Children in Various Parts of New York and Brooklyn Are Being Set Upon by Vicious Men.

New York, Aug. 5 .- One of the most brutal of recent crimes against women and children was today charged against Buzza Fontza, who was locked up at New Brighton station, on a charge of assaulting Antoinette Taluci, the 2year-old daughter of Mr. and Mrs. Pasquale Taluci of New Brighton.

Fontza and Taluci are both laborers employed at the King Plaster mills in Brighton, and Fontza boarded with the Taluci family. Fontza was left with the little child this afternoon while Mrs. Taluci went shopping. The mother had not gone far from the house when the child's screams brought her back. When he saw Mrs. Taluel, Fontza rushed from the house. Mrs. Taluci followed him. Her cries brought out the neighbors and soon a mob was following the fleeing Italian down the street. The pursuers soon overtook the man and he was knocked to the ground. where he was severely beaten and kicked by men and women until a police-the α_{pp} area and with club and revolver fought off the crowd.

Deputy Police Commissioner O'Keefe, who is in charge of the police depart-ment during the absence of Commis-sioner Bingham, today asked the mayor and the board of estimates and appro-priations for funds to employ 500 ad-ditional policemen. The request will be acted upon Wednesday. Most of the crimes are committed in life frequented places. Mothers throughout the city are terror-stricken, and incidents which under ordinary circumstances would be passed over without a second thought are magnified and reported as crimes which have lit-tic officials believe there is not an un-usual number of assaults, but that the sveral murders within the last few weeks and the hysterical condition of the people, particularly in the tenement district, have caused reports to the po-loc of which under ordinary circum-stances they would never hear. Crew Practically Same as on His Last Trip-The Roosevelt Better Equipped Than Before.

Portland, Me., Aug. 5.-Commander Robert E. Peary left here for New York, whence he will sail in a few days on an expedition to the north pole. Commander Peary said today: "From New York I shall go direct to Sydney, C. B., where I shall coal, and there will be no stops on the way, as I

have no time to lose. "My crew this time will be practically the same is on my last trip. Capt. Robert Bartlett is to command the

cally the same is on my last trip. CaPI. Robert Bartlett is to command the Roosevelt. I am going prepared to make every effort to reach the pole. If I do not succeed I shall stay one year later. I am taking along everything for a three years' trip." Commander Peary, giving some deg tails of his plans, said: "John Murphy, my old boatswain, is to be with me again. I am to have Wardwell, my old chief engineer; Ross G. Marvin of Buckport is to be my assistant, and he will be the only Maine member of the party. I am to have a new surgeon. There are several appli-cations for the position, but as yet no one has been chosen. I will settle that when I get to New York." Asked if he expected to reach the pole this time. Peary said: "A man who has had the experience in the north knows that to say l_will do a certain thing up there is ma.ness. I have learned many lessons from my other trips, and especially my last one, and I shall profit by all this experience. Whether I shall find the north pole or not is a question which will not be answered until I have either reached it or failed."

Asked if he had ample funds for car-rying out the expedition, Commander Peary replied: "I will say one thing and that is that

the delays in repairs on the bollers of the Roosevelt have been and are now worrying me a great deal more than the money with which to finance the expe-dition "the second secon dition.

enthusiasm for the trip. PEARY'S VESSSEL. New York, Aug. 5.—Stronger than ever in her hull and better equipped generally for her battle with the Arctic ice floes, Commander Peary's steamer Roosevelt lies at Shooter's Island ready to start in a few days on her second trip in search of the north pole. Since she returned from her hast voyage the Roosevelt has undergone extensive repairs. New planks have been added where needed, the hull caulked throughout and a new main topmast sent aloft. A new rudder and rudder post have replaced those crushed by the ice. On deck a new house has been built to furnish better living quarters for the crew of 20 men, all of whom have been shipped for the next expedition. The engines have received a general overhauling and two new Scotch bollers have been installed.

THE LIMIT OF LIFE.

The most eminent medical scientists are unanimous in the conclusion that the generally accepted limitation of human life is many years below the at-tainment possible with the advanced knowledge of which the race is now possessed. The critical period, that de-termines its duration, seems to be be-tween 50 and 60; the proper care of the body during this decade cannot be too strongly urged; carelessness then being fatal to longevity. Nature's best helper after 50 is Electric Bitters, the scientific tonic medicine that revitalizes every organ of the body. Guaranteed by Z. C. M. I. Drug Store, druggists, 50c. that he met J. Pierpont Morgan sev-eral times in Europe and that Mr. Mor-gan had made some large purchases for his own collections. Sir Purdon, speaking of the effects of the present tariff on art, said: "I believe the American tariff on art object has expariated a good many wealthy Americans who like ar-tistic things. I know personally of a number of Instances where wealthy Americans have gone abroad and pur-chased houses in London and Paris and surrounded themselves with works of art and then have decided to reside abroad perfmanently because they could not bring their collections home without paying a tariff that is almost prohibitive. A man does not like to pay a big sum for a rare work of art and then have to pay half as much again for bringing it home. "This same tariff is also a handi-cap to the development of American manufacturers of art. You can im-port samples and replicas of old mas-ters or tapestries and such pretty things, but when fit comes to the im-

ters or tapestries and such pretty things, but when it comes to the im-portant original thing- and really old and rare things, you have to pay an exorbitant tariff."

and was landed in jur at blanten to night. The shooting occurrerd in the main street at Blairton, and was the result of a complaint of a misdemeanor made to the police by Joseph Warech against his friend Lacach. The latter met Warech in the street tonight and asked him why he made the information. Be-fore Warech could reply Lacach shot him twice with a 38-caliber revolver. Mortally wounded, Warech fell, and Lacach drew from his clothing a hatch-et.

Lacach drew from his clothing a hatchet. The shots attracted a crowd from a neighboring house, and as they rushed to the scene of the tragedy Lacach hrew away his hatchet with which he was about to strike his victim and ran-for the hills. His way lay through the town. The crowd grew with every min-ute. He finally took refuge in a pile of brush and was surrounded by the mob, and to a demand that he give himself up he replied by drawing a ravolver and threatened to shoot. In the meantime some of the crowd had gone through the pile of brush and, before Leach could shoot, the pistol was knocked from his hand with a club. The man was immediately taken in charge by the mob, but A. L. Critch-field summoned the police from Blar-ton and, while cooler heads parleyed with the mob, the police spirited La-cach away to the jail. Warech was taken to a hospital, where he died in a few minutes. Warech and Lacach had been close friends for sev-eral years, but a few days ago it is said they had trouble over a womat.
