He once threw a dollar across the Potomac near his home in Esopus, and plunging into the turbid stream, he swam to the other side so rapidly that he was able to catch the dollar as it descended from its airy flight. Judge Perkor has also been known to stay render water three weeks without ut-tering a syllable. Herb W. Edwards of Des Moines, In., got a fall on an ley walk last winter, spraining his wrist and bruising his knees. THE BRIDE BA KED.

# However, She is Not Like Other Utah Girls Similarly Situated.

The following highly interesting osculatory tale about a Salt Lake and Ogden couple was told in the last issue of the Denver Republican received in this city:

<sup>o</sup>J. A. Benttie of Salt Lake City came all the way to Denver to wed pretty Myrtle Peterson of Ogden, and then she recused to kiss him.

"They made their appearance in Clerk Sommer's office yesterday morning and secured a license to marry. Then they went to Magistrate Rice to have the

### Convalescence.

Convalescence is sometimes merely apparent, not real, and especially is this true after such diseases as pneu-monia, typhoid fever and the grip. To make it real and rapid, there is no other route se highly to be other tonic so highly to be recom-mended as Hood's Sarsaparilla. This great medicine cleanses and re-news the blood, strengthens all the or-gans and functions, and restores health. Take Hood's.

ist Harms for analysis. The standard strength for lemon extract is 5 per cent of oil of lemon dissolved in grain alco-hol, and the analysis reveals the following condition of affairs: Seven samples contained less than 1 per cent of lemon oil; seven had from 3 to 4 per cent; six contained from 6 to 10 per cent; and seven possessed between 10 and 15 per cent of oil of lemon.

Eleven samples contained no oll whatever, and not a few were merely a mixture of lemon juice and analine or vegetable coloring. Analine is poison-ous but not enough was used to have any really injurious effect on the consumer. The highest grade of goods was found to be from the factories of the best known standard and local manu-facturers. Imitations were put up in bottles labeled with the names of fic-tilious firms.

The ficilious article can be told by pouring a little in water. If there is oil of iem-on in it, the water will become milky in appearance. If there is no oil, there will be no change. will be no change.

THE JAP FESTIVITIES. The Mikado's Utah Subjects Celebrate Anniversary of His Birth.

The American flag was crossed with that of the Japanese at the celebration in Harmonie hall last night of the fiftysecond anniversary of the one hundred and third mikado of Japan. M. Hashimoto, the leading speaker of the evening, said in English that one of the three great events of the presesut mikado's reign was the establishment of a constitution "giving liberty to man, and guaranteeing safety to property the same as in the United States." As guests of the Japanese were 12 officers of the American army, from Fort Douglas, and in all the speech making there was a tone of warm regard to America that showed these little brown men to be more than formally interest. ed in the friendliness between the two

powers, The celebration in honor of the mika-do'a birthday was participated in by about 75 Japanese from Sult Lake and surrounding points. Interest was add-ed to the evening by frequent allusions to the feet their ult surrounding to the fact that all Japan was praying for the downfall of Port Arthur and that the Jupanese troops were making the effort of efforts to present the news of the garrison's downfall to the em-peror as a birthday gift from his army. "Banzal! Banzal" greeted every reference to the situation in the far east, and especially the desperate fight n progress at Port Arthur. The whole one of the evening was one of tens: atriotism, not over demonstrative but leep rooted and inspiring in its sin-

'As you know, the occasion for this | reception is the fifty-second anniver-sary of the birth of our emperor, his majesty Mutsuhito. In tracing the growth, the marvelous advance of Jap-an during his reign, we find that there are several notable events standing out before all others. These I might brief-ly mention as the framing of a new constitution, giving liberty to man and

declared for war. This, for the purpose of protecting our country and preserving the integrity of Korea and Manchuria

The address was followed by the singing of a national air in Japanese, after which the presiding officer, Frank Ariman, delivered an address in English, in which he paid a tribute to the upright administration of the emperor. detailing his reign for the 37 years he has been on the throne, and emphasizing the great advance made in the scionce of government during that time. "After 52 years," he said, "he heads a brilliant campaign against one of the most powerful nations in the world." Short addresses were also made by K. Iishizuka, O. Okamoto, T. Kimuwan, K. Ibuka, I. Satto, M. Sataka and D. S. Spencer, one of the invited guests. After the speeches were done, and while waiting for the banquet to be prepared a display of freeworks was

There have been numerous explanations made as to how to mark your ticket on election day. Some of the instructions are very obscure. The clearest informa- 1 tion upon the subject is doubtless found in the statutes themselves which read:

"Any voter desiring to vote for all the candidates upon any ticket may mark in the circle above that ticket, or in the squares op-posite the names of all candidates thereon, or both such markings, "If the voter does not desire to vote for a candidate on a ticket the circle of which he has marked, he may draw a line through the name of such candidate, and the cross in the circle shall count as a vote for all of the other candidates on the

ticket. "To vote for candidates on two or more tlekets, he may mark in the squares opposite the names of such candidates without marking in any circle; or he may in-dicate his choice by marking in the circle above one ticket, drawsuch candidates on that ticket for whom he does not desire to vote, and marking in the squares opposite the names of the candidates of his choice upon other tlekets.

"The voter may also insert in writing in the proper place in the blank ticket the name of any person for whom he desires to vote, and he shall be deemed to have voted for that person, whether he makes or fails to make a cross

mark opposite such name. "The unnecessary marking of a cross in a square on the ticket below the marked circle shall not affect the validity of the vote, "In case of a question submit-ted to the vote of the people, the voter shall mark in the appropriate margin or place a cross
