old residents of this city, as well as the popularity it achieved when first produced here by the accomplished actor, Mr. Geo. Pannofort. The parts have been cast as follows: Mr. L. A. Cummings will appear as "Manuel, Marquis de Champey"; Mr. O. F. Whitney, as "Dr. Desmarest"; Mr. H. M. Wells, as "M. de Bevanne"; Mr. J. D. Spencer, as "Gaspard Lacroix"; Mr. C. S. Burton, as "M. Nour"; the "Marguerite" is in the hands of Miss Louisa Claridge; "Mlle. Heloise" will be sustained by Mrs. Della Cummings; "Madame Laroque" by Mrs. Mamie Clawson; "Madame Aubrey" by Miss Lida Wells; "Christine," Miss Ivy Clawson, etc.

It will be seen that nearly all of these ladies and gentlemen are new to the stage, some of them have yet to make their first appearance. That degree of excellence which only comes by practice and experience in any profession cannot therefore be reasonably expected at the outset. But while not considering themselves competent to render the fine dramatic effects which only a life upon the mimic stage could afford, they will do their best to please the public, and as fast as possible gain that efficiency which will enable them to better deserve their patronage and encouragement. They make their first appearance with the hope of not being too severely criticized and with a reliance on the generosity of the public if they fail to meet all expectations. The services of the Careless Orchestra have been secured for the opening night, on which occasion this fine musical combination will perform several of their choicest selections. The performance will be for the benefit of the Dramatic Club, to assist in placing it upon a permanent basis.

**"Enquirer" Items.**—Dr. Pike will soon have one patient less. Young Taylor who has a gun shot in his head, will soon be on his feet again, unless things take an unexpected turn.

**At a meeting of the Gardeners' Club**, held on Wednesday last, a dividend of 7 per cent. was declared on the year's business. The following officers were elected for the coming two years: Jos. Sawyer, President; Peter Stubbs, Vice-President; Directors: J. E. Booth, S. S. Jones, Abraham Halliday, Albert Singman, and Henry A. Matheson. James Hardy, Secretary, and A. Halladay, Treasurer. Peter Stubbs, Supt.

Up to the time of our going to press, the Pleasant Valley coal train had not arrived at Springville. The main difficulty that has to be contended with is the fact that the rails, which have to be picked off. Some days only a half a mile is made by the train.

Just as we went to press we learned that this blockade was broken and eight car loads of coal had arrived. County Prosecuting Attorney, J. R. Milner, was called to leave on Wednesday, to prosecute a case of horse stealing. Two individuals were brought before Justice Thurman, charged with taking the horses off from cattle that had died, but did not belong to them. Both sides of the case were vigorously argued, and the matter given to the jury, who returned a verdict—guilty, with recommendations of mercy to the court. This being the first case of horse stealing prosecuted in the county, the fine was nominal.

**"Over the Brink of It."**—"Hi, there!" shouts the wag to the boy on the bicycle, "turn a somersault and roll forward into the future."

**Pistol vs. Razor.**—Shortly before noon to-day a couple of men, named respectively Hogan and Campbell, were taken into custody by officers Phillips and Smith for drunkenness, disorderly conduct and shooting on the public street. The facts of the case, as gleaned from several sources, are as follows: The two men were on a "spree" and had been out riding in a buggy all night. Campbell, it is said, was out of the vehicle, and Hogan wheeled his buggy up to the sidewalk in front of "Lipman & Davis" store and putting the pistol over his left arm fired. The ball struck the sidewalk pavement.

Campbell, who was near by, thinking he was shot at, went and procured a razor to defend himself, but the two were arrested before anything further of a belligerent character occurred between them. Hogan declares that the shooting was an accident, that he was simply trying to hold in the reins, when he unintentionally pulled the trigger. He falls, though, to give a satisfactory explanation of why he had the pistol cocked in his hand, at the time he was trying to manage the horses. Campbell will probably assert, when he gets sober enough to do so, that his having the razor in his hand was also an accident. They are both in jail and will probably have a hearing to-morrow.

Critchfield, Proprietor, is printed on each packet, without which none is genuine. Sold by druggists at 25 cents three cakes, 50 cents a tin.
